EDUCATIONAL REFORMS IN STATE

MORE SCHOOLS OPENED : MYSORE MEN'S TRAINING COLLEGE TO YELWAL

Bangalore, 19

The Government of Mysore in a press note issued have explained the action taken to implement the various recommendations of the State Educational Reforms Committee.

Under the first Five-Year Plan, 787 new Primary, New Type Middle and Pucca schools have been opened.

250 additional Primary schools will be opened on Jan 30.

480 additional teachers for the existing schools have been appointed. Provision for appointing 1750 additional teachers has been made in the second Plan period.

100 new basic schools have been opened in the year 1955-56 making 293 Basic schools. The establishment of 2,000 Basic schools has been provided for under Second Plan. With the provision of land under the Bhoodan for schools movement, the development of Basic schools will be accelarated.

The Vidyanagar Centre has been converted to a Basic training centre and a post-graduate course for 12 teachers has been instituted there.

Locating a Basic Training Institute at Yelwal Bungalow, near Mysore City has been approved. Steps are being taken to transfer the Men's Training College at Mysore to Yelwal.

Provision for introducing a craft in 300 selected Primary schools has been sanctioned.

A 8-year course of integrated Primary education has been decided upon in view of the desirability of providing free and compulsory education up to the age of 14.

It has been decided to upgrade the present 4-year schools to 5-year schools and take up their further upgrading in a subsequent plan period. Additional 5th classes in 800 schools will be opened on Jan. 30. A draft curriculum for the 8 primary classes has been prepared. 450 S.S.L C.'s have been appointed to the Primary schools. Another 450 teachers who had not obtained S.S L.C. certificate have since qualified themselves. Proposals for immediate recruitment of 1,000 S S L C's to Primary schools have been made.

Strict instructions have been issued to schools that time-tables, programmes of work should be ready on the date of re-opening of the schools and that regular work must be commenced on the re-opening day itself.

A design for cheap school buildings costing about Rs. 5 per sq ft. has been prepared and in the current year a sum of Rs. 50,000 has been sanctioned.

31,738 acres of land have been collected under Bhoodan for schools. Instructions have been issued to schools for purchasing agricultural implements from the accumulated sports funds. Advancing money for expenses of cultivation to be recovered from the crop proceeds have been made.

Manual labour and social service activities, namely, cleaning school premises and buildings, effecting the maintenance repairs to school buildings, planting trees in the premises, afforestation have become regular and accepted activities in schools.

Proposals for the constitution of a Board for Primary education along with Boards for other grades have been made and are under the consideration of Government.

Government have accepted the policy of retaining the services of teachers until the age of 58.

LABOUR PARTICIPATION IN MANAGEMENT
NO LEGISLATION, SAYS UNION MINISTER

Mysore, 21

The Union Deputy Minister for Labour, Mr. Abidali stated here yesterday that the Government of India had no idea of passing any legislation regarding participation of labour in the management.

The Minister who was addresssing the localCongressmen here last night at the Congress office said that the time was not opportune for such a legislation but the Government would encourage the same if suitable opportunities presented themselves. Unless a sense of duty, responsibility and discipline with a view to producing more for the prosperity of the country originated in the minds of workers, no legislation for participation of labour in the management could be thought of, he added.

The Union Labour Minister also stated that the Minimum Wages Act could not be applied to agriculture labour as there would be clash of interest and create confusion because middle-class Congaessmen were themselves owners of small-holdings. However he advised Congressmen to see that agriculture labour got more employment opportunities as that was the crux of the problem. Perhaps he thought Amber Charka would go a long way in this direction.

Earlier, Mr. Abidali addressed a meeting of labourers at the premises of Beedi Mazdoor Labour Association.

Mr. A. Ramanna, on behalf of the workers welcomed the Minister.

The Union Minister explained in detail the various measures undertaken by the Government to improve the economic condition of the people. In order to bring about a socialistic pattern of society, the Government were by stages eliminating capitalism by way of heavy taxation on the rich and the latest being the nationalisation of Insurance business. Here he said that unless people and the labourers co-operate and work hard, they could not achieve this goal.

Mr. A. G. Ramachandra Rao, Mysore Labour Minister who presided paid tributes to the services of Mr. Abidali in the cause of labour.

DEVELOPMENT OF CATTLE WEALTH

Rs. 53-crore schemes for the development of cattle wealth have been included in the Second Five-Year Plan.

It was proposed to establish 1,400 additional key centres along with the 600 already functioning. These centres undertook scientific breeding of cattle for release to villages. 200 additional artificial insemination centres would also be started.

150 new 'gosadans' for keeping useless cattle and 500 'gosadans' for cattle development, 300 poultry development blocks were some of the other schemes to be undertaken.

Varsity Examinations
MINISTER'S CLARIFICATION

Mysore, 21

The Education Minister Mr. A. G. Ramachandra Rao told pressmen yesterday that the Government had not received any communication regarding the postponement of University examinations as demanded by students. But he added that it was entirely left to the University Council to take any action they deemed proper and the Government would not say "no" to it Here he stated that some Principals had told him that they had received requests from the parents not to postpone the examinations.

Referring to the revision of Teachers' Pay, the Minister said that the Mascernes Report was expected in a day or two and the Government would pass orders very soon.

The State Government was very anxious to revise the pay scales of the University teachers as proposed by the University Grants Commission but at the same time they wanted that the University should raise the tution fees, the Minister said.

Mr. Ramachandra Rao stated that he was hopeful that Bellary would remain with Mysore.

SOVIET SCIENTISTS IN CITY

Mysore, 21

A party of 15 Soviet scientists led by V. Topchiev, Secretary-General of the Academy of Sciences, USSR visited yesterday the Central Food Research Institute and evinced keen interest in the processes standardised at the Institute.

Later addressing a meeting, Academician Topchiev said that they were impressed by the rapid growth of science and culture in India. The wonderful results" obtained by you in your noble endeavour to serve the Indian people, is a matter of pride even to scientists like us". He said that contacts between scientists in India and Russia are increasing and this, he hoped, would be for the good of all concerned.

Earlier, Director Dr. V. Subramanyam welcomed the foreign scientists.

PROPER UNDERSTANDING OF AYURVEDA

Mysore, 21

Sri Kaviraj Pratap Singh, former Principal of Banaras Hindu Ayurvedic College addressing the students of the Government Ayurvedic College here on Thursday stressed the need for the proper understanding of the indigenous system of medicine. He said it was important that this ancient system of Ayurveda should be taught to students on the modern scientific methods. The doctors should understand that their duty was to cure patients and as such they should understand the proper precept of Ayurveda and treat the patients.

Dr. Dwarkanath, the Principal welcomed the speaker and paid tributes to the services of Mr. Kaviraj in the cause of Ayurveda.

LABOUR PARTICIPATION IN MANAGEMENT

NO LEGISLATION, SAYS UNION MINISTER

Mysore, 21

The Union Deputy Minister for Labour, Mr. Abidali stated here yesterday that the Government of India had no idea of passing any legislation regarding participation of labour in the management.

The Minister who was addresssing the localCongressmen here last night at the Congress office said that the time was not opportune for such a legislation but the Government would encourage the same if suitable opportunities presented themselves. Unless a sense of duty, responsibility and discipline with a view to producing more for the prosperity of the country originated in the minds of workers, no legislation for participation of labour in the management could be thought of, he added.

The Union Labour Minister also stated that the Minimum Wages Act could not be applied to agriculture labour as there would be clash of interest and create confusion because middle-class Congaessmen were themselves owners of small-holdings. However he advised Congressmen to see that agriculture labour got more employment opportunities as that was the crux of the problem. Perhaps he thought Amber Charka would go a long way in this direction.

Earlier, Mr. Abidali addressed a meeting of labourers at the premises of Beedi Mazdoor Labour Association.

Mr. A. Ramanna, on behalf of the workers welcomed the Minister.

The Union Minister explained in detail the various measures undertaken by the Government to improve the economic condition of the people. In order to bring about a socialistic pattern of society, the Government were by stages eliminating capitalism by way of heavy taxation on the rich and the latest being the nationalisation of Insurance business. Here he said that unless people and the labourers co-operate and work hard, they could not achieve this goal.

Mr. A. G. Ramachandra Rao, Mysore Labour Minister who presided paid tributes to the services of Mr. Abidali in the cause of labour.

DEVELOPMENT OF CATTLE WEALTH

Rs. 53-crore schemes for the development of cattle wealth have been included in the Second Five-Year Plan.

It was proposed to establish 1,400 additional key centres along with the 600 already functioning. These centres undertook scientific breeding of cattle for release to villages. 200 additional artificial insemination centres would also be started.

150 new 'gosadans' for keeping useless cattle and 500 'gosadans' for cattle development, 300 poultry development blocks were some of the other schemes to be undertaken.

Varsity Examinations

MINISTER'S CLARIFICATION

Mysore, 21

The Education Minister Mr. A. G. Ramachandra Rao told pressmen yesterday that the Government had not received any communication regarding the postponement of University examinations as demanded by students. But he added that it was entirely left to the University Council to take any action they deemed proper and the Government would not say "no" to it Here he stated that some Principals had told him that they had received requests from the parents not to postpone the examinations.

Referring to the revision of Teachers' Pay, the Minister said that the Mascernes Report was expected in a day or two and the Government would pass orders very soon.

The State Government was very anxious to revise the pay scales of the University teachers as proposed by the University Grants Commission but at the same time they wanted that the University should raise the tution fees, the Minister said.

Mr. Ramachandra Rao stated that he was hopeful that Bellary would remain with Mysore.

SOVIET SCIENTISTS IN CITY

Mysore, 21

A party of 15 Soviet scientists led by V. Topchiev, Secretary-General of the Academy of Sciences, USSR visited yesterday the Central Food Research Institute and evinced keen interest in the processes standardised at the Institute.

Later addressing a meeting, Academician Topchiev said that they were impressed by the rapid growth of science and culture in India. The wonderful results" obtained by you in your noble endeavour to serve the Indian people, is a matter of pride even to scientists like us". He said that contacts between scientists in India and Russia are increasing and this, he hoped, would be for the good of all concerned.

Earlier, Director Dr. V. Subramanyam welcomed the foreign scientists.

PROPER UNDERSTANDING OF AYURVEDA

Mysore, 21

Sri Kaviraj Pratap Singh, former Principal of Banaras Hindu Ayurvedic College addressing the students of the Government Ayurvedic College here on Thursday stressed the need for the proper understanding of the indigenous system of medicine. He said it was important that this ancient system of Ayurveda should be taught to students on the modern scientific methods. The doctors should understand that their duty was to cure patients and as such they should understand the proper precept of Ayurveda and treat the patients.

Dr. Dwarkanath, the Principal welcomed the speaker and paid tributes to the services of Mr. Kaviraj in the cause of Ayurveda.

NO URGENCY FOR STATES REORGANISATION

Mr. C. Rajagopalachari in a statement on the reogranisation of States has stated that "Policy decisions should issue out of calm consideration by Parliament of all the requirements of the case. I have expressed my opinion before that there is no urgency for reorganisation of State boundaries either as recommended or otherwise and that it could wait until immediate and urgent tasks are accomplishad.

"The question to be considered would be whether the maintenance of the *status quo* would cause such great national advantage as to warrant the undertaking of the risks involved in precipitating these proposals.

"When the proposals are placed before the Parliament, it has the opporunity and the responsibility to examine the whole matter carefully and if wisdom demands it, to postpone the whole affair."

HUSKED RICE

The Government of India have decided to ban export of husked rice outside India with immediate effect.

RISE IN INDUSTRIAL PRODUCTION

It is a matter of gratification that industrial production in the country has been steadily gaining mementum. In 1953 the index of industrial production stood at 135.3, the year 1946 being the base. In 1954 the index rose to 146.6, and in 1955 the rising trend reached an all-time peak of 167 as early as April 1955.

The production of steel in 1955 exceeded the all time record of 1954 by 20,000 tons, the actual output being about 1.25 million tons. The production of cement last year was as much as 4.5 million tons. The production of mill cloth exceeded the level of 5,000 million yards. To meet our cloth requirements, not only have the mills produced more than ever before, but the handlooms made a valuable contribution with an increased out put amounting to nearly 1400 million yards, the highest figure since independence.

COMMUNIST STATE NOT ACHIEVED

DEMAND NOTICE TO GOVERNMENT
ELECTRIC EMPLOYEES UNIONS' DECISION

Mysore, 23

The Central Executive Committee of the Government Electric Department Employees Union, which met here yesterday, Mr. K. Kanan presiding, resolved to serve a fresh notice of demand to the Government and requested all branches of the Union to prepare the employees for action and await for the call.

In a resolution adopted, the Committee has pointed out that the Government failed even to implement the inadequate recommendations of the three-man Committee which submitted its report in July last year.

The resolution further stated "Meanwhile the authorities of the Electric Department have been doing everything to weaken and disrupt the Union, by throwing out hundreds of employees without paying retrenchment compensation as provided by law, transfering active members of the Union to places as penal transfer and denying any encouragement to them. To spite the employees who are organised in the Union, the Government has granted a bonus to those employees who betrayed the bargaining capacity of the Union by attending work during strike". Under these circumstances, the Union is constrained to take action.

The Executive also decided to hold an 'All-India Convention of the representatives of all the Electrical Trade Unions in India at Mysore in April next.

ACCEPT OR SHELVE SRC REPORT
SUCHETA KRIPLANI'S ADVICE

Mysore, 25

Smt. Sucheta Kriplani, the PSP leader and M. P. addressing the local Praja-Socialist workers here this morning stated that the idea of dividing the country into zonal States was a careful move adopted by the Congress to get out of the difficulties which they found themselves now. Although the idea of zonal formation was good she felt that it could not be taken seriously at the present juncture.

She said the problem of reorganisation of States was a problem created by the educated and it was not a problem of the masses at all. What they required were basic necessities like food, clothing and shelter.

She opined that the Government should either accept the S.R.C. report in full or shelve it.

She condemned the orgy of violence resorted in Bombay and advised the people to solve their problems through peaceful democractic means.

Smt. Kriplani described the nationalisation of life insurance business as a forward step

She opined that the problem of unemployment would not be solved by second Five-Year Plan but anyway stress had been laid for providing employment.

She advised the PSP workers no to be satisfied with delivering speechs but should have a close contact with people and try to solve their difficulties.

Mr. M. N. Thimmiah, the local Secretary welcomed.

Cosmopolitan Club Golden Jubilee

Mysore, 25

The golden jubilee of the Cosmopolitan club was celebrated here yesterday, His Highness the Rajapramukh presiding.

After invocation and music, Mr. B. K. Ramakrishniah, President of the Club welcomed His Highness.

Sirdar K. Basavaraj Urs presented an address detailing the activities of the Club during the last 60 years He also thanked several donors for the construction of the Jubilee Hall

His Highness in his address stated that Clubs had been regarded now as an expedient to save society from being cut up into too rigid and conservative groups.

He said that man was a gregarious animal. There were people whom no companion was so companionable as solitude. A very few might even consider that the only possible society was oneself But the instinct to get and be together for mutual benefit and pleasure was deep rooted and as old as the human race. Here he pointed out that the ancient clubs in classical age were organised for purposes of religion, trade, privateering and for 'common eating'. In course of time these clubs lost their religion, business and predatory character and became associations for providing some society and enjoyment to the individual.

The Rajapramukh said that he was glad that the Cosmopolitan Club had developed in many directions and had come to take an essential place in the life of its members. Out of this cosmopolitan activity in the club had arisen a good-fellowship that bound all members together however varied and differing their interests and inclinations.

His Highness then declared open the Golden Jubilee Hall and distributed prizes to the various winners in sports and other competitions.

Mr. J. B. Kumararadhya proposed a vote of thanks.

ATOMIC POWER FOR BENEFICIAL PURPOSES

MYSORE CHIEF MINISTER'S APPEAL

Bangalore, 25

Inaugurating the 8th session of the Committee on Trade and Industry of the Economic Commission for Asia and Far East, here yesterdav, the Chief Minister Mr. K. Hanumanthaiya made a fervent appeal for harnessing atomic power for peaceful and beneficial purposes.

Mr Hanumanthaiya said that the economic progress of the world could be measured in terms of nomenclature of the power that had been harnessed from time to time. Now we were at the zenith of the age of oil, gas and electric power and he wondered whether that explained the greasiness, the empty bustle and the flashy nature that they so often found in modern civilisation.

Now another age, the atomic, was dawning. Atomic power was born as a weapon of war It frightened humanity as nothing else did before but a flash of sanity brightened the world in the form of the Geneva Conference. Everyone now agreed that atomic power should be harnessed to peaceful purposes, thus raising humanity to a higher and better standard of life. The use of atomic energy in the field of agriculture, medicine travel and industry might prove a short cut especially to the backward countries to catch up with the progress that the forward countries had so far made

Mr. Hanumanthaiva declared that no plan of industrial or economic advancement would really matter unti they removed one malady from which the people of Asia and Africa were suffering in various degrees, exploitation He added that "You cannot make the world safe for democracy and freedom with continuance in any form, of colonialism and racialism. Those who run the United Nations and its agencies, have to realise this fundamental and simple truth."

The Chief Minister said that mere material progress was neither sufficient nor desirable. Along with a higher standard of living there should be a higher standard of life.

The Executive Secretary, Dr. S. P. Loganathan detailed the activities of the Committee during the last year.

97 delegates from 20 countries are attending the session.

Mr. Ashraf Said of Pakistan was elected Chairman of the Committee.

ROAD DEVELOPMENT

Road development work of a total value of about Rs. 57 crores on National Highways has been included in the current Five-Year programme and an expenditure of over Rs 27 crores will be incurred during the current plan period, leaving works of a total value of Rs. 30 crores to be continued under the Second Five-Year Plan

Rajapramukh's Call To People

REPUBLIC DAY CELEBRATIONS

Bangalore, 27

His Highness the Rajapramukh called upon the people to "dedicate ourselves, each to the utmost of his gifts and capabilities, to a life of useful endeavour with increasing co-operation, public spirit and tolerance."

The Rajapramukh who took the salute at the ceremonial parade held at the RaceCourse here yesterday in connection with the Republic Day said "Today is a day of rejoicing, when we recapitulate with justifiable pride the success that has attended our endeavours in so many fields of activity, and it is also a day of thanksgiving when we remember with feelings of reverence and gratitude those great leaders who laboured and scarificed themselves to achieve the freedom which we now enjoy.".

The paramount need of the hour he said was for a co-operative and selfless effort on the part of every one of us if the goal we had set before us was not to remain just a dream but to be translated into fact and achievement, he said.

The Rajapramukh referring to the reorganisation of States said "Our leaders have been warning us that no particular State or area can afford to concentrate on its individual progress and well-being alone but that each should develop with the supreme idea of the progress of India as a whole. The coming months will certainly put to test the unity and solidarity of our nation, and God grant that we may emerge from that trial unscathed. Let us remember the underlying unity of our common culture and the important fact that first and foremost we are Indians and overcome feelings of narrow provincialism."

No Escapist Approach

Bangalore, 27

Chief Minister Mr K. Hanumanthaiya commenting on the proposed formation of Dakshin Pradesh said "The idea of Dakshin Pradesh has come up for consideration rather suddenly and more as a means of escape from the troubles occasioned by S. R. C. Report than on its own merits Big problems like this cannot be considered with an escapist psychology. It deserves serious application and study. I will not be able to come to an opinion for another month."

Mr. S. Nijalingappa has stated that "it would be too hasty to think of forming a new Madras-cum-Karnataka-cum Kerala State. After all, the unfortunate incidents in Bombay and elsewhere should not be sufficient reason for thinking something entirely new to the S. R. C. recommendations

Women Act As Priestesses

The women of the Sora tribe, inhabiting the hills of Gunupur Taluq of Koraput District in Orissa, play a prominent part in the funeral rites of the tribe, according to a bulletin of the Anthropological Department of the Government of India.

Sora women act as priestesses in all cases of communal and individual worship including funeral ceremonies. Priesthood is not hereditary among the tribe, and any women can be trained as a priestess.

It is the women who figures prominently in the funeral rites-from washing of the body to carrying in to the cremation ground. The men scrupulously remain aloof. A woman's right to occupy positions normally held by men is acknowledged by the Sora tribe. A remarkable instance was found in a Sora village, Buramsingi, where an elderly spinster was the village head.

Regional States Welcomed

Bangalore, 28

The Standing Committee of the Mysore Anti-Merger convention, meeting here yesterday has welcomed the formation of Zonal States.

In a resolution adopted, the Committee Stated that the outbursts arising out of linguistic frenzy witnessed in Maharashtra, Orissa and other parts of the country are a serious and timely warning against linguistic vivisection of the country.

The Committee therefore expressed its deep appreciation of the wise and statesmanlike lead given by the Chief Ministers of West Bengal and Bihar for the preservation of national unity and solidarity.

Further, the Committee warmly welcomed the proposals contained in the appeal made by the Prime Minister to emulate the example set by Bihar and Bengal The Committee earnestly urged upon the Congress Working Committee to initiate the scheme of Regional States composed of multi-lingual units early, bestowing careful thought on details for the efficient administration. It also strongly urged that the SRC proposals should be dropped.

Industrial Estates

Bangalore, 28

The Government proposed to establish Industrial Estates in suitable places in the State during the Second Five-Year Plan.

The Estates will be located in places where there are railway, water and electric power facilities. Preference will be given to places where small industries or crafts are concentrated. Facilities like work-sheds, electric and gas power will be provided so that industrialists can straight away start the industries. The Government also propose to locate common facility centres in the Industrial Estates so that the small industrialists who are not in a position to by any machinery can get service in the common facility centre. Other facilities like canteen, hospital, post office, bank will also be provided.

No elected Vice-Chancellor

UNIVERSITY SENATE'S VIEWS

Mysore, 28

At the adjourned meeting of the Mysore University Senate held today here, in the Crawford Hall, a resolution moved by Sri H.C.Linga Reddy recommending for a non-official elected Vice-Chancellor to the University was discussed at length and later the mover withdrew the resolution.

Messrs Bheemappa Naik, T.S. Rajagopala Iyengar, M.P.L. Sastry and Mascernas strongly opposed the resolution on the ground that the post of elected Vice Chancellor would become a hot-bed of politics. Various Education Commissions haveing seen the havoc created by having elected Vice Chancellors in North Indian Universities have strongly condemned this procedure and have recommened selection of Vice Chancellor by the Chancellor. They also pointed out that when the Mysore University had no autonomy, how could they think of this question at this stage. They said it was better to discuss this point on the floor of the Legislature when the University Bill was before it.

Messrs N. Srinivasamurthy and K. M. Madappa supported the resolution,

MORE FAILURES OF BOYS THAN GIRLS IN COLLEGES

SENATE ADOPTS FAILURE COMMITTEE'S REPORT

Mysore, 30

The University Senate, at its meeting held here on Saturday adopted unanimously the report of the Committee to investigate the causes for large number of failures in University examinations.

Prof. Bondade, Principal of the Central College presenting the Report said that the percentage of failures in the case of boys was double or even more than that of girls. This was so because girls were more amenable to discipline than boys. Also girls appeared to be more financially secured than boys.

Another feature, he said, was that Government colleges had greater precentage of failures than private institutions as the former could not rigorously enforce discipline.

Prof. Bondade made a particular reference to the biggest Government College in the State--Central College--and said the position there was the worst, with the greatest number of failures. He suggested the appointment of a Committee to look into the causes at the Central College.

He revealed that every year between 6 to 7 thousand students out of 22,000 failed. This meant that there was an annual loss of about Rs. 70 lakhs to the State.

The Committee, in its report (details already published in these columns) had listed late admissions to colleges, lack of discipline among students and teachers, "poor material" that entered the colleges and foreign language as medium of instruction among the causes for the large number of failures.

During discussion Prof. A C Dave Gowda pointed out the necessity of revising the present system of examinations He also insisted that there should be proper teaching training given to University teachers before they were appointed straightaway after getting their degrees.

Mr. Mulka Govinda Reddy said that large number of failures were due to inordinate delay in selection of students to colleges by Admission Committees, change of Kannada medium in high schools to English medium in colleges, shortage of teachers and lack of missionary zeal in Government colleges.

Mr.N.Srinivasa Murthy stated that the present trend of emphasising the number rather than knowledge and lack of discipline and care of students by teachers and parents were responsible for failures. He wanted that only such students who really possessed merit should be admitted to colleges.

Mr Gorur Ramaswamy Iyengar pleaded for proper control over students. Steps should be taken to provide better environment to students. In his opinion the present English medium of instruction wss the main cause for the failures.

Mr. Ganji Veerappa said that they should abolish Admission Committees and lay general policies for selection of students to colleges. The University should make arrangements for sending periodical report of students to the parents.

ACC Social Camp

Mysore, 30

Mr. N S. Hiranniya, Director of Public Iustruction took the salute of the ceremonial parade held on the occasion of the closing function of NCC and ACC camp in Oddarapalyam near Mysore, on Saturday.

About 1,200 ACC boys, girls and teachers of 47 High Schools from all over the State participated in the social service camp. The boys constructed 3½-mile fair weather road at Kathemaranhalli and the girls helped the villagers in child welfare and cleanliness campaign.

Commander D.H.R. Dadabhoy of No. 10 Circle Cadet Crops and officer-in-charge of the camp welcomed.

Mr. Hirannaiya after distributing prizes to the best cadets complimented them for their smartness and said that their social service was commendable He pointed out the necessity of every boy and girl in the country taking up this cadet training so that they could become good and useful citizens.

Food Position Better In Mysore

Bangalore, 30

The Union Food Minister Mr. A. P. Jain had discussions yasterday with the Mysore Government regarding food situation in the State.

Mysore Food Minister Mr. Siddaveerappe told the Union Minister that the food position was satisfactory. This year's rice crop was better than last year's and there was no necessity to import rice from outside this year.

It was also pointed out to the Union Minister that since the ruling prices of foodgrains were favourable to the producers, the price-support policy of the Union Government was not brought into effect so far. But the State wanted the Ragi should be included in this price-support policy.

NO S. R. C. BILL NOW

The Union Government, it is learnt have decided to put off circulation of the S R. C. Bill for the present.

The Government is believed to have come to the view that linguistic division of the country now would spell disaster and the best soluiion is formation of multi-lingual States.

The Congress High Command has instructed the Mysore Pradesh Congress Committee to gather views of Congress bodies and leaders on the Dakshina Pradesh idea.

State Officials Blamed

LACK OF HEADWAY IN NEW PADDY CROP METHODS

The lack of any impressive headway in the new method of paddy cultivation in the country was due to apathy of States officials, according to the findings of an Expert Committee of the Krishi Vistar Vibhog of the Gandhi Smarak Nidhi appointed in 1953.

While the Central Agricultural officers were very enthusiastic and had taken up the work of propagating the improved method of paddy cultivation very earnestly, the Committee said the officers of the States were apathetic and were uninformed and in some case illinformed about it. They also noticed a lack of enthusiasm even among the highest officers of the States.

The Committee, therefore, recommended that, instead of each State issuing its own note regarding the improved method for the guidance of their agricultural officers, the note prepared by the Union Agricultural Ministry should be issued to all the Central and State Agricultural officers.

High Command's No

The Maharashtra Paadesh Congress Committee in a resolution adopted, has requested the Congress Working Committee to reconsider its directive to Ministers, Members of Parliament and Legislatures to withdraw resignations, if given, on the issue of reorganisation of States.

But there is not the slightest possibility of the Congress High Command reconsidering its directive. The MPCC resolution was described as rediculous and meangingless because the earlier resolution of the PCC on the subject was ultra vires of the Congress Constitution. Congress Ministers and members of legislatures could resign their seats only after quitting the Congress organisation, it is stated

Talks On Dakshina Pradesh

Bangalore, 30

The Chief Ministers of Mysore, Madras and Travancore-Cochin will meet here on February 1 and 2 and will have informal talks with Prime Minister Nehru on the question of forming a Dakshina Pradesh.

MORE TROUBLES,

—Says Hanumanthaiya

The Chief Minister Mr. K. Hanumanthaiya stated that the idea of a Dakshina Pradesh would bring further troubles because it sought to club together three or four incompatible units.

He said the proposal was "intriguing. The question now was not of enlarging Mysore State, but of merging Kerala, Karnataka and Madras with a population of six or seven crores into one State. If Andhra alao joined Dakshina Pradesh the population of the proposed State would reach the phenomenal figure of ten crores.

If there was the integration of three or four States, he said there was the question of capital and language of Secretariat and legislature. That way the issue was beset with evil consequences.

PEOPLE'S OPINION NECESSARY

Bangalore, 31

Mr. K. Hanumanthaiya, Chief Minister referring to the important conference of the Prime Minister with the Chief Ministers of Mysore, Madras and T-C. regarding formation of Dakshina Pradesh stated here that "unless the people want it, in these days of democracy, we cannot force it on them. The idea has come so suddently, I have not been able to sound public opinion. So I want your opinion"

OPPOSITION TO DAKSHINA PRADESH

The President of the Karnataka Pradesh Congress Committee, Mr. Cnannabasappa Ambli has opposed the idea of creating Dakshina Pradesh.

This proposal was not only impracticable, but would encourage rivalry and individuality among its linguistic components.

NO LINGUISTIC AGITATION

Mr Asoka Metha, Praja Socialist leader addressing a sammelan of his partymen at Ahmedabad asked them to 'keep away from linguistic agitations' and endeavour to 'strengthen the fabric of national unity.'

NO RUNNING AWAY FROM OFFICE

Prime Minister Nehru stated at Delhi that resignation of public men from their office in difficult times only meant "their running away from responsibilities instead of facing them boldly and squarely."

Do You Know This ?

India, with an annual production of 60,000 tons of cashew nuts, has a monopoly of cashew trade in the world. Ninety per cent of the trade is in Indian hands. The principal buyers are the United States and the United Kingdom who import 75per cent of the Indian produce.

The value of capital assets of the Post and Telegraphs Department rose to Rs. 50 crores at the beginning of the first Five-Year Plan from Rs. 33 crores after partition. It is expected to increase to Rs. 92 crores by the end of the Plan period.

India has at present 5,000 Telegraph Offices as against 3,324 at the time of independence. Besides, 4,000 Telegraph Offices have been set up for the railways and at various irrigation project areas.

Soil conservation work is to be undertaken in 4 million acres of land under the Second Five-Year Plan. Nearly 7 million acres are expected to be surveyed in this connection. About 2.4 million skilled and unskilled workers and about 5,000 administrative, clerical and technical personnel will be required for the work.

The percentage of children of school-going age, who actually attend schools, has now gone up to about 50 per cent. Between 1947 and 1951 the percentage went up from 30 to 40.

The consumption of ammonium sulphate in India increased from 2.7 lakh tons in 1950 to about 6 lakh tons in 1955, which is very near the first plan target.

No Danger To Taj Mahal

The Union Government has stated that the fears expressed in newspapers regarding the condition of the Taj Mahal are exaggerated and the mausoleum and the connected buildings are in normal and sound condition. It is one of the premier monuments in the country, and the Government have always given special attention to its needs. A sum of over Rs.5 lakhs has already been spent on the repairs to the monument and the connected buildings during the last ten years.

The Department of Archaeology has been fully aware of the existence of various cracks in the buildings, but these do not by themslves constitute any immediate danger to the structure and they are already on the programme of repairs.

ENHANCEMENT OF TAXES OPPOSED

CITY FATHERS' PLEA

Mysore, 1

At the Municipal Council meeting held last evening, Mr. A. Krishna Murthy Rao, President presiding, several councillors STRONGLY OPPOSED FOR ANY ENHANCEMENT OF TAXES IN THE REVISION OF ASSESSMENT.

Messrs. Chowdiah, B.G. Das, M.N. Thimmiab, Narayana Rao Aziz Sait, Mahamud Sait, Yakub Khan, H. N. Muddiah and Srikanta Sharma pointed out that the citizens were already groaning under heavy taxation and as such pleaded that there should not be any increase in the taxes at the time of revision of assessment.

Hot words were exchanged between Mr. K. Puttaswamy and Messrs. M. N. Thimmiah and Aziz Sait, when the former stated that the councillors should not talk 'irresponsibly.' He alleged that some councillors by speaking like this would influence the Assessment Officer which was against the rules and procedure. The latter objected to the remarks of Mr. Puttaswamy and said that as representatives of rate-payers, they had every right to bring to the notice of the Council the citzens. difficulties. Their intention was only to see that there should not be more taxation and there was no intention of influencing the officer.

The President intervening said that under the rules, it was compulsory to revise assessment once in four years and they had no powers to instruct the officer in-charge of the assessment. Anyhow the councillors' suggestion would be considered when the report of the assessment came up befor the Managing Committee.

When the Health Committee proceedings came up for consideration, Mr. Srikanta Sharma raised a point of order that the Health Committee had no powers for withdrawal of notice issued by the Health Officer to a hotelowner near Sithavilas Choultry who was running the hotel without a license. The President reserved the ruling.

Mr. Srikanta Sharma again raised a point of order when the Legal Committee proceedings came up for consideration that the then President had no authority to dispose off the case in connection with some construction of building by Mr. Nandibasappa when the Works Committee had referred the matter to the Legal Commitiee. The President also reserved the ruling on this matter.

More Schools Opened

Bangalore, 1

120 new primary schools were opened on Sarvodaya Day in various parts of the State besides 30 New Type middle schools.

Giving this information, Mr. Hirannaya, Director of Public Instruction said that the Government would soon pass orders for opening three High Schools and 10 Complete middle schools. He also disclosed that one or two Occupational Institutes would be opened either at Tumkur or Chikamagalur.

He stated that the Department had prepared syllabus in all subjects in accordance with the recommendations of the Education Reforms Committee. The High Power Committee for Text Books had constituted a sub committee with Mr T Singaravelu Mudaliar as Chairman to go into the question of preparation of text books.

PRIMARY SCHOOL BUILDINGS

Mr Hirannaya said that the Department was ready to give outright grants of Rs 500 each for persons coming forward to construct buildings for primary schools according to prescribed specifications. The entire building would cost Rs. 1,500, thus persons coming forward would have to donate Rs. 1000 for the building.

UTILISATION OF LANDS

The Director said that so for 31,000 acres of land consisting of 28,000 dry, 3,000 wet and 200 garden land had been received for Vidyadan. In regard to cultivation of these lands, he said those that were not in close proximity to the schools would be planted with fuel trees or would be leased to the donor for cultivation. In regard to lands situated within half a mile of a primary school, within one mile of a middle school and within one to one-and-a half miles of a high school, they would be cultivated by the staff and the students. Of the yield, 10 per cent would be kept in reserve, 30 per cent would go to teachers and the rest would be utilised for the benefit of students

Silk Industry

Grants amounting to over Rs. 6,34,000 have been sanctioned by the Government of India to nine States for the development of silk industry.

Mysore gets two grants of Rs. 50,000 and Rs. 11,100. The first grant is for providing subsidy to rearers of Kunigal, Doddaballapur and Bidadi areas for digging wells. As most of the gardens in these areas are rainfed, there is excess production of seed cocoons during rainy season while in summer there is dearth of seed cocoons and prices shoot up. For increasing the production of Mysore seed cocoons during summer it is necessary to dig wells and thus provide irrigation facilities to the rainfed gardens. Most of the seed rearers are very poor and hence the subsidy is to be given to them for sinking wells.

The second grant is for providing refrigerators-cum-incubators for hibernation and incubation of silk worm eggs in the basic seed hill station and central farms.

DAKSHINA PRADESH WELCOMED

Mr. M. V. Krishnappa, Union Deputy Food Minister and Mr. H.C. Dasappa, M.P. in a joint-statement said that proposal for the formation of a Dakshina Pradesh merits serious consideration. "It is only by the creation of such composite States where different language groups are thrown together for common service that a true sense of unity can be fostered."

OPPOSED

Mr.A. Ramanna, the member of the Standing Committee of the Anti-Mysore Merger Conference in a statement stated that the resolution of the Standing Committee favouring the formation of Dakshina Pradesh was not only meaningless but also diametrically opposed to the very objective that we have been all along fighting."

This effort to unite the very same areas again where language was so keen would difinitely add fuel to the fire. Not only the smooth administration would collapse but more than that it would give enough room for grave discontentment and discord affecting the very unity of India.

Mr. Vedantha Hemmige, Joint-Secretary of the City Praja-Socialist party has criticised the idea of formation of Regional States. He said that the proposal would not only spell disaster to the country but it was against the very principle of decentralisation. It would affect the development of culture, language and prosperity of the States concerned.

P.M. INAUGURATES ECAFE SESSION

Bangalore, 2

Inaugurating the 12th session of the Economic Commission for Asia and the Far East here this morning at the Town hall, Prime Minister Nehru strongly pleaded for international amity so that there might be peace in the world.

Delegates from 22 nations attended the session.

Welcoming the delegates, His Highness the Rajapramukh of Mysore pointed out that the harmonions collaboration of more than a score of countries for their economic progress was a great thing in itself. The presence of non regional members and their association, he said testified to its true international character. He wished " may this be a happy augury for a two fold development in the years to come-- that of the economic advancement of backward regions, and that of the extension of international amity beyond the realms of economics and into the fields of politics and culture".

The Rajapramukh declared that a war in the atomic age would leave hardly anything standing and the only alternative to it was the establishment of lasting international friendship based on truth, tolerance and goodwill. National progress had now to be achieved along with international goodwill and political and economic relationships had to be built on a foundation of mutual trust and understanding.

The Rajapramukh said that they were fortunate in being led by the Prime Minister Nehru, a very personification and synthesis of robust nationalism and healthy internationalism. He was confident that the policy of Pancha Shila and the principle of peaceful co-existence would play a noble part in the promotion of international understanding and world peace.

BORDER KANNADIGAS DEMAND PLEBISCITE

Bangalore, 2

A conference of representatives of the border Kannada areas of Nilgirs, Hosur, Thalawadi Firka, Kasargode, Madakasira, Adoni, Alur, Rayadurga, Akkalkot, Sholapur and Jat meeting here yesterday urged the Union Government to hold a plebiscite or refer the border disputes to an independent judicial tribunal.

The Conference described the proposed Dakshina Pradesh as a " fangled proposal " and expressed astonishment ' at the serious consideration ' given to it.

Talks On Dakshina Pradesh

Bangalore, 2

Prime Minister Nehru had three-hour discussion last night with Chief Ministers of Mysore, Madras and T.-C. States over the question of formation of Daksina Pradesh. Mr. K.P.Madhavan Nair, General Secretary of the AICC was also present.

The talks, it is understood, were initiated by Prime Minister who pointed out the desirability of creating bigger States in order to cut across the unseemly linguistic and parochial fanaticism.

The discussion will be continued today also.

POLICE NEWS

One Lakh Compensation

Bangalore, 2

The Principal District Judge here has decreed that Mr. V, Nanjappa (brother of Mr. K. Hanumanthaiya) should be paid a comnpenstion to the tune of one lakh of rupees for acquiring his right over the 50 acres of Mattedoddi lands.

The Judge has stated that the compensation of Rs. 37,492 fixed by the Government was inadequate and he should be paid on the basis of the cost of land at the rate of Rs. 1,500 an acre, plus a 15 per cent solasium for compulsory acquisition, plus interest at the rate of 6 per cent per annum.

It may be recalled here that about four years ago, the Government granted a tract of 50 acres to Mr. Nanjappa at an upset price of Rs. 20 an acre. But the Congress High Command took objection and directed Mr. Nanjappa to surrender the lands by accepeting a nominal compensation of Rs. 13,500. But the Mysore Government took up acquisition proceedings and awarded Rs. 37,492 as compensation.

'Memorial' To Mob Fury

The scarred and burnt down Puri railway station is likely to be kept as it is and will not be rebuilt for sometime in order to bring home to the people of the area that such actions against State property only affect the people.

During the recent disturbances in several parts of the country, particularly in Western and Eastern India, railways have been the special targets of mob fury. Damage to railway property is itself considerable besides the loss to railways in earnings due to disruption of services.

THE YEARS OF UNBALANCE

Persons in the age group of 21 to 40 far outnumbered others in the mental asylums in Bombay State.

Out of 2,633 new admissions during the year in the six hospitals of the State, 1,786 belonged to this age group.

AFTER-CARE SERVICES SCHEME

The "fullest support" to the Central Social Welfare Board's proposal to launch a country-wide scheme for preventive, educative, rehabilitative and after-care services for women rescued from commercialised prostitution, was accorded in a resolution adopted at the fifth all-India Conference of the Association of Moral and Social Hygiene in India held at Jaipur.

The Conference adopted another resolution requesting the Government of India to expedite passage of the Suppression of the Immoral Traffic in Women and Girls Bill pending before Parliament.

RICE PRODUCTION

The all-India second estimate of rice for 1955-56 puts the current year's area and production of the crop at 72,332,000 acres and 23,775,000 tons, as against the adjusted second estimate of 69,456,000 acres and 22,126,000 tons during 1954-55. This shows an increase of 2,876,000 acres or 4 1 per cent. in area and 1,649,000 tons or 7.4 per cent. in production over last year.

NAVAL 'PRIZE' MONEY

Final agreement has been reached between India and Pakistan on the distribution of the Naval "prize" money between the Navies of the two countries.

Out of the proceeds of "prizes" captured in the late war, an aggregate of £160,529 was allocated to the India-Pakistan Pool by the united Kingdom.

ECAFE Session

Bangalore, 2

Flags of 24 countries, members of ECAFF, and the United Nations now flutter at the Puttannachetty Town Hall here where theCommittee on Industry and Trade of ECAFE has just concluded its 8th Session and where the Commission will begin its 12th Session today.

A small international township around the Town Hall, a miniature U N., has sprung up. The old City Town Hall built in 1935 now wears a completely new look. The floor level has been raised with a wooden platform on which a horse shoe table made of beautiful indigenous material, has been erected.

For the first time in India, the simultaneous interpretation and sound transmission system used at United Nations' headquarters, has been employed making it possible for delegates to hear the translation of a speech made in English, French or Russian at the same time the original is being delivered. The entire sound transmission system has been built by Indian Engineers mostly with Indian equipment.

The speeches are also relayed in the annexe of the Conference Hall where offices have been provided in Nissen huts for delegations from member countries. Special constructions have also been built in this annexe for the Chairman, the Executive Secretary of ECAFE and for other ECAFE Secretariat officials. Two interesting counters attract the attention of delegates as they enter the annexe. On the one hand, publications mainly on India's economic development under the First Five Year Plan, brought out by the Ministry of Information and Broadcasting, have been arranged against the background of charts, posters and photographs showing the main features of the Five Year Plan.

An interesting cultural programme representing a cross-section of India's rich cultural traditions has been arranged for the Delegates.

Relief To Educated Unemployed

As a first step towards tackling the problem of educated unemployed in the country, the Planning Commission has approved the starting of Pilot Projects in the field of small-scale industries. About 10,000 educated unemployed are expected to be benefited by these schemes in the first year of the Second Five Year Plan.

A sum of Rs. 130 crores on special schemes for absorbing the educated unemployed during the Second Plan has been recommended.

According to the study group, the number of the educated unemployed--matriculates and above--in the country at present is about 5.5 lakhs.

During the Second Plan period, the additions to the educated labour force would be of the order of 14.5 lakhs, making a total of 20 lakhs persons seeking employment.

They expect ten lakh jobs in the public sector and two lakh jobs in the private sector. The group expects that at the end of the Plan period there would remain 5.6 lakhs of the educated unemployed.

The group has also made a few recommendations with a view to mitigating 'frustration' felt by the unemployed.

Observing that 'frustration caused by a series of disappointments in the matter of job-finding can have as harmful an effect as permanent unemployment itself', the group has stressed the need for finding means which might reduce the period of fruitless waiting for clerical or other white colar jobs. One of them is to effect an improvement in the present system of recruitment for Government posts at junior levels.

The group considers that recruitment to all such posts should be made on the basis of a common examination. A merit list should be maintained from which appointments will be made.

Talks On Dakshina Pradesh

Bangalore, 3

The talks between the Prime Minister Nehru and Chief Ministers of Mysore, Madras and T.-C. States on Dakshina Pradesh which was continued here yesterday afternoon broke up inconclusively. It will be resumed at Amritsar.

It is understood that Chief Ministers were non-commital in their views insofar as none had enough time to know the exact position and public opinion in each of the three States.

A Congress spokesman stated here that neither the Prime Minister nor the Congress High Command was bringing any pressure to bear on the Chief Ministers to agree to the formation of Dakshina Pradesh. "Unless the people are in favour, there is no question of any pressure being applied", he said.

Mr. S. Channiah, MPCC President also met the Prime Minister and had discussions for about 45 minutes.

CAUSES FOR UNEMPLOYMENT

The major cause of the unemployment problem in India was primarily due to the rapid growth of population and only secondarily to the slow rate of development.

The survey conducted by ECAFE says that while there is evidence that the rate of economic development is likely to be speeded up in the near future, there is 'no indication' of a lowering down of the rate of population growth.

The sharp increase in unemployment over the past two or three years, says the Rsport, appears to have been halted with increased Government outlays on development, assistance to cottage and small scale industries and extension of social welfare facilities, community development and national extension services. " There is evidence of some increase in urban employment by Government and private industry."

An enduring solution of the problem of unemployment will depend on the rate of economic development through capital formation.

Considering the fact that national income in India has maintained a rate of growth averaging about three per cent over the last four years, it would appear that a target of five per cent rate of growth per annum is not over ambitious, especially if the target investment set in the Second Plan is achieved.

ORANGE JUICE POWDERS

Mysore, 4

A new method for the preparation of Orange Juice Powder has been standardised at the Central Food Research Institute, here

The juice powders can now be fortified with vitamin C and can be used for the preparation of sweetened orange juice The powders prepared under the new method compare favourably with similar imported products.

Orange juice is valued highly foi its vitamin C contents and orange juice concentrate. Orange juice powders are important articles of trade in countries like the U. S. A. Vitamin C is sensitive to heat. It is generally lost if the processing and the storage are not done at a sufficiently low temperature.

Academic Council Meeting

Mysore, 4

The Academic Council at its meeting held here today unanimously approved the Senate Resolution recommending to the University Council that a Degree of Doctor of Letters be conferred on Sri K. V.Puttappa, the famous Kannada poet of Mysore.

The Council adopted a resolution of Mr. N. Narasimha Murthy that when 'once a candidate has sat for the Intermediate examination and failed, he is permitted to appear for the examination without putting further attendance'. The mover pointed out that when the degree students had the benefit of not putting any attendance once they failed, he did not understand why the same benefit should not be extended to the Intermediate students also.

Dr. Kuppaswamy supporting stated that the failed students had become a 'problem'. There was a genuine fear that a failed candidate might corrupt the other students and so it was better that failed students need not attend classes again for the sake of attendance.

Mr. T. S. Rajagopalaiyengar opposed and stated that the Intermediate students were not mature like that of the Degree students and from the point of discipline it was necessary that they should attend classes. He pointed out that the present rule was a healthy one and it should be continued.

The Council also agreed to reduce the fee for Post graduate Diploma in Indology from Rs. 120 to 60.

The Council agreed to institute a prize called "The Teachers College Silver Jubilee Prize" to be awarded to a lady student who obtains the highest number of total marks in the B. Ed. examination.

Compulsory Domestic Science For Girls

CHIEF MINISTER'S SUGGESTION

Bangalore, 4

Chief Minister Mr. K. Hanumanthaiya suggested here that study of Domestic Science should be made compulsory to every girl student, otherwise all their knowledge would be of no use.

Speaking on the occasion of laying the foundation stone for the Domestic Science College by the Union Minister Mr. K. C. Reddy here yesterday, the Chief Minister said every year there should be practical examination held in cooking. " That day will be a day of great festivity, for, all of us can come and eat and pass judgment "He also wanted girl students should know a little of nursing, medicine, and sociology.

Mr.Hanumanthaiya opposed the uniformity in education for girls and boys. Such a system resulted in taking away the best qualities of both. "By the present system of education", he said " the ladies are becoming gentlemen-like-ladies and the gentelmen are becoming lady-like gentlemen, I want ladies to be better ladies and gentlemen to be better gentlemen."

VILLAGE INDUSTRIES

The Government of India have sanctioned further grants and loans totalling over Rs. 66,76,000 for the development of khadi and village industries.

The Council accepted a donation of Rs. 2000 from Mr. Bishade Pant Badami for awarding a prize for a student who gets the highest number of marks in History in B.A.

MAKE ILLITERATE VILLAGER 'SOVEREIGN' OF COUNTRY

START MORE JANATHA COLLEGES

MYSORE EDUCATION MINISTER'S PLEA

Mysore, 6

Mr.A.Ramachandra Rao, Education Minister inaugurating the ten-day Seminar on Janatha Colleges at Yelwal village last evening stressed the paramount importance of making the illiterate villager 'full sovereign' of the country so that he might discharge his duties of citizen-ship properly.

25 delegates from all parts of India including Punjab, Himachal, Uttara Pradesh, Bihar, West Bengal, Assam, Rajasthan, Orissa, Madhya Pradesh, Bombay, Hyderabad, Coorg and Mysore are attending the seminar.

Mr. N. Bhadriah, President of the Mysore State Adult Education Council, under whose auspices the Seminar was being held, welcoming the delegates said the Ford Foundation had given more than Rs. 10 lakhs for establishing more Janatha Colleges in the State.

Dr. D. B. Shastri, Deputy Director of Education, Bihar and Director of the Seminar speaking pointed out that so long a very large percentage of population of India was steeped in ignorance and was not conscious of its duties and responsibilities, of the contribution which an individual had to make towards the well-being of the community, they could not hope to reap the full benefit of the freedom. Dr. Shastri said the Janatha Colleges were meant to fill up this lacuna of raising their social and cultural awareness and to train such amongst the villagers as might go back to their village and became centres of social and cultural activities. Today, he said they wanted a very large number of elderly village leaders, youth, movement organisers and teachers of social education and it would be the function of Janatha Colleges to train such personnel.

Mr. Madiah, Gowda, M. P. and ex-President of State Adult Education Council addressing said that if democracy should live they should start one Janatha College in every district,

The Education Minister stated that millions of illiterate adults wanted to live full-life and merely became literates. Now with the dawn of freedom, when he was a citizen, it was our duty to make him the 'full soverign' of the country so that he would be in a position to discharge his duties as a citizen. He pointed out that out of 180 million voters, only 25 per cent were literates and as such it was our solemn duty to make the other 75 per cent educated and bring him to his full strata so that they could stand with dignity and courage Here he wanted that Janatha Colleges should take up the teaching lesson of our history by reviving our historical memory Our culture and civilisation should not be uprooted at any cost. He declared that by means of our culture, Mahatma Gandhi won the freedom and there was nothing to be ashamed of our culture. He also suggested that a Ladies and a Technical branch should be developed in Janatha Colleges. In his opinion Janatha Colleges should overshadow the present educational institutions,

Mr. P. C Shrma, Education Officer, the Government of India proposing a vote of thanks said that "Janatha college was the youngest baby of Adult Education movement" which should be nurtured and protected. He also stated that in order to counter-act the evils of industralisation they were starting these Janatha Colleges so that people might not migrate from villages.

Cold In Amritsar

Amritsar is in the grip of cold weather, with the mercury touching 36 degrees F., four degrees above freezing point.

Weather experts forecast that the minimum temperature in the next fortnight would remain below 40 degrees.

As such, the Congress Reception Committee has advised delegates and visitors visiting the Congress session to be held from Feb 8 to come fully equipped with warm clothing.

BHOODAN UNDER SECOND PLAN

A target of four lakh acres of land to be collected through Bhoodan has been made in the draft Second Five-Year Plan. Of these, three lakh acres are to be distributed to landless labourers and the rest to agricultural co-operatives.

Music Festival

Mysore, 6

The Music Savants' Festival organised by Sri Varalakshmi Academies of Fine Arts here was inaugurated yesterday by Mr S. Channiah, MPCC President.

After welcome by Mr. M. Ramaswamy, President of the Academy, Mr.Channiah complimented the Mysore Brothers for starting such an Academy and holding Music festivals. Here he pointed out the importance of reviving our ancient fine arts and felt glad that the Central and State Governments were now giving all encouragements to fine Arts.

Prof.M.Yamunacharya of the Maharajas's College then spoke on the life and greatness of Thyagaraja.

There was music by Asthana Vidwan B. Devendrappa and party.

P. S. P. MEETING

Mysore, 6

A meeting of the City PSP workers will be held here on Feb 8 at 7 p.m. in the Evening Bazar premises when the office bearers will be elected.

OLD IRON SAFES UNEARTHED

Three big iron safes, belonging to 18th century and bearing a British company monogram, have been found in an underground cellar at Kumaramangalam.

A house belonging to the Kumaramangalam Zamin family in the village had been kept locked for a long time. A weaver who was occupying a small portion came across a small iron gate while knocking down a portion of a wall to fix a new door. Behind the iron gate was a staircase leading to a cellar with iron gate. Three iron safes linked together with strong iron chains were found.

It is learnt that the house which belongs to Dr. P. Subbaroyan, M.P. was built by his grand-father.

DECREASE OF POPULATION IN CITY

LITTLE DEMAND FOR COTTAGE INDUSTRIES' PRODUCTS

PILOT SURVEY CONDUCTED

Mysore, 6

There was a ten per cent decrease in the population in Mysore City during these five years, according to a pilot survey conducted by the Statistics Department of the Maharaja's College.

The survey revealed that the present population is 2,19,482 as against 2,44,323 in 1951. There has also been a slight reduction in the size of the family which now stands at 5.5 as against 6 at the time of 1951 census.

Prof. S. K. Ekambaram explaining the salient features of the sample survey conducted by them on consumer's demand for the products of cottage and small scale industries stated that the decrease in population in the city was due to migration to bigger cities for employment and also to bloated ration-census.

He said there was no change in the sex-ratio of 52:48 in males and females. 41 per cent males and 43 per cent of females were married; 9 per cent of females were widowed and 0.4 per cent males were widowed.

The percentage of families in the various income groups was as follows: 38 per cent were in the income group less than Rs. 50 per month; 51 per cent were in Rs. 51-200 and and 11 per cent above Rs. 200 per month.

Referring to the use of hand-pound rice, the Professor said, that 95 per cent of the people were taking only polished rice Out of 631 families, it was found out nearly 23 families consumed hand-pound rice, with an average expenditure of Rs. 20 per month. He opined that some-scaling on polished rice was necessary to overcome this discouraging feature and an all-out effort to make tha people realise the nutritive value of hand-pound rice was welcomed.

It also revealed that the total expenditure on textiles was Rs. 168.76 per annum of which 82.6 per cent millmade. People spent five times more on millmade than on handmade.

The survery had shown that the existing demand for cottage industries products was very little and about 35 to 40 per cent desired that handmade goods should be made competitive in price, of better quality and easily available.

The survey further disclosed that most of the families were keen on having ghani oil if sufficient supply was forthcoming.

There was no sufficient demand for jaggery and the amount spent on sugar was 2½ times more. Only people of occupational groups took to jaggery.

It was also found out that 60 per cent of the families used tobacco in one form or other and 10 per cent smoked cigarettes and the rest beedies.

Average expenditure on Mysore perfumery amounted to Rs 8 and offical class spent twice the averge. Occupational classes of people were more inclined to using perfumes.

Coir products, mats and bamboo products took away Rs. 12 average in a family budget and 51 per cent of families used cottage leather goods.

Hats and caps constituted Rs. 5 per annum average

Eariler the Professor said that 630 families out of 39,000 house-holders were taken for survey and expressed his thanks for those who had co-operated in the work.

Freakish Finger

Mr. Dolarrai Mukundrai Buch, Manager of a Bank in Baroda has a sixth finger on his left hand, which is different from a supernumerary on many other humans.

The finger is miniature in size--one quarter of an inch in length and one-tenth inch from the base. It does not shoot from the base of a thumb--like other 'normal' supernumeraries. It grows from the middle finger of Buch's left hand.

The strangest thing about Buch's sixth finger is: it starts to grow with the first breath of spring; with the first cold blast of winter it starts to wither away.

WALK-OUT IN MUNICIPAL COUNCIL

OPPOSITION PARTY'S PROTEST AGAINST CONGRESS ATTITUDE

Mysore, 7

At the Municipal Council held last evening, the opposition members staged a walk-out as a protest against the attitude of the Congress members in not allowing opposition party's nominees to represent the Trust Board.

When the leader of the Congress Party proposed the names of Mr.K.Puttaswamy and Fr Audieu to represent in the Trust Board, the Opposition party suggested that they should also be given an opportunity to serve on the Board and proposed the names of Messrs. B. K. Ramakrishniah and M. N Thimmiah. When this was opposed by the Congress party, the opposition members walked out from the Council. Then Mr. Puttaswamy and Fr. Audieu were elected.

Earlier, the Council unanimously adopted the resolution of Mr. M. K. Lingiah requesting the State Government to take necessary steps directly or recommend to the Union Government to include in Second Plan the starting of some important industries in the City to relieve growing unemployment.

In this connection, the mover thanked the Central Food Research Institute in sending a memorandum promising all technical help for starting industries like Ragi Malt, malt food, milk powder and butter, Protein from goundnut for industrial and edible purposes, Rice Bran oil factory and non-alcoholic beverages.

The Council also accepted the resolution of Mr. M. N. Thimmiah requesting the Government to start Relief Centre in the Mysore Beggars' Home for starting home and village industries to solve the beggar problem in the city.

Mr. M. Venkatalingiah's resolution that a technically qualified person as Radio Operator be appointed in view of the large number of radio booths run by the Municipality was adopted.

During question-time, the President Mr. Krishnamurthy Rao informed Mr. Srikanta Sharma that there was no specific procedure prescribed for preservation of ballot papers of the election of President and Vice-President and they were usually destroyed after election. The ballot papers of the same for 1954 and 55 were destroyed after one month in the presence of the Municipal Commissioner,

When Mr. Mir Noor Hussan asked whether it was a fact that there was a scandal in the city that the ballot papers were not being destroyed and they were not in the possession of Municipality but with some others, the President replied that it was far from truth, When the Commissioner and some councillors took objection for this, the President passed on to the next question.

ACCOUNTANT-GENERAL'S OFFICE OPENED

Bangalore, 6

Mr. Asok Kumar Chanda, Comptroller and Auditor-General of India declared open the new building of the Account General's office, here this morning, built at a cost of Rs. 16 lakhs.

Paying a tribute to Mysore, Mr. Chanda said that in the pre-Independence era, Mysore had established a high tradition of administrative competence. Not only did the pattern of its administration conformed more closely to the conception of a democractic Government, but the State lergely realised the conception of a Welfare State.

The Auditor General pointed out that in the formation of linguistic provinces, where the business of the States would be conducted in the regional languages, there would constitute a problem for the maintenance of uniformity and for ensuring co-ordination of audit and account functions on all-India basis The recent encouraging ideas of the integration of contiguous areas of economic and cultural affinity would simplify, if not remove this problem, he said.

BUILDINGS FOR WELFARE PROJECTS

Grants totalling up to Rs. 1,75,000 have been sanctioned by the Central Social Welfare Board during the last two months for the construction of buildings in 60 welfare project centres in 7 States.

The centre buildings will be the focus of welfare activities for the women and children of the villagers comprised in a project centre. Each centre building will serve a group of 5 to 6 villages and will be in-charge of a gram sevika. The maternity centre attached to the centre is looked after by a trained mid-wife or a dail,

GIVE UP TRIBALISM

NEHRU'S WARNING TO PEOPLE

Prime Minister Nehru addressing the constructive workers at Shaheednagar (Amritsar), the venue of the Congress session yesterday warned that if the "feeling of tribalism was not checked, it would lead to civil war in the country."

He said that the tribal custom among the Nagas of 'head hunting' was much better than 'what we do sometimes amongst ourselves' He described the recent violent happenings in the country over the question of reorganisation of States as a "kind of tribalism which was far worse than head hunting."

Prime Minister said that the country would go to pieces if the people did not begin to think about their problems, whether big or small, in the context of the unity of the country. The recent happening had shown the dangerous possibilities of a war breaking out amongst India's different people. They should also understand that 'we are one country, one nation and we have to live together and solve our problems in a democratic manner.'

Zonal States Opposed

Mysore, 8

Mr, M. S. Gurupadaswamy, M. P. and PSP leader has strongly opposed the formation of Zonal States.

In a statement he stated that " the question of unity of nation has been bandied about and used as a Trojan horse to create confusion among the masses. The people who have been demanding linguistic distribution of States are not inimical to the nation in as much as the people who are opposing it.

"A comparatively simple issue like the reorganisation has become a web of complications as a result of blunders committed by certain leaders. The lack of clear thought and clear approach on the part of men in authoriry are responsible to the present chaos and confusion in the country. Before it is too late, let our politicians cease to experiment in the art of reckless thinking and give up this Zonal States formation as it is not acceptable to the larger sections of the people."

Drop Formation Of Zonal States

PSP'S REQUEST TO GOVERNMENT

Mysore, 9

At the annual meeting of the City Praja-Socialist Party held last evening under the presidentship of Mr.M.S. Gurupadaswamy, M. P., a resolution was adopted strongly condemning the proposal of the Central Government for the formation of Zonal States and felt that it was against democratic principles.

The meeting further urged the Government to drop this proposal and concentrate on adopting the SRC report with necessary amendments.

It appealed to the public to take all non-cooperative measures to make the Central Government drop the latest proposal.

Atomic Energy

The Indian National Commission for Co-operation with UNESCO at its plenary session at Delhi appreciated the "large and effective diversion of interest towards the peaceful uses of atomic energy", and hoped that this healthy shift in the emphasis would be accelerated.

The Commission also appealed to the UNESCO and all National Commissions to mobilise public opinion, and take such other steps as might be necessary for developing and encouraging the peaceful uses of atomic energy.

MUNICIPAL COUNCIL

Mysore, 8

At the Municipal Council held here on Monday, the resolution of Mr. M. Venkalingiah for appointing a technically qualified person as Radio Operator in view of the large number of radio booths run by the Municipality was referred to the Managing Committee and not adopted as reported earlier.

In our yesterday's Municipal report regarding ballot papers, the item stating that " when the Commissioner and some councillors took objection for this " did not refer to the President's reply but for casting aspirations against admintstration by the member.

Zonal States Opposed

Mysore, 8

Mr. M. S. Gurupadaswamy, M. P. and PSP leader has strongly opposed the formation of Zonal States.

In a statement he stated that " the question of unity of nation has been bandied about and used as a Trojan horse to create confusion among the masses. The people who have been demanding linguistic distribution of States are not inimical to the nation in as much as the people who are opposing it.

"A comparatively simple issue like the reorganisation has become a web of complications as a result of blunders committed by certain leaders. The lack of clear thought and clear approach on the part of men in authoriry are responsible to the present chaos and confusion in the country. Before it is too late, let our politicians cease to experiment in the art of reckless thinking and give up this Zonal States formation as it is not acceptable to the larger sections of the people."

SOVIET SCHOLARSHIPS FOR ECAFE AREA

Soviet Union would provide about 200 scholarships in her universities and high-grade technical and economic institutions from this year for students from the countries of Asia and Far East.

TRANSPORT DEVELOPMENT

A high-powered ad hoc Committee to advise on the reorganisation of transport administration in the various States is to be set up. This decision was taken by the Transport Advisory Council which concluded its fifteenth session at Delhi.

Regarding the suggestion for the abolition of the present levy of octroi so as to facilitate free flow of goods through towns, the Council agreed that the system of issuing transit passes for vehicles on payment of a nominal fee of one rupee and providing an escort, wherever possible, should be adopted by all States.

It was decided that the Union Ministry of Transport should work out a pilot scheme in the matter of conversion of professional type (public carrier) bullock carts with iron tyres into pneumatic-tyred carts. The State Governments agreed that they would be prepared to contribute a share of the subsidy required for the conversion provided the balance was met by the Government of India.

SECOND FIVE YEAR PLAN DRAFT

Rs. 4,800 CRORES OUTLAY IN PUBLIC SECTOR

EMPHASIS ON BASIC AND HEAVY INDUSTRIES

A big and bold advance on all fronts of national development is envisaged in the Second Five Year plan, the Draft Outline of which has been issued today by the Planning Commission.

The total development outlay of the Central and State Goverments over the period of the plan (1956-61) will be Rs 4,800 crores. An investment of Rs.2,300 crores is also envisaged for the private sector.

The principal objectives of the plan are: a sizeable increase in national income so as to raise the level of living in the country, rapid industrialisation with particular emphasis on basic and heavy industries, a large expansion of employment opportunities and a reduction of inequalities in income and wealth and a more even distribution of economic power. The goal of socielistic pattern of society will be the guiding star of the plan.

The primary emphasis is on industrial and mineral development, as it will pave the way for repid economic progress in the future. The plan "seeks to translate into practical action the aspirations and ideals of millions in the country and gives to each of us the opportunity of service in the common cause of eliminating poverty and raising the standard of living."

Of the total outlay of Rs. 4,800 crores in the public sector, industries and minerals together with transport and communications claim 48%, irrigation and power 18%, agriculture including community programme and national extension 12% and social service including housing and rehabilitation of displaced persons 20 per cent.

Among the main targets aimed at by the Plan, which will come into operation on April 1, are expansion of employment opportunities to provide jobs to 9.5 million people and a provision of Rs. 891 crores in the public sector for the expansion of industries minerals as against Rs. 179 crores in the First Plan.

Nontheless, expenditure on all other sectors, such as agriculture, transport and social services is significantly greater than in the first Plan.

To raise the necessary resources for expenditure in the public sector, the Commission has envisaged fresh taxation to the extent of 1,200 crores and external assistance of Rs. 800 crores. Other estimates include another Rs. 350 crores at the existing rates of taxation and other budgetary sources of Rs. 400 crores.

The Commssion states that the combined result of development programes in the public and private sectors will lead to an increase in the national income by 25 per cent.

Mysore State outlay has been fixed at Rs. 78 crores.

★ **The Bombay Government has taken over the administration of the Poona Municipal Corporation since majority of councillors have resigned.**

READERS' FORUM:

PRE-MEDICAL EXAMINATION RESULTS

Sir,

I would like to bring to the notice of the Government and the public about the hardship caused to the students of the Pre-medical examination by the way in which the Mysore University authorities have adopted methods for declaring the results.

The results of the pre-medical examination held in Dec. last was announced in the first week of January. But surprisingly two or three correction lists appeared subsequently, the last being on Feb. 9, in which it was stated that exemption given in certain subjects had been withdrawn to 27 students (out of 49).

This is rather a surprising method adopted by the University in issuing corrections after corrections for the examination results already announced one month earlier. How could there be so much alterations and who was responsible for this blunder? How could the students who had been earlier given exemptions now to appear for the examination which is hardly one month.

This has considerably caused inconvenience and hardship to students and it is prayed that the University authorities will grant relief to the students affected.

WON'T YIELD TO VIOLENCE

NEHRU'S WARNING TO PEOPLE

Prime Minister Nehru uttered a warning to people that "no decision will be dictated to us by violence."

Addressing the Subjects Committee of the Congress at Amritsar, Mr. Nehru declared that "the unity of India will be maintained whatever happens. No change will be made through terrorism or violence".

He said that "everything has to be decided in a democratic way, not in the streets. And those people who talk of deciding it in the streets will have to be met in the streets. Let us be quite clear about it".

Prime Minister asked "We have to be clear about what we stand for. Do we stand for the message of the Buddha and Mahatma Gandhi or do we not?".

LAND REFORM POLICY

A uniform pattern of land-ownership conforming to certain commonly agreed rights and obligations, prevention of acqusition of land above a ceiling, provisions against fragmentation of holdings and providing protection to tenants by suitably changing the definition of the term "personal cultivation" in tenancy laws, are among the features of the land reform policy outlined in the draft Second Five-Year Plan.

STATES REORGANISATION

The Subjects Committee of the 61st session of the Congress adopted yesterday at Amritsar a resolution declaring that uni-lingual States might exist wherever desirable but that unilinguism "cannot be made into a fetish overriding other considerations."

In moving the resolution Home Minister Pant pointed out that language and culture would not suffer by formation of larger and bi-lingual States. A proper growth of languages and culture would be ensured through formation of cultural regions in each large State.

Pandit Pant said, when violence took place and threats were used, "it will be impossible for anyone to state what one would do. But we shall do all that is necessary to ensure that there is no surrender to violence."

He appealed to everyone to give primary thought to the question of maintaining the unity of the country rather than to reorganisation in a particular manner. There should be feelings of love and brotherhood and everyone should desist from taking the path of violence.

STRENGTHEN NATIONAL UNITY

CONGRESS CALL TO PEOPLE

The 61st session of the Indian National Congress which concluded yesterday at Amritsar called upon the people to "strengthen the national unity and demolish the walls of separatism wherever they divided Indians either in the form of provincialism or communalism."

Nearly 2,50,000 people attended the open session.

Mr. U. N. Dhebar, the Congress President addressing the open session called upon the Congressmen to give a correct lead to the country in the event of a conflict between provincial and national interests.

Mr. Dhebar referred particularly to Congressmen's role in the last few months' happenings in connection with reorganisation of States and said that whenever Congressmen kept national interests above provincial interests the people followed their lead.

"The people cannot be blamed", he said "if they do not get a correct lead. Some of us think that we can win the case by bringing pressure on Pandit Nehru by this or that method. In doing this, some of us associated ourselves with other parties who did not spare even the Mahatma's honour. These parties exploited Congressmen to weaken the Congress. We have to get out of this situation.

Considerations of the prestige of any State Congress in relation to the coming general elections should not deviate them from the right path, he said.

He explained the ways in which Congressmen could help in implementation of the Second Plan and even improve on its promise of up to 10 million jobs. "We shall have to prepare public opinion", he said, "for shouldering large tax burdens. What does a little unpopularity matter if it can serve the cause of the country? It will be good for the cause of the organisation also. We shall know who will hang with us in times of adversity."

Mr. Dhebar frankly admitted that on the question of reducing disparities they have been still in a discussion stage more or less. Application of ceilings on private income is inescapable. There are other measures also which are being discussed, namely graded surcharge on incomes beyond a certain limit, compulsory deposit of an amount equal to the surcharge on agricultural incomes, enhancement of estate duties and an annual tax on wealth, he said.

He called upon Congressmen to help in solving the problems before the country by hard and unostentatious work. "Millions are on the march. Let us lead them to their cherished goal of a united and prosperous India".

"The Congress organisation has a duty to collect, adjust and rationalise all the regional claims so that growth and development is well spread out and a feeling of confidence is created in the minds of the people that the development effort is truly a national effort", he said. "Hence the decision to set up economic sections in the Pradeshes. Organisational planning also included organisation of cadres with a clear social outlook and training of Congress workers to assist the Government in carrying out the Plan. Congressmen should prepare public opinion for shouldering larger tax burdens, he added.

The Congress session adopted resolutions on the Second Five-Year Plan and States reorganisation.

Moving the resolution on States reorganisation, Maulana Abul Kalam Azad commended the proposal for the formation of bigger bi-lingual States in the interest of the unity of the country. **The unity of Indian Union should be of paramount importance overriding all considerations of region or language, he declared.**

New Type Of Securities

The Government of India were considering proposals for introducing new types of 'Securities' to increase the tempo of the 'Small Savings movement' during the Second Plan period.

One such would be a kind of 'gift tokens' which could be purchased by persons desirous of presenting gifts to their friends and relatives on occasions like marriage, birthday. These 'tokens' could be exchanged for National Savings Certificate of the same value.

Another type of 'security' would incorporate the 'Time deposit idea' whereby a person could go on making regular deposits over a period time so that the total amounts, so deposited, could be withdrawn by him at the end of the period and used for a 'particular purpose'.

The National Savings Commissioner, Mr. K. S. Malhotra said that under the Second Five-Year Plan, it had been proposed to raise as much as Rs. 500 crores through small savings. This would mean that on an average, they would have to raise about Rs. 100 crores per year.

DO YOU KNOW THIS?

India has spent Rs. 809 crores on irrigation and power projects since independence. This is four times the amount invested on such projects when the country was under British rule.

The per capita consumption of electricity will be 25 units at the end of the first Five Year Plan period as against 14 units in 1952. It is expected to rise to 50 units by 1961.

Production of finished steel, which was 1,243,467 tons in 1954- an all-time record-rose to 1,263,782 tons in 1955.

The present rate of production of the Penicillin factory at Pimpri, near Poona, is about 8 million mega units per year as against the ta'rget of 4.8 million mega units.

Upto the end of October last year, 63,037,570 persons were tuberculin tested and 21,295,541 persons were vaccinated with B.C.G. The vaccination programme was started on a small scale in 1948, and subsequently extended on a mass scale in 1951.

The Sindri Fertilizer factory, which has been producing ammonium sulphate since 1951, has helped the country to save over Rs.33 crores by way of foreign exchange.

A sum of Rs. 665 lakhs is proposed to be provided in the Second Five Year Plan for control of leprosy. Half of this expenditure will be borne by the Union Government and the balance by the State Governments.

About 2,000 new telegraph offices and 1,300 public call offices are proposed to be opened during the Second Five Year Plan

DIGNITY OF LABOUR

Prime Minister Nehru addressing the Punjab Bharat Sevak Samaj asked the people to realise that it was labour work done with one's hands and not money that could change the face of the country.

Mr. Nehru said that he wanted boys and girls in the country getting their graduation degree only after performing physical labour for six months or a year. In place of military conscription he wanted every one in the country to take part in some type of work. He would like the creation of groups consisting of 50 or 100 boys or girls, in each, which might be called shock brigades. They could go to the countryside and set an example to people by their own manual work

Water Famine In Civil Station

Bangalore, 15

At the meeting of the Bangalore Municipal Corporation held yesterday, several members complained about the prevailing water famine in the Civil Station and demanded immediate relief to the people.

In this connection. Mr. M. Jayaseelan issued an ultimatum that if the authorities did not give adequate relief by April 10, he would embark on a hunger-strike in front of the Corporation Offices

INSURANCE EMPLOYEES' DEMANDS

The All-India Insurance Employees' Association while congratulating the Government on its 'bold and progressive' step in nationalising life insurance urged the Government to nationalise the general insurance immediately.

Ii called upon the Government to honour all the conditions of the existing policies and to make insurance cheaper. It also laid stress on the urgency of carrying the message of insurance protection to the millions in the rural areas.

They also demanded that the interest of bona fide field-workers be safeguarded and introduce progressive reforms in the service conditions of workers without curtailing the existing rights, privileges and emoluments.

CONTRACEPTIVE FROM FIELD PEA

Dr. S.N.Sanyal of the Calcutta Bacteriological Institute has developed an oral contraceptive from the common field pea.

According to the discoverer, if two capsules of the contraceptive, valued at two annas each, were taken monthly, it would mean a substantial reduction in the rate of pregnancy.

The Government of India has sanctioned Rs.1,20,000 to the All India Institute of Hygiene and Public Health at Calcutta to conduct studies including field trial for three years as regards the effects of this new contraceptive.

It also approved the revised model scheme of Gosadans, segregation centres for old, decrept and un-productive cattle through private humanitraian agencies. But it wanted that adequate arrangements should be made for the proper utilisation and marketing of the hides, bones and other remains of dead animals in gosadans.

REVISION OF ELECTORAL ROLLS

Bangalore, 15

The Government in a press note states that the revision of Electoral rolls is proposed to be taken up almost immediately. The General Elections will be held on the basis of electoral rolls prepared in 1956. According to the Rules the time at the disposal of the public for getting their names included or corrected therein is limited to only 21 days. It is therefore considered that it would be helpful to them if the roll now in force is immediately made available. The Electoral Registration Officers have been requested to make special arrangements to make the rolls available for public inspection from today onwards, although the revision of electoral rolls commences on Mar. 1.

It is hoped that the public will take the fullest advantage of this and co-operate with the authorities in making the electoral rolls as accurate as possible.

States Bill

MYSORE LEGISLATURE TO DISCUSS ON MARCH 5

Bangalore, 16

The Mysore Legislative Assembly and the Council will discuss the States Reorganisation Bill on March 5.

The Legislature will meet in a joint session on Feb. 20 at 3 p.m.

Resolutions on the Public Debt Act and the Prize Competitions Act will be discussed on Feb.23,24 and 25. Feb. 28 has been devoted for non-official business.

The Assembly will discuss the Second Five-Year Plan for four days from March. 1. The Chief Minister will present the Budget on March 5.

Official Bills will come up for consideration from March 6 for seven days.

Non-official resolutions will be discussed on March 16.

The general discussion on Budget will come up from March 19 for three days.

As many as 650 questions have been given notice of by the members. Mr B Rachiah's resolution urging for the extension of prohibition to the Najangud Sub-Division has secured the first place. Mr. R. Muniswamiah's resolution for the inclusion of a Harijan member in the State's Public Service Commission is the second resolution, while Mr. P. Gopala Gowda's resolution urging for nationalisation of the Bank of Mysore is the third resolution in order.

Sangita Vadyalaya

The Governor of Madras, Shri Sri Prakasa inaugurated today at Madras the Sangita Vadyalaya, a training centre for the manufacture of traditional Indian musical instruments. It was set up in January this year at the instance of the All India Handicrafts Board.

A sum of Rs.52,000 as grant has been sanctioned by the Government of India to the Board for the establishment of the Sangita Vadyalaya with a a view to reviving the art.

The Vadyalaya will offer courses in the making of Indian musical instruments on scientific lines so that instruments of standard quality could be supplied to the public. A selected number of students who possess some knowledge of music as well as a taste for the study of the making of musical insturuments will be trained in manufacture of musical instruments.

Harness Nuclear Sources

Prof. M.S.Thacker, Director, Council of Scientific and Industrial Research made a fervent appeal to the engineers to direct their attention to the harnessing of nuclear and other sources of power for meeting the energy requirements of the country.

He also urged them to build up organisations for engineering research and encourage adventure in "new and unbeaten paths" to develop the skills of the youth of the country.

India, he pointed out, possessed the largest thorium deposits in the world The known resources alone work out to the equivalent of 600,000 million tons of coal or roughly 13 times the estimated total reserves of coal in India.

It was proposed, he said, to set up in the initial stages atomic power stations which operated on natural uranium and effect the maximum conversion of fertile to fissionable material for subsequent use in breeder power stations, thus enabling the reserves of uranimum and thorium to be utilised for power generation.

Do's and Don'ts

The Union Health Minister, Rajkumari Amrit Kaur has advised the public and the general consumer on the following do's and don'ts:

Do not resort to self-medication and do not be carried away by advertisements in the treatment of disease.

Buy drugs made only by reliable manufacturers.

Never buy from a dealer merely because he is cheaper than the next drug shop. Remember that in a well-equipped and properly staffed drug store, the overheads are bound to be reflected in the price of the drug and that an ethical dealer cannot afford to cut down his prices below a certain margin.

Ensure that used containers of drugs are destroyed. Do not sell them to pedlars. It is these used containers that are employed by unsocial elements for faking drugs.

FREE POST CARD FOR CANVASSING

Supplying of free post cards to candidates for the ensuing General Elections has been suggested by the Lok Sabha Select Committee on the Bill to amend the Representation of the Peoples Act.

The Committee has suggested that "each contesting candidate should be permitted to send free of cost atleast one post card to every voter in his constituency for canvassing his candidature."

SIMULTANEOUS ELECTIONS

The Select Committee of Lok Sabha on the Bill to amend the Representation of the Peoples Act has recommended that the law should be so amended as to make it possible to have general elections simultaneously for the Lok Sabha and the State Assemblies even before the expiry of the terms of the existing Houses.

Action Against Romoes

The Madras Government are seriously considering what action should be taken against 'Road-side Romeos' in the city.

The harassment of school-going girls and office-going girls by the student Romeos by their indecent behaviour of 'gazing and chasing' has become so alarming that the parents in Madras represented to the Government to take immediate measures to check this nuisance.

FLOOD CONTROL OF BRAHMAPUTRA

The flood control measures near the tea town of Dibrugarh in Assam carried out last year have been successful in bringing about the deposit of a good amount of silt on the bank of the Brahmaputra.

The river has receded from 40 to 100 ft. and at one of the spurs, the change in the flow of the current is noticeable. The spurs have stood well against the 1955 flood.

The flood control measures included the construction of five stonespurs, one 400 ft. long and the rest each 200 ft. long, 15 timber spurs each 200 ft. long and brushwood protection of the bank between the spurs.

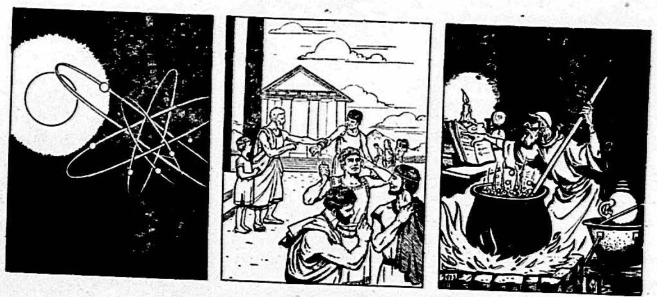
TRUE TALES — MAN and the ATOM



THE SUN'S ENERGY-Scientists have found the source of the sun's strange and wonderful energy locked in the heart of the atom...and are releasing it to serve mankind as a source of unlimited power.

DEMOCRITUS HAD ATOM THEORY-It began more than 2,000 years ago in ancient Greece when Democritus was called a fool for saying everything, including gold, was made up of particles so tiny the human eye could not see them. He called these particles 'ATOMS.'

MAN TRIED TO MAKE GOLD-A few years later, Aristotle theorized that all things on earth were combinations of certain basic "ELEMENTS"...and for centuries after that men called 'alchemists' struggled to find the combination of elements which would make precious gold. (Contd.)

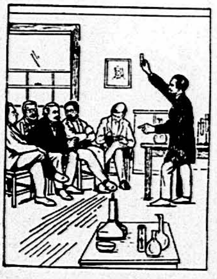
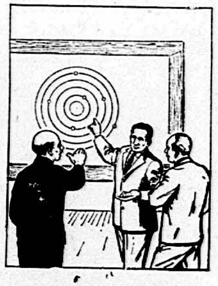
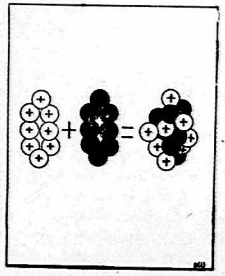
TRUE TALES — MAN and the ATOM



GOLD IS AN ELEMENT:—In the 19th century, scientists realized they could not change the atoms of other elements into gold because gold itself was a basic element . . . that the atoms of each element are differant, and that the atom, which they had believed to be the smallest possible particle, was actually made up of parts.



BOHR'S THEORY:—In 1913, Danish scientist Niels Bohr combined many theories and concluded that each tiny atom was like a "solar system" with electron "planets" whirling around a nucleus "sun." The nucleus of an atom is only one million-millionth the size of a whole atom, the size of a bunch of grapes (in France).



EACH ATOM HAS A WEIGHT:—Scientists number atoms by the number of positive electrical charges (protons) in the nucleus. The nitrogen atom has seven portons, oxygen eight, etc., and are designated 7 Nitrogen, 8 Oxygen, etc. Atoms also have bodies called neutrons which when added to the protons give the atoms weight (Contd).

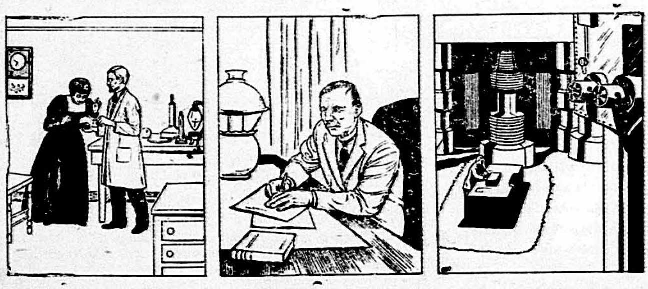
TRUE TALES—MAN and the ATOM



AN IMPORTANT DISCOVERY.- Though scientists had worked unsuccessfully for centuries to change 82 Lead to 79 Gold, a difference of only three protons, Antoine Henri Becquerel and Madame Curie found in 1896 that some elements change themselves... that 92 Uranium lost protons until it became 88 Radium and finally 82 Lead. This was "natural transmutation,"

FIRST ARTIFICIAL TRANSMUTATION. In 1919, British scientist Sir Ernest Rutherford found an important use of radioactive elements. By using particles shooting off from radium to bombard other atoms he succeeded in adding a proton to a 7 Nitrogen nucleus, making it 8 Oxygen, the first artificial transmutation of elements.

MACHINE CHANGES ELEMENTS.—Fifteen years later a machine called a cyclotron chipped a proton out of a nucleus. Improved atom-smashing machines were built and scientists finally achieved the dream of ancient alchemists... they changed elements and even created new elements. Scientists were getting closer to the energy locked in the atom nucleus. (Contd).

MULTI-LINGUAL STATE IN SOUTH
DISPASSIONATE STUDY, SAYS RAJAPRAMUKH
ADDRESS TO JOINT SESSION OF LEGISLATURE

Bangalore, 21

Addressing the joint session of the State Legislature here yesterday, the Rajapramukh commended the concept of multilingual States

He asked the legislators to "remember that our country, is divided into various States for administrative convenience. People in these administrative units are not different nations and the use of different languages in the country should not be allowed to affect adversely national solidarity".

"Progress, unity, solidarity and security", he said "are of paramount importance and administrative units called States are merely means to safeguard and to sustain them. Language should not given more importance than is due to it In any case, it cannot be allowed to jeopardise happy relationship between State and State, and imperil our hard-won freedom and unity."

The Rajapramukh stated that the proposal of bi-lingual or tri-lingual State in the South deserved patriotic and dispassionate consideration and hoped that the representatives of the people would so advice the Government as to enable them to act correctly and in the sole interests of the country

Referring to the State Second Five-Year Plan, the Rajapramukh said that though Rs. 78 crores was not adequate to our requirements, they had perforce to accept this target in view of the limited resources available. In fact, all the money that they could raise during the period of five years was only Rs. 1 crore and the rest of it had to be obtained as assistance from the Government of India in the form of loan and grant

Appreciating the genersoity of all those that had donated land and offered their services for Bhoodan and Vidvadan. His Highness said that they had to see that ulimately every school and college possessed a plot of land

The Rajapramukh said that a Bill for the nationalisation of KGF mines was being prepared and it was expected that it would be placed before this session.

Finally, the Rajapramukh said that the ideal with which the Government wanted to persue was a Socialistic Pattern of Societyi free from man-made inequalities between the haves and the have-nots. Illiteracy and ill-health had to be wiped out. Everyone should not only be able to secure gainful employment but also work earnestly for the good of the country. "The society must not be merely a society which promotes physical well-being but also provide opportunity for moral end spiritual development. The Sarvodaya ideal and the Socialistic Pattern of Society must harmonise into a synthesis. Our present ideas of society, institutions and individual responsibility must so change as to ensure the speedy achievement of this declared ideal."

★ An International Bank mission will shortly visit India to assess the help required from the Bank for the Second Five-Year Plan.

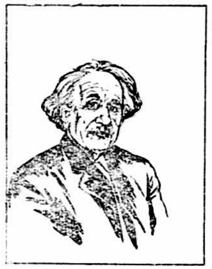
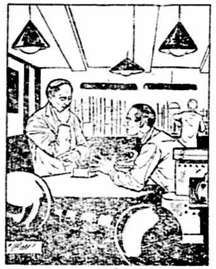
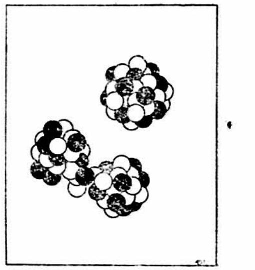
TRUE TALES—MAN and the ATOM



EINSTEIN'S THEORY.—In 1905, Albert Einstein wrote: "If matter could be destroyed, energy would be created in its place." Einstein meant not only striking a match, but using all the atoms in the entire match, creating enough energy to melt all the snow in Switzerland. Most scoffed at Einstein's theory, but a few scientists believed him and for 33 years they tried to destroy matter and release energy.



EINSTEIN'S THEORY PROVED.—In 1938, Doctors Otto Hahn and Fritz Strassman were trying to add protons to the nucleus of 92 Uranium when they discovered an unaccountable change in the element. Dr Lise Meitner, in Demmark, heard of the experiments and reasoned that uranium had split or 'fissioned.' Niels Bohr then proved the uranium had indeed split and in so doing destroyed matter... which released energy.



ONLY URANIUM 235 FISSIONS. In the many experiments that followed, scientists in the United States discovered that, strangely enough, only ONE kind of uranium split For some reason about one out of every 140 common uranium atoms has three less neutrons. Instead of weighing 238 as most uranium atoms, it weighs only 235. U235 is the only kind that splits Scientists now had energy. but it wasn't usable. (Contd.)

Railwaymen's Concern

Mysoro, 22

At a meeting of the staff of the Regional offices of Southern Railway held here under the presidentship of Mr B.S.Sreekantiah, the following resolution was adopted:

"It expressed grave concern about the present formation of Divisional system with Headquarters at Mysore without the Traffic Accounts Branch which would result in mass transfer of two thirds of the Accounts staff in addition to technical and other personnel staff from Mysore to Guntakal and Hubli. It further requested the administration to absorb the existing staff by formation of a Divisional office at Mysore consisting of the General and Traffic Accounts Branch with the least dislocation of staff."

Opthalmic Service In Villages
UNION HEALTH MINISTER'S PLEA

The need for an opthalmic service for the viliagers was stressed by the Union Health Minister Rajkumari Amrit Kaur when she addressed the 17th All India Ophthalmic Conference at Aligarh today.

She also urged for closer scientific and cultural co-operation among the nations of the world for the benefit of humanity. She hoped that such co-operation might lead eventually to man's use of tremendous power that science had placed in his hands, not for causing worldwide destruction but for improving the standards of health of the people.

The Minister appealed to the scientists of the world to lend their support to a fuller understanding of the social functions of science.

Commending the pioneering eye relief work by the Gandhi Eye Hospital and the Institute of Opthalmology at Aligarh in rural areas, she stressed the need for such service in the rural parts of the country.

THE CHAIN REACTION.- Physicists realized they needed a "chain reaction" for usable energy. An illustration of the chain reaction is shown above, using match heads as U235 atoms. One match head will ignite two others progressively. But until as recently as 1940, it seemed impossible to get enough pure U235 to maintain a chain reaction.

U. S. UNDERTAKES ATOM PROJECT Professor Einstein persuaded the U S.Government to mobilize the greatest combination of scientific and organizational knowledge, tremendous resources, skilled workers and build a complete industrial city to separate U235 from its chemical twin U238. Through the efforts of noted scientists enough U235 was separated for a chain reaction.

SUCCESS ! - On December 2, 1942, at the (U.S.) University of Chicago, scientists led by Italian born Enrico Fermi set up the first CONTROLLED chain reaction...and created a new element called plutonium, at the same time ! Plutonium was an easier-to-separate element made from plentiful U238 atoms which had been thought useless. And like U235 it too could maintain a chain reaction. (Contd.)

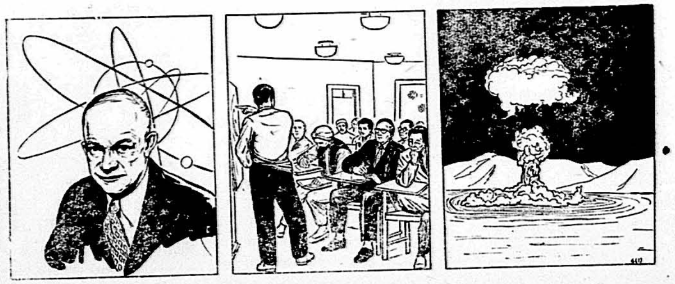
TRUE TALES—MAN and the ATOM



ATOMS FOR PEACE.-With these developments, useful functions were now possible. Though nuclear energy had proved to be history's greatest wartime weapon, U.S.President Eisenhower proposed to the United Nations in December 1953 that atomic energy be used for peaceful purposes ... to benefit all mankind and to develop the underdeveloped parts of the world.

KNOWLEDGE FOR THE WORLD-The U. S has made great progress in utilizing atomic energy in medicine, agriculture, and industry. Huge libraries of information on atomic energy have been presented to Italy, Japan, and France. Students from more than a score of countries of the world are studying the subject in U. S. laboratories. Many more projects are underway.

SOVIETS RETARD PEACEFUL DEVELOPMENT.—Soviet Russia has hampered peaceful development of atomic energy by not permitting adequate control of atomic weapons. The Kremlin's aggressive actions force the U. S and other countries to divert valuable time and material from peaceful atomic projects to keep ahead of the Soviets in an arms race which will benefit no one. (Contd.)

SURCHARGE ON RAILWAY FREIGHT TRAFFIC

Rs. 23 CRORES SURPLUS IN RAILWAY BUDGET

The Union Railway Minister, Mr. Shastri, announced yesterday a proposal to levy a surcharge of one anna in the rupee on all freight traffic, with the exception of grains and pulses, fodder, manure, khadi, newspapers, newsprint and books.

The Minister, who was presenting the Railway Budget for 1956-57 in the Lok Sabha, said that this step was being taken in order to fill the gap between Railway revenue and the contribution which they were expected to make towards financing the Second Five-Year Plan for the Railways. The surcharge would add Rs 11.6 crores to the revenue during 1956-57.

Mr. Shastri said that the Railways themselves were expected to provide Rs. 375 crores out of the total allocation of Rs. 1,125 crores made for their second Plan. As against this, their resources were likely to amount only to Rs.325 crores during the Plan period.

The Railway Minister said that the Budget for 1956-57 would reveal a surplus of Rs.23 crores all of which would be credited to the development fund. The gross traffic receipts for the Budget year placed at Rs. 345 crores and the expenditure at Rs.323 crores.

Dealing with the Budget estimates for 1956-57, the Minister indicated that the estimated passenger traffic had been placed at Rs. 111.4 crores, an increase of Rs. 2.9 crores. The budget estimate for other coaching earnings had been placed at Rs. 21.8 crores, an improvement of Rs. 1.3 crores on the current year, of which about Rs. 1 crore would be due to the supplemental charge of one anna in the rupee on parcels. The budget estimate of goods earnings had been placed at Rs. 205.5 crores.

Gross traffic receipts for 1954-55 actually amounted to Rs. 286 78 crores, recording an improvement of Rs.3 98 crores. Ordinary working expenses came to Rs. 205.87 crores, the increase of Rs. 3.1 crores being due mainly to heavier expenditure on repairs and maintenance.

Mr. Shastri said that passenger traffic had improved by 7½ per cent in terms of passenger miles and the revised estimate of passenger earnings had been placed at Rs. 101.5 crores, against Rs. 104.5 crores in the Budget.

Goods traffic showed a substantial increase and the revised estimate was placed at Rs. 180 crores which was Rs. 16.1 crores more than the Budget.

The gross traffic receipts for 1956-57 were now estimated at Rs. 314.1 crores.

Narasimiah and Sattar were fined Rs. 10 each for satta gambling in Clock Tower.

Abolition Of Third Class

The Railway Minister, Shri Shastri told the Parliament yesterday, that in pursuance of the Railways' policy to reduce the number of classes to only two in addition to air-conditioned travel, "our present intentions are to abolish the existing third class and to rename it as second class with sleeping accommodation in one or two separate coaches".

Shri Shastri said that "as a token of the standard of service which the Railways would like to provide if they had adequate resources, and as a model to be kept in view for the future," it was proposed to introduce from October 2 next a vestibuled fully air-conditioned fast train service, which would have only two classes between Delhi on the one hand and Bombay, Madras and Howrah on the other. To start with, this service would be weekly or bi-weekly.

36-LAKH PEOPLE IN RAIL JOURNEY

An average of 36-lakh people travelled by rail daily in India during 1955. Roughly one per cent of India's total population sat in the trains every day, all through the year.

Fifteen years earlier, in 1940-41, the Railways in undivided India carried an average of 15.7 lakh passengers daily or approximately 0.4 per cent of the population.

During 1954-55, the people of India undertook nearly 126 crore train journeys travelling a total of 3.865 crore miles.

The members of the Board left in the afternnoon to Nanjangud and Chamarajanagar to inspect cocoanut gardens.

The Board will meet here tomorrow at 10 a.m. under the presidentship of Mr. Narayana Menon.

NEW TRAVEL CONCESSIONS

The union Railway Minister announced in the Lok Sabha yesterday that the Railway will in future issue concession return tickets for the general public at one and a half times the single ticket fare between July 15 and September 30 each year.

It was further proposed that the concession now available to students travelling in groups of four between their homes and their educational institutions, should in future be available to students even when travelling single, on the production of the usual certificate.

EXPRESS GOODS TRAINS

The Railways propose to introduce shortly, as an experimental measure, a special scheme for guaranteed quick transit of goods in wagon-loads and in smalls on important trunk routes.

The basic features of the scheme were that goods would be carried by express goods trains within a guaranteed period.

★ The Madhya Pradesh Government will erect a monument to mark the centre of India, which has fixed at a spot in Sehor in Jabbalpur district. The monument will cost Rs. one lakh.

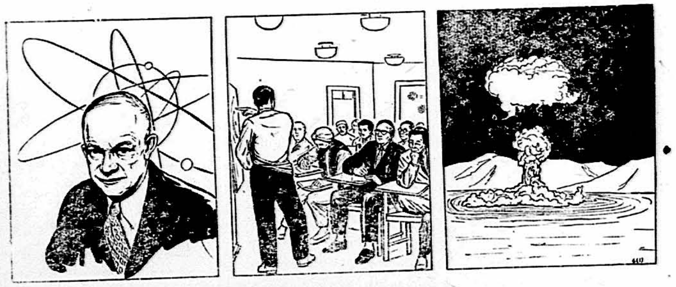
TRUE TALES—MAN and the ATOM



ATOMS FOR PEACE.-With these developments, useful functions were now possible. Though nuclear energy had proved to be history's greatest wartime weapon, U.S. President Eisenhower proposed to the United Nations in December 1953 that atomic energy be used for peaceful purposes ... to benefit all mankind and to develop the underdeveloped parts of the world.

KNOWLEDGE FOR THE WORLD-The U. S has made great progress in utilizing atomic energy in medicine, agriculture, and industry. Huge libraries of information on atomic energy have been presented to Italy, Japan, and France. Students from more than a score of countries of the world are studying the subject in U. S. laboratories. Many more projects are underway.

SOVIETS RETARD PEACEFUL DEVELOPMENT.—Soviet Russia has hampered peaceful development of atomic energy by not permitting adequate control of atomic weapons. The Kremlin's aggressive actions force the U. S and other countries to divert valuable time and material from peaceful atomic projects to keep ahead of the Soviets in an arms race which will benefit no one. (Contd.)

GOLD CRADLE RECOVERED

The Madhya Bharat police have recovered the gold cradle with three rods of solid gold which was stolen from the sacred devasthan of Ahilyabai Holkar.

The police have arrested one Gokulgir in Bombay who was in the guise of a Sahdu.

The cradle weighed 1,639 tolas and valued Rs. two lakhs.

DO YOU KNOW THIS?

2,40,000 persons migrated from East Pakistan to India during last year.

The number of muslims who migrated last year from India to West Pakistan was 44,726 and to East Pakistan 29.

Rs.23 crores has so far been paid as compensation to displaced persons.

The Rourkela steel plant in Orissa will go into production before the end of 1958.

6000 VILLAGES AFFECTED

The total number of villages affected in the recent cyclone in Tamil Nad was 6,190. The number of lives lost was 520, while the number of cattle perished was 34,998 and 1,10,538 goats and sheep died. 9,086 buildings were damaged and the acerage of crops totally lost was 1,26,306. 4,666 tanks were breached.

SMUGGLING INTO INDIA

Goods worth about Rs 13.89 lakhs were seized while they were being smuggled from Goa into India during the first nine months of 1955-56.

About 64,000 tolas of smuggled gold were seized during the last three months.

★ The Plnnning Commission has advised the Government of Bombay to drop its scheme for nationalisation of goods service in the State. The project is estimated to cost Rs. one crore.

SURCHARGE ON RAILWAY FREIGHT TRAFFIC

Rs. 23 CRORES SURPLUS IN RAILWAY BUDGET

The Union Railway Minister, Mr. Shastri, announced yesterday a proposal to levy a surcharge of one anna in the rupee on all freight traffic, with the exception of grains and pulses, fodder, manure, khadi, newspapers, newsprint and books.

The Minister, who was presenting the Railway Budget for 1956-57 in the Lok Sabha, said that this step was being taken in order to fill the gap between Railway revenue and the contribution which they were expected to make towards financing the Second Five-Year Plan for the Railways. The surcharge would add Rs 11.6 crores to the revenue during 1956-57.

Mr. Shastri said that the Railways themselves were expected to provide Rs. 375 crores out of the total allocation of Rs. 1,125 crores made for their second Plan. As against this, their resources were likely to amount only to Rs.325 crores during the Plan period.

The Railway Minister said that the Budget for 1956-57 would reveal a surplus of Rs.23 crores all of which would be credited to the development fund. The gross traffic receipts for the Budget year placed at Rs. 345 crores and the expenditure at Rs.323 crores.

Dealing with the Budget estimates for 1956-57, the Minister indicated that the estimated passenger traffic had been placed at Rs. 111.4 crores, an increase of Rs. 2.9 crores. The budget estimate for other coaching earnings had been placed at Rs. 21.8 crores, an improvement of Rs. 1.3 crores on the current year, of which about Rs. 1 crore would be due to the supplemental charge of one anna in the rupee on parcels. The budget estimate of goods earnings had been placed at Rs. 205.5 crores.

Gross traffic receipts for 1954-55 actually amounted to Rs. 286 78 crores, recording an improvement of Rs.3 98 crores. Ordinary working expenses came to Rs. 205.87 crores, the increase of Rs. 3.1 crores being due mainly to heavier expenditure on repairs and maintenance.

Mr. Shastri said that passenger traffic had improved by 7½ per cent in terms of passenger miles and the revised estimate of passenger earnings had been placed at Rs. 101.5 crores, against Rs. 104.5 crores in the Budget.

Goods traffic showed a substantial increase and the revised estimate was placed at Rs. 180 crores which was Rs. 16.1 crores more than the Budget.

The gross traffic receipts for 1956-57 were now estimated at Rs. 314.1 crores.

CONVICTIONS

Mysore, 24

Smt. Radhabai, owner of a milk bar in Gandhi Square was fined Rs.25 by the Second City Magistrate for using a loudspeaker without a license.

Narasimiah and Sattar were fined Rs. 10 each for satta gambling in Clock Tower.

Abolition Of Third Class

The Railway Minister, Shri Shastri told the Parliament yesterday, that in pursuance of the Railways' policy to reduce the number of classes to only two in addition to air-conditioned travel, "our present intentions are to abolish the existing third class and to rename it as second class with sleeping accommodation in one or two separate coaches".

Shri Shastri said that "as a token of the standard of service which the Railways would like to provide if they had adequate resources, and as a model to be kept in view for the future," it was proposed to introduce from October 2 next a vestibuled fully air-conditioned fast train service, which would have only two classes between Delhi on the one hand and Bombay, Madras and Howrah on the other. To start with, this service would be weekly or bi-weekly.

36-LAKH PEOPLE IN RAIL JOURNEY

An average of 36-lakh people travelled by rail daily in India during 1955. Roughly one per cent of India's total population sat in the trains every day, all through the year.

Fifteen years earlier, in 1940-41, the Railways in undivided India carried an average of 15.7 lakh passengers daily or approximately 0.4 per cent of the population.

During 1954-55, the people of India undertook nearly 126 crore train journeys travelling a total of 3.865 crore miles.

Central Coir Board Meeting

NEW TRAVEL CONCESSIONS

The union Railway Minister announced in the Lok Sabha yesterday that the Railway will in future issue concession return tickets for the general public at one and a half times the single ticket fare between July 15 and September 30 each year.

It was further proposed that the concession now available to students travelling in groups of four between their homes and their educational institutions, should in future be available to students even when travelling single, on the production of the usual certificate

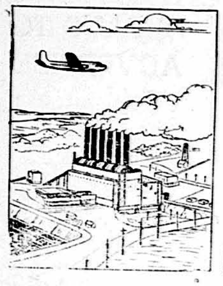
EXPRESS GOODS TRAINS

The Railways propose to introduce shortly, as an experimental measure, a special scheme for guaranteed quick transit of goods in wagon-loads and in smalls on important trunk routes.

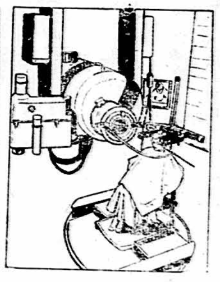
The basic features of the scheme were that goods would be carried by express goods trains within a guaranteed period.

★ The Madhya Pradesh Government will erect a monument to mark the centre of India, which has fixed at a spot in Sehor in Jabbalpur district. The monument will cost Rs. one lakh.

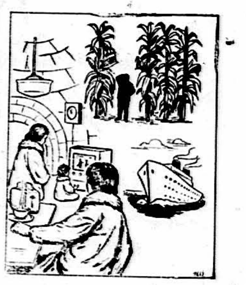
TRUE TALES—MAN and the ATOM



GREATEST ENERGY, —Atomic energy can destroy every living thing on earth or become man's greatest blessing. The energy from one pound of uranium could propel a commercial airplane around the world 3,000 times or do the work of 250,000 tons of coal. The atomic energy from this same pound of uranium could also destroy a city in one horrible instant.



GREAT PROGRESS IN PEACEFUL USES Many peaceful uses already have been made of atomic energy...food preservation, diagnosis and treatment of disease, propulsion, measuring devices, etc. U. S. scientists are currently working with specialists in all fields to increase food supplies. benefit health, and to improve old products as well to create completely new and better ones!



EVERYONE TO BENEFIT—Scientists predict the greatest wonders are yet to come... economical and superefficient power for giant ships and aircraft, the conversion of deserts and Arctic wastes into lush farmland, treatment and ultimate elimination of many diseases, new agricultural products...and electric power for everyone! Truly a great future for mankind! (concluded)

MYSORE SECOND PLAN PROVIDE JOBS FOR 1,52,000

Bangalore, 27

The State Second Plan will provide direct employment for 52,000 persons in addition to providing employment to one lakh of persons under rural and cottage industries schemes.

According to the details of Rs. 85-crore scheme for the Second Five-Year Plan, published by the Government, the phasing of the expenditure for the first two years are Rs. 1,752,33 lakhs for 1956-57 and Rs. 1,710,72 lakhs for 1957-58.

Discussing the need for certainty regarding funds for the Plan, the Government says: "Considerable difficulty has been experienced during the current Plan as a result of uncertainty regarding the availability of finance and also as regards to its allocation as between loans and grant assistance. The State Government has, in many schemes, been working in the dark and commitments have been undertaken, the burden of which has emerged when it was too late to refuse to shoulder them. This has been a sort of embarrassment to both the Centre and the State. It is urged most strongly that firm decision regarding financing the whole Plan should be made in advance of implementing the Plan. The State should know for certain what Central assistance will take the form of loans and what will be grants."

Establishment of an Industrial Estate at a cost of Rs. 50 lakhs to grant facilities for starting industries, stepping up of the electricity potential by 1,12,000 k. w., and increasing the production of transformers and high-tension insulators are some of the features of the Plan.

Another feature is that a provision of Rs. 133.45 lakhs is made for reorganising 400 agricultural credit co-operative societies and 80 marketing co-operative societies by granting short-term loans to agriculturists.

Under Public Health, it is proposed to have 34 additional health units, a district laboratory for each district, an experimental family planning centre, a T. B. clinic, 15 maternity and child welfare centres, school health service in Bangalore city and two additional malaria control units to cover the entire State

As regards education, Plan envisages expansion of adult education at a cost of Rs. 10 lakhs. 2,250 primary schools will be started and 7,750 teachers will be appointed. Five visual education centres will be started.

YOUTHS' STUDY TOURS

Study tours of youths of different States in India to various projects and educational institutions in the country are proposed to be arranged by the All India Youth Congress.

Giving this information, Mr. Hiralal Bose, Organiser, Youth wing of the All-India Congress Committee stated that the Amritsear resolution of the Congress in this matter clearly laid down the principles on which the youth of the country should be rallied and mobilised for inculcatig in them the spirit of unity.

Story Of Netaji's Death, A Myth

That all the story about the aircrash and death of Netaji as well as the preservation of his ashes in Tokyo was a 'myth and a fabrication' by the Japanese Government intended to save Netaji from being handed over to the Allies at the end of the last war, stated Mr. U. Muthuramalinga Thevar, the Forward Block leader.

He reiterated that Netaji was now in command of the Indian part of the Asian Liberation Army in Chinese Sikang. He estimated the strength of his Army as five millions, of which some thousands were Indians.

Mr. Thevar also repudiated the story of Netaji's marriage with a German woman and called her an 'impostor.'

He averred that Prime Minister Nehru knew all this inside story and yet did not 'own it in public for his own reasons.'

Netaji did not want to return to India now as India was not a true republic or a free country and it was only a 'Royal Republic' still under the influence of Anglo-Americans. Netaji, he said, would come to India only to liberate the country and that was his mission.

DEVELOP INDIAN LANGUAGES

President Rajendra Prasad suggested that in the Universities in North India there should be proper arrangement for the study of Indian languages as optional subjects Until this is done organisations like the Rashtrabhasha Parishad can do something in the direction and they should do it, he said.

He also pleaded for closer contacts between Hindi and other Indian languages by an inter-change of literary works.

Although it was essential that Hindi should be propagated and enrich its literature, still regional languages should also be developed.

INDIAN ECONOMY STRONG

FIRST PLAN SUCCESS, SAYS DESHMUKH

Mr. C.D. Deshmukh, Finance Minister in presenting the Budget told the Lok Sabha that he was pleased that the First Five Year Plan had been fulfilled to a satisfactory extent and had laid "sound foundations for a more massive superstructure in building up the country's economy."

He said the economic conditions in the country changed for the better in 1953 and 54 and it achieved greater strength in the course of 1955.

Mr. Deshmukh however, warned against certain pressures on the economy, which if not kept under observation and check, might become inflationary in the context of of the greatly increased rates of further expenditure contemplated in the Second Plan.

The Minister stressed that additional taxation was inseparable from a bolder plan of economic development and added "What I have proposed this year by way of tax effort is, in my judgment, the minimum that must be attempted in view of the requirements of the Plan."

For the coming financial year, at the existing levels of taxation, the Minister estimated revenue at Rs. 493.6 crores and expenditure at Rs. 545.43 crores.

DOWAGER MAHARANI PASSES AWAY

Mysore, 3

We regret to report the death of Sri Sri Pratapa Kumari Devi, Lakshmi Vilasa Sannidhana, the Dowager Maharani of Mysore, last evening at 6-20 at the Bangalore Palace.

The Dowager Maharani, the wife of the late Sri Krishnarajendra Wodeyar, was ailing since fourteen months and was in Bangalore since Nov. 14.

She was aged 68.

Sri Lakshmi Vilasa Sannidhana, the daughter of Rana Saheb of Jhula, Sri Vinayasimha, a member of Vana royal family in Kathewad States, in her 12th year was married to His Highness Sri Krishnarajendra Wodeyar, on June 6, 1900.

Immediately after hearing the sad news, Chief Minister Hanumanthaiya and other Ministers called at the Palace.

Early this morning the body was brought from Bangalore and was taken in a procession in an open car with full military honours from the old Ookad near Bannimantap. The Rajapramukh, the Rana Lakshman Singh, brother of the Dowager, Bharatpur Maharaja and other palace and Government officials followed the procession to the palace cremation ground in Madhuvana.

His Highness performed the last rites and lit the funeral pyre.

MPCC President Mr. S. Channiah, Municipal President Mr. A. Krishnamurthy Rao, Trust Board Chairman Mr. S. Linganna, the Deputy Commissioner, the Municipal Commissioner, and others were present at the cremation ground. The Military Secretary to the Shah of Iran was also present.

As a mark of respect, 68-minute guns were fired from the palace battery.

All educational institutions, courts and Government offices were closed.

Thousands of people lined the procession route to pay their last respects to the memory of the departed soul.

Shah Bags Tusker & Bison

Mysore, 3

The Shah of Iran bagged a 9½-feet high tusker and a bison, yesterday at Kyathedevaragudi in the Beligirirangan Hill forest range.

The Shah, who was accompanied by Queen Sorayya, the Rajapramukh and the Conservator of Forests Mr. M. A. Muthanna, rode on an elephant into the forest. Queen Sorayya was the first to spot the tusker which was hiding behind a thick bamboo grove. The tusker which was a rogue and regarded particularly dangerous sunk to its knees when the Shah's shot hit between the eyes. Five more shots were fired by the Shah before the animal dropped dead.

It was later found that the elephant had only one tusk having probably lost the other in some grim jungle battle.

The Shah also shot two more bisons but could not approach the animals in view of the difficult terrain and poor visibility.

The Shah and the party returned to the City late in the night.

This morning again the Shah left for big-game hunting.

Social Welfare Work

The Central Social Welfare Board has taken up on a country-wide scale the provision of welfare services for the largest groups, women, and children, and also the handicapped and delinquents. These services are being provided in urban areas through financial grants amounting to Rs. 76 lakhs given to about 2,800 voluntary welfare institutions and in the rural areas through the establishment of 291 Rural Welfare Extension Projects.

To make up the gap in trained workers, organisation of training courses has become an urgentand imperative problem. To solve it, the Central Board has entered into a long-term arrangement with the Kasturba Gandhi Memorial Trust for training Gram Sevikas, the requirements of which for the 1,320 projects to be set up during the second Plan period have been computed at 8,000. The first batch of 700 candidates are being trained since June or July, 1955, in the 18 centres of the Trust and will be completing their course by the beginning of April.

Fresh and considerably larger batches of women candidates for Gram Sevika training will be recruited in April next. Similarly the training of 1,600 nurses and mid-wives and 6,000 dais had also to be taken in hand.

KARNATAKA-KERALA MERGER TALKS

KARNATAKA LEADERS' OPPOSITION

Bangalore, 6

Mr. S. Channiah, MPCC President held discussions with the Karnataka leaders here yesterday regarding the formation of bi-lingual State comprising of Karnataka and Kerala

Most of the leaders, it is learnt, emphatically opposed the merger of Karnataka and Kerala. But they were unanimous in regard to the formation of Karnataka State first and think of proposals of multi-lingual States, if conditions threatening the national interests were to arise in future.

Mr. C. M. Poonacha, Chief Minister of Coorg and Mr. A.S. Chinnappa, President of the Coorg District Congress Committee, Dr. A. B. Shetty, Health Minister of Madras representing Mangalore, Mr. Veerendra Patil, General Secretary of the Hyderabad Pradesh Congress Committee, Mr. S. Nijalingappa and K. Hanumanthaiya participated in the meeting.

After a three-hour discussion, Mr. Channiah told the pressmen that they held inconclusive talks and he hoped to invite others again for discussion.

He said that whatever they discuss must be over and a decision taken by the end of this month. He made it clear that if everyone participating in the discussion agree on the idea of Karnataka-Kerala merger, then it was possible, otherwise not.

Asked for his personal opinion about the merger, Mr. Channiah said "Whatever the leaders say is also my view."

Union Budget Leakage

The Union Finance Minister Mr. C. D. Deshmukh admitted in the Rajya Sabha that there was leakage of the Union Budget.

He said that Mr. M. C. Shah, the Union Minister who was in Bombay on Feb. 29 had been given by Mr. Morarji Desai a paper "on which parts of an earlier portion of my Budget speech had been typed out", which was handed over to him the next day

Mr. Deshmukh stated that the seriouseness of the matter could not be exaggered 'After receiving the paper from Mr. Shah he passed it on to the Home Minister for immediate inquiry.

It was disclosed that on Feb. 26 the information containing Budget was sold at Rs. [illegible]00, on Feb. 28 at Rs. 500 and on Feb. 29 at 5 p.m. at Rs 5.

Examinations Made Easy

New Light On Indian History

Some of the hitherto unknown and interesting facts relating to Indian life and history were revealed in a score and odd scholarly papers presented by eminent historians at the 32nd session of the Indian Historical Records Commission which met at Patna recently.

Certain documents, brought to light by Shri Jata Shankar Jha, reveal that though the first manifestation of the independence movement of 1857 was a military rising, the general public, too, participated in the struggle against foreign domination. These documents high light the events leading to the furious uprising in Patna in July, 1857.

STONE AGE IMPLEMENTS DISCOVERED

A surface collection recently made at Nagarjunakonda, Guntur, has yielded a rich harvest of Stone Age implements, including microlithic tools.

The Nagarjunakonda Valley had commanded a strategic position among the string of riparian trade and cultural outposts in the lower Krishna basin during the early historic times. This was equally true of the site even during the prehistoric times. Megalithic stone circle with a central flat capstone topping the cairn heap is not an unknown sight in this valley.

Mysore, 7

The following thefts have been reported in the City.

In the house of Mr. Nandaram Singh at Chamundipuram gold and silver articles worth Rs. 809 on the night of Saturday last.

A wrist-watch costing Rs. 120 from the house of Mr. H.K. Krishna Murthy in V.V. Mohalla, last night.

Devaraja was caught red-handed when he was stealing a bedsheet in the house of Mr. K. K. Das in Chamarajapuram yesterday.

YOUTHS SHOULD BE ALERT

Prime Minister Nehru inaugurating the Bharat Yuvak Samaj section of the Bharat Sevak Samaj at Nizamabad asked the youth to be uptodate mentally, physically and in all other aspects, for their own good and for the progress of the country. In an atomic era they could not progress with a stone age mind, he said.

The sign of life in a nation, he said, did not mean running here and there or taking out processions. If life was there, it expressed itself in many ways through brain, culture, language and the like.

The question whether students should take part in politics appeared absurd. Times had changed and under the present circumstances methods used during pre-independence days had no meaning at all.

REDUCE BUILDING COSTS

Sardar Swaran Singh. Union Minister of Works, Housing and Supply, called on the various States to give a fair trial to the suggestions of research institutions for reducing building costs without impairing efficiency.

The Minister was inaugurating the first meeting of the National Building Council at Delhi.

Referring to the acute housing shortage in almost all countries of the world and the need for a scientific approach to the problem, he said, "The tempo of building activity has not been able to keep pace with the demand mainly for the reason that the cost of construction has become too high for economic results.

The Minister pleaded for a nationalisation of designs, building codes and construction practices and substitution of new and cheaper materials in place of traditional ones. He said that building practices in the country were not uniform, and differed even within the compass of a single construction agency. The designs and costs also varied to a substantial degree.

CENTRE TO RELEASE RICE STOCKS

The Government of India will be releasing their reserve stock of rice to the tune of five lakhs tons in the open market and replenish it by buying from this year's crop, stated the Union Deputy Food Minister.

This release and rebuilding of the stock would serve as a balancing factor--the producers securing economic prices and the consumers not having to pay more for their requirements, he added.

ELECTRICITY TO EVERY HUMBLE HOME

HANUMANTHAIYA'S PLEA

Bangalore, 8

Inaugurating the Fifth session of the Electric Sub-Committee of the United Nations Economic Commission for Asia and Far East, here yesterday, Mr. K. Hanumanthaiya, Chief Minister called upon the electrical engineers to see that electricity reached every humble home.

Mr. Hanumanthaiya referred to the importance of electric power supply for the expansion of the industries and said that in India they had planned a target of 7 million k. w. of installed capacity in a 15-year period. It was quite likely, he said that 'inspite of our ambitious plans and ability to implement them, we might find ourselves at the end of the Second Five-Year Plan in the same position as today when there is a shortage of power everywhere in the country'.

Referring to rural electrification, he said that this was a matter which was of vital importance to the countries of the region in view of the fact that more than 80 per cent of population lived in rural areas. It was generally acknowledged that the extention of electricity to rural areas was not an economic proposition from the strictly commercial point of view. But unless electricity was made available to the remotest corners of our countries, the lot of the common man could not be improved. "It is indeed a challenge to the electrical engineers and I have no doubt that they will make every effort to see that electricity reaches every humble home. I call upon the engineers of the countries of the region not to rest on their oars until this objective is achieved."

SMALL INDUSTRIES

A programme of regional investigation to determine what types of specific small industries can be promoted in different regions in the country, will be considered at the fifth meeting of the Small-Scale Industries Board to be held at Indore on March 10 and 11. The meeting will be inaugurated by the Union Industries Minister Shri T. T. Krishnamachari, and the Secretary of the Ministry, Shri H.V.R. Iyengar, who is Chairman of the Board, will preside.

Dr.Modi's Eye Operation

Mysore, 12

Padma Shri Dr. M. C. Modi who is conducting a free eye operation camp here at the Exhibition Buildings told pressmen yesterday that he had performed 424 (249 men and 175 women) eye operations. 5749 persons were examined, and 2457 persons given medicine in the city.

Among operations 142 were cataract, 38 pterygium transplantation and 1 plastic lens implantation.

In the Mysore District he examined 4186 persons and gave medicine for 2039.

He said that results of the operations were cent per cent successful.

Here he took the opportunity of thanking all those who had helped him to conduct the camp successfully.

Dr. Modi narrating his experiences and difficulties in launching this mass operation camps in several States said that he had the greatest opposition from the doctors of the Mysore State who even went to the extent of describing him as a 'Quack' and his camp as 'mushroom camp'. They also sent a requisition to the All-India Medical Conference to ban his camp. But now he was glad to state that after watching his success, the very doctors had changed their opposition.

Since starting this mass eye operation campaign in 1943, he had conducted 60,000 operations and 10 lakh-people had been examined.

Dr. Modi added that his ambition in life was to try his utmost to remove the scourge of blindness in the country and also to conduct research and train doctors in this mass operation campaign. In Andhra, the Government was deputing doctors to his camp to take training and said that he was prepared to give training if qualified persons came forward and stay for couple of years with him.

Dulles's Assurance To India

Mr.John Foster Dulles, the American Secretary of State, who had long discussions with Prime Minister Nehru at Delhi on Friday and Saturday, has assured that America would come to the rescue of India if Pakistan, strengthened by U. S. military aid, should launch aggression.

Referring to Goa and Kashmir, he said the U.S. had not taken any position on the merits of the issues, but only hoped for their settlement by peaceful means.

Mr,Dulles said his talks with Mr. Nehru had led to a better understanding of "our respective positions." He was confident that the friendship between India and U.S. would continue. "I pledge the dedication of our Government, our nation, and our people to the achievement of that end," he added.

DEVELOPMENT OF APPALAM INDUSTRY

The Madras Government has sanctioned a scheme for development of appalams (Pappat) as a cottage industry.

REVISION OF PAY SCALES POSTPONED

Bangalore, 13

Chief Minister Hanumanthaiya in his Budget speech referred to the recommendations of the Pay Structure Committee and said that the question of implementation should be postponed for a short time in view of the impending reorganisation of States.

He said that at the time of Greater Mysore comig into existence in October, decisions have to be taken applicable to the new State as a whole. Any decision now taken might further add to the complications arising with the integration of different areas into one State, It is for this reason that the Central Government advised the State Government to defer at this stage questions releating to revision or upgrading scales of pay to avoid embarrassments and complications while integrating the services.

39o-LAKH DEFICIT STATE BUDGET

NO IMPOSITION OF FRESH TAXES

5-CRORE PUBLIC LOAN TO BE FLOATED

STATE BUDGET PRESENTED IN ASSEMBLY

Bangalore, 13

The State Budget for 1956-57 presented in the Legislative Assembly yesterday revealed a deficit of Rs. 389.06 lakhs. The total revenue and expenditure being Rs. 25,77.53 lakhs and Rs. 29,66.59 lakhs.

In the new Budget there was no measures for additional or fresh taxation.

Chief Minister Hanumanthaiya presenting the Budget stated that the Government proposed to float a new public loan of Rs. 5 crores to finance 'the bigger irrigational and power projects.' Here he revealed that the total public debt outstanding was Rs. 46.28 crores and this, he explained, was due to 'considerable magnitude under the Five-Year Plan.'

The estimated revenue and expenditure compared to the current year's Budjet are higher by Rs. 231.37 lakhs and Rs 260.56 lakhs respectively.

The factors contributing to the increase of revenue are: adoption of revised electrical rate structure; extension of Estate Duty to agricultural lands and non-reduction of the guaranteed amount of 'Revenue Gap'.

The Chief Minister announced that as from 1956-57, the rate of interest on the capital invested in all the Government industrial concerns, including the Mysore Iron and Steel Works and the Electricity Department, will be raised from 4 to 5 per cent.

The revision of electrical rate structure will affect industrial establishments, street lightings and irrigation pumps and is expected to raise the net revenue from electricity to 7 per cent, thus yielding an additional revenue of Rs. 18 lakhs.

Mr. Hanumanthaiya said that they proposed a capital programme of Rs. 1,455.25 lakhs consisting of major irrigation, power and industrial projects already in progress in addition to new schemes to be started under the Second Five-Year Plan.

Provision for the major schemes are: Bhadra project Rs. 300 lakhs; Tungabhadra, Nugu, Tunga and Ambigola irrigation projects Rs. 104 lakhs; power transmission and distribution schemes including electrification of towns and villages Rs. 250 lakhs; Bhadravathi Iron and Steel Works Rs. 93.66 lakhs; Sharvathi project Rs. 150 lakhs and Kapini Reservoir project Rs 25 lakhs.

The Chief Minister referring to the Central assistance, stated that the figure of Rs. 1,200 lakhs is provisional, since a firm indiction of assistance has been received so far to the extent of Rs. 3 crores only.

He said that the Union Government heve been moved to make the balance also available, so that the Capital programme for the next year may not be retracted on the score of inadequate finance.

Mr-Hanumanthaiya announced that the State Government had decided to implement the salutary reform of associating Labour with management in all Government industrial concerns. Here he satd that the Government proposed to convene a conference of representatives of management and Labour for evolving a working plan for this purpose.

Referring to Insurance, the Chief Minister said "When well-organised State Departments of Insurance fully able to carry on the policies contemplated by nationalisation are in existence, it would be unwise not to make full use of them. Any over-centralised agency for the whole of India may not work with speed and efficiency. I would earnestly urge upon the Central Government to keep these aspects in view before giving a final shape to the arrangements for administering nationalised life insurance."

About Prohibition, he said that State-wide prohibition will involve a serious depletion of resources assumed for the Second Plan. Unless, therefor, there is an assurance from the Centre that the loss of revenue will be reimbursed to the State, we will be jeopardising the chances of implementing the Second Plan by extending Prohibition.

A sum of Rs. 76,23,800 as against Rs. 41,82,800 has been provided for Education, which include development schemes in University and Secondary education. Here the Chief Minister stated that the Medical College recentiy started in Bangalore will be taken over by Government and developed. Two new Occupational Institutes will be opened under the Second Plan.

On the advice of the Government of India, it has been decided to discontinue the State's Savings Certificate scheme from April 1 after which they will be replaced by the corresponding Central Government Savings Scheme. But the State's Savings Bank Scheme will be continued

Mr. Hanumanthaiya also announced that the Government will take over the City Bus service at Bangalore from April 1.

Additional provision has been made for the following schemes: Rs. 69 lakhs for improving water supply in Bangalore; Rs. 10 lakhs for afforestation of waste lands, soil conservation, development of integrated wood industries and preservation of wild life; Rs. 22 lakhs for construction of new tanks and improvements to existing ones; Rs. 5.5 lakhs for exploitation of economic mineral deposits such as chromite, soap stone and sulphide ore; Rs. 34,51,800 for cottage industries.

Mysore First Plan Success

Bangalore, 14

Mysore had not only kept pace with the rest of India in the matter of implementing of the First Five-Year Plan, but had done better than other States in some respects, said Chief Minister Mr. Hanumanthaiya in the course of his Budget speech.

The total outlay in the State Plan was Rs.48 crores, he said. Of this, Rs. 31.25 crores had been spent to end of 1954-55. The highest priority was given to agriculture in the First Plan, the total sum allocated being Rs.24.35 crores.

For 1955-56, a provision of Rs.13.39 crores was made.

Referring to the Second Plan, the Chief Minister said that anticipated receipts during the next five years at existing level will be Rs. 98.46 crores. At the level of expenditure reached during 1955-56, the outgoings for the next five years will be Rs.110.81 crores. There will, therefore, be a shortfall of Rs. 12.35 crores. They propose to raise Rs.15 crores by public borrowing. They will be left with a crore of rupees only as solid resources for the Second Plan. But they are confident that Central assistance will be available to implement the accepted plan.

DAKSHINA PRADESH OPPOSED

Bi-Lingual State SHOULD NOT BE FORCED ON PEOPLE

Bangalore, 14

Mr. Hanumanthaiya, Chief Minister in his Budget speech referred to the move for formation of multi-lingual States and said "Mysore has come into the picture for discussion in connection with the formation of Dakshina Pradesh. This is a subject on which we cannot afford to take a hasty decision. We have to keep in mind the broader considerations of unity and at the same time safeguard, in every way, administrative efficiency, economic progress and amicable understanding.

"I wish to remind that this House as well as the Council have not accepted the 'one language-one State' idea and they have resolved to maintain the composit character of the State. If, therefore, proposals are made for a bilingual or a trilingual State, it is in harmony with our accepted principles But no reorganisation along these lines should be effected or need be effected if the people concerned do not want it The proposal is yet at the stage of consideration."

Financial Aid is A Bribe-RAJAJI

Sri C. Rajagopalachari said at Madras that he was not happy about India accepting financial aid from the United States to balance her budget. 'After all a bribe is a bribe though given in a different way and with a different motive', he added.

He said that Americans disliked Communism with a religious fanaticism and had till now thought that they could stem its expansion by weapons and armies. But Russians had also realised that the doctrine that ideal Communism would be possible only with the whole world becoming Communist was wrong and unpopular. Americans had therefore found out that armaments could not effectively check Communism and had revised their policy to one of economic aid to the rest of the world in order to build up a wall round Communists.

Americans have thus come to believe that the 'Tantra' (strategem) of 'Dhan' could do what 'Danda' (Force) had failed to do, he said.

MOBILE WORKSHOP UNITS

The establishment of mobile workshop units, Industrial Estates, industrial service centres and supply of iron and power credit requirements were some of the recommendations made by the Small-scale Industries Board which met at Indore yesterday.

AYURVEDIC COLLEGE TRANSFER OPPOSED

Mysore, 15

Smt Vedamma, daughter-in-law of the late Vaidyaratna Gundlu Pandit Lakshmanachar in whose memory the Ayurvedic College in the City has been constructed, in a statement issued today, requested the Government not to transfer the College to Bangalore. She stated that Rs 15,000 grant made by her father-in-law was for the express purpose of constructing an Ayurvedic College in Mysore City alone and to this the Government had agreed. Srimathi Vedamma pointed out that there were suitable vacant sites to the east and north of the Hospital for extending the present building and blue prints were ready for approval of the Government.

The Chief Minister Sri K. Hanumanthaiya had also promised at a press conference held on 14-6-54 that the College would be extended and retained in Mysore alone. More over the transfer of the College to Bangalore would force 30 lady students to discontinue their studies, she added.

"Even now", Srimathi Vedamma appealed 'the Government would be pleased to withdraw their order and retain the College in Mysore alone.'

CODE OF ETHICS FOR ADVT.

Union Information Minister Dr. B V Keskar told the Parliament that there was a survey of objectionable advertisements in the press for assessing the extent and variety of objectionable advertisements in the country and was intended to provide factual material far helping in the drafting of a code of ethics by the proposed Advertising Council.

FORMATION OF DAKSHINA PRADESH

Bangalore, 15

The Legislative Council yesterday devoted much of its time on the resolution moved by Sri C J. Devanath, welcoming the formation of Dakshina Pradesh, which was later withdrawn by the mover.

Mr. Govinda Gowda welcoming the resolution said that the formation of Dakshina Pradesh deserved consideration.

Several members including Messrs Y. Dharmappa, V Veeranna, A. Rama Rao and S. Veerabasappa opposing the resolution said that it was not wise to consider the proposal now.

Sri A G Ramachandra Rao, Education Minister replying to discussions stated that the term Dakshina Pradesh was net clear in its content and meaning The House should think whether such an ambiguous subject deserved discussion on the floor of the House. A comprehensive proposal regarding reorganisation of States would be placed before the House. Therefore, the mover might do well to withdraw the resolution, he added.

RACING MUST CONTINUE

Bangalore, 15

Sri J.M.Imam, Leader of the Opposition has appealed to the Government to allow horse racing in Bangalore which would redound to the credit of the Government.

Speaking in the State Assembly, he said that the Government would lose a revenue of Rs 7 lakhs by way of betting taxes. Differences of opinion between the Government and the Management regarding the number of nominated members in the Managing Committee should not come in the way of horse racing in Bangalore. That would be axing the very roots. It would not be wise, he observed.

BELLARY TO REMAIN IN GREATER MYSORE

INDIA TO BE DIVIDED INTO 15 STATES : 7 UNION TERRITORIES

STATES REORGANISATION BILL PRESENTED TO PARLIAMENT

The States Reorganisation Bill was presented before both Houses of Parliament yesterday.

The Bill envisages 15 States and seven Union Territories.

Under the provisions of the Bill, Bellary District will remain part of Mysore State (the enlarged State) as against the S. R. C. proposals.

The reorganised States would come into being on October 1, next.

The 15 new States are : Andhra-Telangana, Assam, Bihar, Gujerat, Kerala, Madhya Pradesh, Maharashtra, Mysore, Orissa, Punjab, Rajasthan, Uttar Pradesh, West Bengal and Jammu and Kashmir.

The Union territories are : Bombay, Delhi, Himachal Pradesh, Manipur, Tripura, Andaman and Nicobar, Lacadives, Minicoy and Amindive islands.

The present distinction of Part A, B and C States will cease to exist.

The Bill envisages five Zonal Councils with a permanent Secretariat. The functions of the Council will be purely advisory. It will be competent to discuss any matter in which some or all the member States and the Union have a common interest and to tender advice to the Governments concerned. Each Council will consist of one Union Minister nominated by the President, Chief Ministers of the constituent States and two other Ministers of each State to be nominated by the Governor. The Union Minister will be the Chairman of each zone.

The Southern Zone is to comprise of Andhra-Telengana, Madras, Mysore and Kerala.

The Bill announces that the Government of India will if necessary appoint Boundary Commissions for examining territorial adjustments

The Bill envisages a common High Court for Bombay City, Maharashtra and Gujerat.

According to the Bill, interim Legislative Assemblies would be set up and they function until general elections are completed and the new assemblies are summoned to meet. All sitting members of the existing assemblies will become members of the States to which the territory comprised in their present constituencies is transferred.

The Bill provides for the reconstitution of all State cadres of I. A. S. and I.P.S. The cadre for all Part B States would be abolished, and they will be allocated to the new State cadre.

RS. 5 CRORES FOR SUGARCANE DEVELOPMENT

Union Agriculture Minister, Mr. Punjab Rao Deshmukh announced that the Government of India had set apart Rs. 5 Crores for sugarcane development schemes in the Second Five Year Plan.

Addressing the Indian Central Sugarcane Committee at Delhi, the Minister said that increased assistance would be given to the States in which no cane development was done.

Dr. Deshmukh pointed out that during the Second Plan period the cane development schemes were expected to cover the entire area under the crop and urged the tempo of research work both on cane and gur should be intensified along with the cane development.

Reviewing the working of manuring campaign started in 1954, the Minister said that **it was decided to cover an area of 10 lakh acres during the year in the important cane-growing States and out of this target an area of 7-69 lakh acres had been covered by the end of December last and that the target for the current year would be fully achieved. The target during the next year would be in the order of 15 lakh acres. He assured that the Government of India would give whatever loans the States wanted to the cultivators for fertilisers.**

MILITARY AID TO PAK TERRIBLE PROBLEM FOR INDIA

PRIME MINISTER NEHRU'S STATEMENT IN PARLIAMENT

Prime Minister Nehru said in Lok Sabha, yesterday that Pakistan had received military aid in 'considerable quantity' and this posed a terrible problem for India from the point of view of diversion of her resources from development to military needs.

The Prime Minister speaking on the demand for grants for Defence Ministry said that while a war between India and Pakistan was unlikely, 'one cannot ignore the possibility of some emergency arising'.

The problem which had been 'thrust upon us by military alliances' said Mr. Nehru 'was how far, to ensure safety today, we are to sacrifice tomorrow's development.'

He had noticed in the course of the debate a certain anxiety and concern about recent events amounting almost to an apprehension and fear lest India might be attacked by our neighbour country and we might not be ready for it. The recent number of border incidents and more specially the fact that a great foreign country was giving military aid had led no doubt, to these apprehensions.

'It is perfectly true that the situation today in regard to defence of India has been very much affected by this factor of military aid coming in from a great country. We have to view this situation, therefore in this new light.'

The Prime Minister said, "If some power which had nuclear weapons at its disposal chose to attack India fully from the purely military point of view, we have little defence. But we may yet be able to meet even the menace of the atomic bomb because a people that has vitality, strength and unity and that a people that will not surrender whatever happens can never be beaten."

'In the final analisis', Pandit Nehru said, 'what counted was not the soldier or his weapons, but the spirit and unity of the people and their will to survive inspite of difficulties'

The Prime Minister declared that the Five Year Plan was the Defence Plan of the country. 'We are proceeding on right lines-we may speed up the process- the right lines being the industrialisation of the country. It is good from the economic point of view as well as from the point of view of defence'.

NO FRESH TAXATION ENVISAGED
CITY MUNICIPAL BUDGET FOR 1956-57

Mysore, 23

At a special meeting held this morning of the City Municipal Council Shri. A. Krishnamurthy Rao presiding, the budget estimates for the year 1956-57 were discussed.

Presenting the budget estimates Shri. A. Viswanath, Municipal Commissioner observed that the Revenue of the Municipality remained static while the expenditure was increasing day by day.

The Commissioner pointed out that the expenditure on street lighting was gradually mounting up year by year. The expenditure during 1950-51 was Rs, 58100 and as per revised estimates was Rs.82,000 during 1955-56. He suggested that the question of enhancing lighting tax on the consolidated tax on buildings from 1% to 2% required careful examination.

To augment the finances, the Commissioner suggested that the maximum rate on buildings and lands be raised to 6% which would bring an additional income of Rs. 1,00,000 He also suggested apperoval of the Health Committee's proposal of levying as. 8 per cart of manure which would also fetch about 5 to 6 thousand rupees. He reiterated the proposal of levying shop tax that would fetch an income of Rs. 50,000.

The demand for an increase in the rate of compensation for the loss of vehicle tax, he said, must be pressed on the Government again, along with the question of entrusting the Municipality, with the collection of the entertainment tax which had been set at rest, pending some formal amendments to the Act.

The Managing Committee which considered the above proposals dropped the suggestion for increasing direct taxation namely, the levy of shop tax, increasing house and lighting taxes. They however, were in favour of the proposal to request again the Government to entrust the collection of entertainment tax to the Municipality.

As per budget estimates, the total Receipts amount to Rs 66,82, 142 including opening balance of Rs. 1,33,542. The Receipts comprise Municipal Rates and Taxes Rs. 1869084 Special Acts Rs, 133300. Revenue from Municial property Rs. 512010 Grants and contribution Rs. 2,000 public debts Rs. 37,37,060.

The expenditure for 56-57 is estimated to be Rs. 63,66,000 with a closing balance Rs 62542. It includes Rs.333,031 for general administration; Rs 905,105 for public works; Rs. 13,23,155 for public health; Rs. 2,600 for public instruction; Rs. 2,500 for grants and contributions.

The Commissioner pointed out that Rs.20,000 is provided for the scheme of immunization against Diptheria and whooping cough. A sum of Rs 30,000 has been allotted for the construction of additional quarters for the sweepers. A further sum of Rs. 16. 000 is provided for two sets of uniforms to sweepers Rs. 9,912 is also set apart for additional set of sweepers for MARP Lines.

With a view to control and prevent the spread of mosquito neisance Rs. 4,368 has been provided under Antimalaria establishment.

For completing the incomplete works and for effecting improvements to Devaraj and other market a total of Rs. 1,38,000 has been provided

A sum of Rs. 10,000 for improvement of parks and Rs. 15,000 for improvement to the swimming pool have been allotted

Initiating the debate on the budget estimates, Mr. Mir Noor Hussain said that City Municipality was in a critical position for which no one could be blamed. The City he said had lost its importance and the Municipality had become a "Ji Huzur Municipality".

While the City bus service was nationalised the Municipality should have asked Government to pay some tax. nor they should demand the Road Trsnsport Department to pay the Municipality 25 per cent of its net income earned from Mysore city bus service.

Mr. Muhammad Sait observed that while people in several parts of city could not get adequate supply of drinking water, parks were being watered. He pleaded for levy of professional tax on those who were not paying any kind of tax and reduce the office establishment.

Shri. U. L. Ramachandra Rao pointed out that the donations received for constructing houses and now kept in Bank as Fixed deposit, should be utilised for the purpose for which it was received. He referred to the smuggling of goods in City without payment of octroi and wanted this to be rectified.

Musquitos, he added, had made city a 'Hell' and steps be taken to improve the condition.

Shri. M. C. Mahadevaswamy insisted that careful survey into the distribution of water in the city should be conducted.

Drainage system in the city should be improve and the proposed stadium should a be constructed early.

VYRAMUDI FESTIVAL

Mysore, 23

The 'Vyramudi' festival went off successfully yesterday night. at Melkote. Thousands of devotees both from the State and outside attended.

Both the Rajamudi and the Vyramudi taken from the Palace on Wednesday morning reached Melkote yesterday evening, with full palace honours. On arrival at Melkote, the huge gathering of devotees accorded a grand reception to the two Crowns, known for their value and Sanctity.

The two sealed parcels containing the Rajamudi and the Vyramudi were opened in the temple in the presence of Shri K Narasimha Iyengar, incharge Deputy Commissioner Mandya, other officials, and the devotees. But the representatives of the Mutt who ought to. have been present while opening were absent and this caused considerable anxiety both to the officers and the devotees. The Deputy Commissioner seeing that it was getting late ordered the seals to be opened at 10 30 P.M Consequently the procession of God Chelva Pille Raya commenced at 2 A. M and concluded before sunrise

Shri. T G N Ayyar, Chief Commissioner of Coorg and his wife were prominent among the devotees present.

Though a large number of policemen were drafted for bandobust, arrangements made outside the temple to control the crowd were far from satisfactory.

DEVELOPMENT OF SALT INDUSTRY

Vol. VI. MYSORE SATURDAY. MARCH 24 1956 No. 184

Abolition Of Cycle Licence Fee Urged

MUNICIPAL BUDGET DISCUSSIONS

Mysore, 24

After four and a half hours discussions over the Budget estimates of 1956 57 yesterday the Municipal Council adjourned to March 27. Mr A. Krishnamoorthy Rao presided.

During discussions Sri H.N. Muddiah suggested a proper survey regarding the distribution of water and meters installed in the city. He urged the abolition of cycle licence fee.

Sri M. Venkatalingiah wanted that proper scrutiny should be exercised to see that works were properly executed. He suggested that surprise visits should be paid by the Health Officer to see that the workers did not waste their time. Regarding the under ground drainage in the City he wanted a detailed map to be drawn to facilitate further undertaking of works. He remarked that Revenue accounts were not properly maintained and that arrears were not collected in time.

Dr. B. G. Das wanted that separate seats to be allotted to the Vice President and also the opposition leader. He wanted that the sale of adulterated oil, butter, etc, was increasing in the City and this should be checked. Sanitation and cleanliness in most of the hotels in the City were very bad and steps should be taken to enforce sterlisation. The Municipality should be entrusted with the power of issuing licences for Motor vehicles in the City.

Dr. Das wanted a special meeting of the Municipality to be convened to protest against the remarks of the Chief Minister made on the floor of the Assembly on Municipal Council's resolution about the shifting of the Ayurvedic College from the City.

Fr. Audieu suggested a Social service section be started in the Municipality to look after the welfare of the Municipal employees. He also wanted the basic salary of servants, peons and scavangers should be raised to give them a living wage.

Mr. Aziz Sait urged the reorganisation of the Health section. The principle of grants-in-aid given to various institutions should be examined to see that grants were given only to deserving institutions. A proper check on the Municipal workers employed in the officers' houses was necessary. He stressed the need for notifying the area of the wards in the City and also proper renumbering of houses. He also pleaded for the abolition of cycle licence fee.

Sri Srikanta Sharma felt that more funds should be provided in the budget for the Stadium and with a view to solve the problem of milk supply in the City a Dairy Farm should be started.

Sri K. Puttaswamy said that the grants given to certain institutions in the City were very low, and they should not be deprived of this smal aid. He felt that this was the proper time for the Municipality to urge upon the Government for including in their Second Five Year Plan the opening of dairy farm in the City.

He wanted some provision in the budget for slumclearance in the City and suggested that Central Government should be approached for a suitable grant for this purpose.

He said that the Municipality should urge upon the Government not to increase the charges on street light.

Mr. B. K. Ramakrishnaiah, Opposition leader, suggested that a committee be constituted to scrutinise the temporary establishment in the Municipality. He regretted that the revenue from the Sewage Farm was not comensurate with the large investment made on it.

Mr. S. Linganna, leader of the Congress party, said that the principle of increasing the Municipal loans was not sound. He suggested the formation of a finance committee to go into the question of the fiscal position of the Municipality. He pleaded for the transfer of cattle-shed in the Municipal farm to some other place to prevent the frequent attacks of pests to the cattle.

Regarding the construction of a stadium, he said, the Municipality was trying to get the Race Course for the purpose and this would need some time.

U.S. SHOULD SIDE INDIA ON GOA

U. S. LABOUR LEADER'S DEMAND

Mr. Walter P. Reuther, President of the United Automobile Workers of America and a leader of the progressive political forces in the United States has urged Mr. John Foster Dulles, the Secretary of State to reorient U.S. policies in South and South East Asia. The United States, he said, should stand beside India in the Goan freedom movement.

Mr. Reuther who called upon Mr. Dulles on Saturday last presented him a memorandum which also denounced the United States Military pact with Pakistan and SEATO.

On the question of Goa, the memorandum stated that American policy in the case of Goa was doing violence to the whole tradition of American anti-colonialism. 'Instead of permitting Portuguese intransigence to immobilise our policy, the United States must ceaselessly urge Portugal to withdraw from the Indian Sub-continent as the British and French have already done. No other position would be true to Americ.', he said.

Mr. Reuther is coming to India on a visit from April 5 to 15 at the invitation of the I N T.U C.

PROGRESS OF EDUCATION

Considerable progress had been achieved by the Union Government in the reorganisation and development of Education, in all its fields during 1955-56 said a report of the Union Eduction Ministry. The scheme designed to work out sound techniques of Basic and Social Education from the elementary to the post graduate level within select compact areas cost them Rs. 39,00,000. State governments received help to the extent of Rs. 15,65,869.

80,000 teachers were employed in Rural areas and this to a large extent relieved educated unemployment.

The outstanding achievement was the publication of the first five volumes of "Gyan Sarovar', the Encyclopaedia in Hindi.

Substantial grants were paid to University and non university institutions for developing facilities for scientific and Technical education and Research.

Rs. 294 lakhs proposal was included for implementation of as many as 9 schemes in Second Five year plan

The Government of West Germany have offered facilities for 50 Indians for post-graduate study and 80 for practical training during 56-57 on a reciprocal basis by providing 10 fellowships for German nationals for study of Indian languages, religion and philosophy in the India Universities

Rs.75,000 has been provided in the budget estimates of the National Archives of India for 56 57 to continue work of collection of material for the History of Freedom Movement, said the report.

GRADUAL ABOLITION OF PENSIONS TO ROYAL FAMILY

Bangalore, 29

Payment of pensions to the members of the Royal family came into discussion yesterday in the State assembly when the demand for the grant under 'Territorial and Political Pensions' came up before the House

Chief Minister K Hanumanthaiya said that the policy of the Government was to gradually discontinue the payment of pensions to members of the Royal family of Mysore. That was the policy laid down by the Government of India, he added.

Speaking on the demand, many members expressed their views on the payment of the political pensions They argued that it was not consistent with the time spirit.

The Chief Minister in the course of his reply said that it was a sound argument Some of the members of the Royal family were getting pensions There were the sisters of the Maharaja and other relatives. After negotiation with them it was found they were not in a mood to give up their pensions he said.

The Chief Minister continuing stated that according to the agreement between the last Governor General of India and the Maharaja, the pensions were payable during the life time of the recipients. After the demise of the Maharani of Bharatpur, the sister of the Mysore Maharaja, the pension was stopped. The Chief Minister said the agreement conferred the hereditary right of the office of the Rajapramukh of Mysore and his descendents should be continued to be called *Raj Bhasker*, but the SRC had indicated a different view. All these problems would come up for consideration.

There were also the pensionsgiven to the descendents of Hyder Ali, Tippu Sultan, Pallegars and the like.

The State Government was paying Rs 1,85,000 to the members of the Royal family, Rs. 40,500 to the Pallegars and Rs 3500 to the families of sardars and officers of Hyder Ali and Tippu's court and allowance for the upkeep of tombs, Gumbaz and Mausoleum of Hyder and Tippu at Srirangapatna, the Chief Minister said.

ATTACK ON KASHMIR WILL BE REPULSED

DR. KATJU'S DECLARATION

Union Defence Minister Dr. K.N Katju declared that India had no aggressive design on Pakistan but "in case any part of our country is attacked, we will defend it with the last drop of our blood."

Speaking in a public meeting at Allahabad, the Defence Minister said that India had already declared in her Constitution that Kashmir was a part of India. Kashmir's Premier Bakshi Gulam Mohammed had also repeatedly declared that Kashmir had acceded to India 'Inspite of all this, if somebody now attacks any part of Kashmir, we will take it as an attack on our country, we will fight with all the resources at our command."

Speaking about the recent Indo-Pakistan border raids, American aid to Pakistan and the SEATO meeting in Pakistan, which had caused uneasiness and stir in the country, Dr. Katju said 'I want that people should not entertain any such feelings. We are fully alive to the situation.' The Defence Minister said "We do not want toweaken our defence forces. We have a number of ordnance factories which produce small arms in no way inferior to American arms. We also have been negotiating with some countries for the supply of modern arms. We will not lag behind in equipping our Army with modern arms.'

He urged the people to join the territorial Force in large numbers and learn the use of arms.

Cheap Nutritious Food evolved

Mysore, 30

The Central Food Technological Research Institute here has rendered valuable socio-economic service harnessing fundamental and applied research in food technology and by evolving cheap, nonetheless nutritious food products out of fruit and other raw materials, much of which was going to waste.

The development of Malted Food, Multi-purpose Food, the Baby Food and others some of which samples were received, bear testimony of their utility

The Malted food-twin types of Infant foods similar to Ovaltine and Horlicks, made out of ragi malt extract and milk is of real value. This low cost food prepared from a blend of jowar malt, ground nut flour, skim milk powder and essential vitamins and minerals is a welcome food product, considering its cheapness of 12 As. per lb.

The preparation of 'Baby food akin to 'Glaxo and Lactogen by a special technique from buffalow's milk, after removal of part of its fat, and fortified with vitamins and minerals ought to go a long way in saving our children from some of the common ailments they are invariably subjected to. It is priced Rs.1-8 per lb.

The 'Multi purpose' food is a revolution in the field of cheap scientific foods. This envisages no change in the food habits, Made out of cheap indigenous food materials, rich in proteins, minerals and vitamins to meet the essential requirements of invalids and growing children and cheaper than its foreign counterparts, has been made available in two forms, the seasoned and the un-seasoned.

The Institute has decided to to instal a plant shortly to prepare about 5 tons of this multi-purpose food and make it easily available to the public at very cheap rates.

NO PLEBISCITE IN KASHMIR

PAKISTAN FORCES SHOULD QUIT FROM OCCUPIED KASHMIR

NEHRU'S DECLARATION IN PARLIAMENT

Prime Minister Nehru declared in the Lok Sabha yesterday that "all the talks of plebiscite" in Kashmir was "compeletely beside the point" until Pakistan had withdrawn its forces from Kashmir.

In a spirited speech Pandit Nehru categorically ruled out arbitration on Kashmir and said "Pakistan is out of court till it fills its part of the duty and gets out of that part of the Jammu and Kashmir State on which it has committed aggression".

Pandit Nehru declared 'Having had nine years of this Kashmir affair in all its changing phases, this problem which vitally affects our interests, how can I expect to agree to outside authority becoming an arbitrator in this country? No country can agree to this kind of disposal of a vital issue".

Speaking about U. S. Military aid to Pakistan the Prime Minister said that the Military aid and Pakistan's adherence to SEATO and the Baghdad Pact created not only a new military situation but a new pilitical situation and made the procedures thus far followed out of date.

The Prime Minister continuing stated that every consideration of the Kashmir problem must start from the uncontrovertial fact that Pakistan had launched an invasion on Kashmir in October 1947 which had been officially confirmed by the U N. Commission sent out to investigate the cause of the dispute. There was no doubt about this aggression by Pakistan resulting in widespread killing, destruction and loot It waa perfectly clear that there was not a shadow of justification for Pakistan to be there to commit this aggression.

The second fact to be remembered waw that legally and constitutionally Kashmir had acceded to India. Therefore it became the duty of the Indian Union to defend Kashmir from aggression and drive away the invaders. I would go a further and say that even Kashmir had not acceded to India, even then, it would have been our duty to defend it, India being a continuing entity."

The Prime Minister disclosed that he naturally consulted Mahatma Gandhi when they sent troops to Kashmir valley. Gandhi advised that in the circumstances it was the duty of India to go to the rescue of Kashmir, to go to the rescue of Kashmir with armed forces.

Giving details about the visit of the United Nations Commission, Prime Minister stated that Pakistan admitted that their forces were in Kashmir. Because of this admission of aggression the first demand of the U. N was the withdrawal of Pakistan forces from the areas occupibe by it. But today after eight and half years after that, the armed forces are still there.

Speaking about the U S Military aid, the Prime Minister said that the situation had become progressively worse because of the flow of military aid to Pakistan and the conclusion of the SEATO and the Bagadad pacts.

The Prime Minister later dealt with the Pakistan President accusing India of responsibility for all the recent border incidents, and said that while a large number of incidents had occurred, alleast in respect of 10, the U. N. Observers had said that Paksitan was the aggressor.

Finally Pandit Nehru observed that he referred to the Kashmir duspute at such great length because he wanted the Pakistan Government and the people of Pakistan to consider the basic details and realise that India meant no ill to Pakistan. "It will be absurd for us to do so because our prosperity is connected with their prosperity. We want to be friends with them and we want to settle all our problems in a friendly way I am sure we can settle them if only we have this friendly approach."

NEW INDUSTRIES FOR CITY

CITY COUNCIL'S REPRESENTION TO GOVT.

Mysore, 3

The adjourned meeting of the City Muncipal Council was held yesterday Sri A. Krishnamurthy Rao presiding.

The Council unanimously adopted the resolution to send a deputation to the Government, consisting of the President, the Commissioner and Sri S Linganna, and Sri B. K Ramakrishniah to impress on them the urgency of taking proper steps immediately to solve the mounting unemployment and to check the waning of the importance of the city, by establishing important industries, after preparing a list of industries to be located in Mysore.

Messrs M K.Lingiah Venkatalingiah, T. Narasimha Iyengar, Linganna and others spoke supporting the resolution and pointed out that the Government should give more prominence to the development of the city, In this connection Mr. Linganna pointed out that Government had purchased 20 acres of land at Yadavagiri, costing Rs. 2,90,400 from the Trust Board for establishing an industrial Estate.

President Sri Krishnamurthy Rao ruled out the the point of order raised by Shri B. K Ramakrishniah at the last meeting of the council on the resolution of Sri Chowdiah requsting the Government to direct the Banks not to advance loans on grains like paddy. ragi, jola and horsegram. He stated that the Council had wide scope to discuss this resolution as it was vitally concerned with the general public welfare.

The resolution as amended after discussion was passed unanimously requesting the State Government to recommend to the Centre to direct the Banks not to advance loans on grants like paddy, ragi, jola horsegram and ground nuts.

Several members explained how the merchants got loans from Banks on low interest and stocked the grains and made huge profits by selling them at high cost during off-season.

The Council next sanctioned the construction of a Radio Booth in Kyathamanahalli at a total cost of Rs. 3,357.

ARMS SUPPLY FROM SOVIET RUSSIA

Addressing a Press Conference yesterday Prime Minister Nehru disclosed that Government of India had been making inquiries from the Soviet Union on the possibility of purchase of arms, aircraft-civil and military and other allied things. They had been discussing this question since past two years with United Kingdom perticularly in respect of tanks and aircraft and added that they had now arrived at the stage of finalisation of their orders.

Clarifying India's position Nehru stated "So far as we are concerned we are not tied down to any country for purchaee of arms It is for India to decide whether, when and what to purchase according to her capacity and needs".

Mr. Nehru continued that India had developed her armies more or less on the lines of U K. and most of her armament had been obtained from that country, and others in the past. And it was truly convenient to continue the same policy. However, the question would be examined from time to time. Whatever they did, Pandit Nehru declared they did with the full knowledge and intimation to all concerned.

There was no hole-and-corner affair in the matter.

Answering number of questions, Prime Minister Nehru told that Indian Government had been discussing with Lord Montbatten for sometime past the question of aircraft carrier. He pointed out that every Air force had bombers and India had hers from the beginning. Its sole object was the defence of India's borders.

Describing the Bulganin-Khurushchev statement on Kabsmir as 'leagally constitutionally and practically completely correct,' he said that legally, Pakistan was the aggressor and therefore tha 'guilty party.'

Giving details about the invasion of Kashmir by Pakistan, Prime Minister Nehru said that in the beginning when the invasion took place there was no Indian army in Kashmir, not a soldier was there for many days after the invasion Srinagar was defended by the people of Srinagar, just by volunteers

Pandit Nehru said one could not forget eight years of history and all that had happened during this period. "We waited year after year for the issue to be settled with Pakistan because we wanted friendly relations with Pakistan But nothing happened. Things have changed. We must take into consideration the constitutional developments. We want above all happiness and freedom of the Kashmir people. We want good relations with Pakistan. That is more important than some strictly legal and constitutional interpretation".

"But if the law is thrust upon us, we have the law and the aggressor is the guilty party And the law is that Kashmir has acceded to and is a part of the Union of India".

Answering questions Mr. Nehru finally stated 'It is not that I am not willing to discuss this problem still further. But as a pratical man, I say this leads to a blind alley. We have, therefore to discuss from other point of view in regard to conditions that have arisen now and try to come to an agreement.'.

NEHRU CONDEMNS LINGUISTIC AGITATION

Prime Minister Nehru has condemned linguistic agitation as 'self-infliction of injuries' and warned that it would only result in further division and disunity ultimately affecting the very existence of the nation.

Addresing a huge gathering at Bijapur-on the first day of his 4-day Karnataka tour, Mr Nehru said "Remember we are all part of one body. If a single finger is hurt, the pain affects the entire body. India is the body and the States are its limbs"

Speaking about the S. R C. recommendations, Mr. Nehru said that many of the recommendations were not liked by him. He did not like the dissolution of Hyderbad State but when people wanted it, Government conceded to it.

'The Government will act to the wished of the people. It is people's Government and it is governed by the people, and the people could always persuade the Government to change its decision, only by peaceful means', he state.

Addressing a meeting at Gokak, Mr. Nehru said whatever may be the set up after reorganisation of States, India is one and everyone of you belong to Mother India. There can be no separatist tendency based on language or religion. That has been the cause of the downfall of Indians in the past and it had contributed to our weakness"

India was a peace-loving country and her only war was against poverty, unemployment and illiteracy, he said.

Appealing to women of India to throw their weight on reformation of society and on removal of evils of casteism and narrow orthodoxy, Prime Minister said "Casteism was the worst enemy of India and if it was not removed there could be no progress."

TREAT COMMONMAN WITH UTMOST RESPECT

NEHRU'S ADVISE TO HIGH OFFICIALS

Prime Minister Nehru has asked the high Government officers to adopt a democratic approach to their dealings with the common people. They must treat them with 'utmost respect and courtesy' he advised.

Officers, he said, often treat the common people with 'contempt and discourtesy.' They did so because they thought that in their present positions they were quite secure and they could afford to be 'discourteous' to the general public. Politicians on the other hand had some regard for these humble folks and did not treat them in the way in which officers did because they knew they had to go to these people for votes.

'I have never said no to an ordinary man who came to see me although I have refused several times to meet the high officials for want of time. Even the humblest of the humble are most welcome at my place" Mr. Nehru stated.

AMERICANS IGNORANT OF ASIAN SITUATION

Mr. Walter P. Reuther, the American labour leader said at Calcutta, that he did not believe that the American people had sufficient facts before them regarding the situation in Asian countries. If they had, they would unhesitatingly support India's stand on Goa, military aid to some countries and on alliances like the SEATO.

Americans were not very well informed regarding India's foreign policy. As far as he had been able to study, India was not a neutral country, but an independent country, which stood for non-alignment. 'But India is always on the side of moral justice", he said.

Speaking about military aids, Mr. Reuther said that in Asia, where people were fighting an economic battle against hunger and poverty, military aids and pacts were meaningless.

HINDU-MUSLIM UNITY URGED

Congress President U N. Dhebar replying to an address presented by the Muslims at Surat depricated the move by some persons in Malabar and Travancore-Cochin to restart the Muslim League in the Country.

Mr. Dhebar said that Indo-Pakistan relations were now deteriorating and at this time it was necessary for bringing about a greater understanding between Hindus and Muslims. 'we should mix together much more, understand each other and remain together. If we cannot co-exist here we cannot ask other nations to follow our suggestions of co-existence,' he said.

Nehru Condemns Hinduraj Cry

Prime Minister Nehru has condemned the Hindu Mahasabha for 'its attempts to revive a mentality which in the past had caused ruination of the country.'

Addressing a crowded public meeting at Hubli, he strongly depricated the cry for the establishment of Hindu Rashtra and said that he was disgusted with the mentality of 'Hindu communalists.'

"The cry for Hindu Rashtra is out-of date. What they are crying for today is to take back the country to strife, misery and slavery. We had blamed the Muslim League for communalism. Now the League is finished in India. But then we have instead the Hindu Mahasabha," he said.

The Prime Minister stated that the attempt to revive the 'poison' of religious domination through establishment of Hindu Rashtra was against the interests of the country. It was all the more to be condemned in the present conditions when unity was the most essential factor in the economic building of the country, he said.

REUTHER PLEADS FOR MORE U. S. ECONOMIC AID

Mysore, 11

"There is a great deal in common between India and America. Both have struggled against colonialism and won freedom. Both of them want to free people from foreign domination', observed Mr. Walter P. Reuther, American Labour Leader.

The I. N. T U. C. unions in the City held yesterday a reception at Dasaprakash in honour of the Labour Leader. Sri B. Balaiah, on behalf of the I. N. T. U. C. welcomed the guest.

Mr. Reuther in the course of his reply stated that the majority of people in America supported India's freedom struggle and celebrated India's Independence in 1947, and now they supported India's stand on Goa being free from Portuguese domination.

India and America, he said had given two moral giants, Mahatama Gandhi and Mr. Lincoln, who had dedicated their lives for the happiness of the mankind. The world needed a re-dedication to their ideals, he observed.

America, wanted a just and lasting peace and the present fear and uncertainty in the world could be lessened by better understanding between India and America, he said.

Speaking about the American military aid Mr. Reuther said that America instead of giving military aid,should concentrate more and more on economic aid to other countries. Here he pointed out that instead of using science and technology for producing H-bombs, they could be used for peaceful purposes and improve the economic condition of the people.

Mr. Reuther appealed to Indian labour to build strong unions, as they were the great instruments for social and economic development of the country.

CENTRE FOR NATIONALISATION OF GOLD MINES

Union Minister for Natural Resources, Sri K. D Malaviya stated in Parliament that the Central Government had no objection to any State Government nationalising their gold mines and they would be prepared to help States in their projects.

As regards the taking over Kolar Gold Mines he stated that a decision would be arrived at soon.

REPLIES TO DEBATE IN ENGLISH

Speaker Ananthasayanam Ayyangar has urged Ministers to speak in the Parliament in English instead of Hindi until other members also switched on to Hindi.

The Speaker said that members might put questions in Hindi, answers might be given in Hindi by Ministers. But replies to debates were speeches in which policy was laid down by the Government and it was essential that all members should be able to understand the policy-speech.

As. 4 FOR A POT OF WATER

Several areas in Kolar district are experiencing acute water scarcity, it is stated. In many taluk headquarters the hours of water supply have been reduced by 50 per cent. In the interior parts of the district people are purchasing water by paying two to four annas per pot and in some places people have to wander over miles to get a pot of water.

CONGRESS PREPARATIONS FOR GENERAL ELECTIONS

The Central Election Committee of the Congress is said to be very busy in tackling various problems connected with the ensuing General Elections. It has already taken steps of laying down qualifications for Congress candidates and the broad procedure for their choice. The High Command is laying great stress on the quality of future Congress legislators. The test of qualification sought to be applied in strict manner. Among the qualifications set down by the Election Committee are 'past record of work, social outlook particularly relating to untouchability, land reforms, labour welfare and econmic justice,' and contact with constituencies in the case of sitting legislators.

A conference of State Tuberculosis Associations and other representatives will be held on April 20, to consider ways and means of improving the T. B Seal Sale Campaigns and other questions relating to the expanding of anti-tuberculosis work in the States.

INTEGRATION OF SERVICES

The Central Government have issued instructions to State Governments not to take any action in connection with the creation of temporary or permanent posts or revision of scales of pay, which might have the effect of complicating the problem relating to the integration of servrces, which the new States would be called upon to tackle.

Preserve Nation's Unity

Congratulating the people of Karnataka on their achievement of a linguistic State. Prime Minister Nehru asked the people not to think of their State alone but to keep the unity of the nation in their mind. They should not think of Karnataka first and India second, he said.

Addressing a public meeting at Shimoga yesterday Mr. Nehru said that the nation had achieved its independece and now the task before the country was to attain economic and social independence which was a bigger task than getting political freedom.

Speaking about the reorganisation of States, the Prime Minister said that provincial feelings should not come in the way of maintaining integrity and solidarity of the country. "We cannot attain our desired end due to communal feelings," stated Mr. Nehru.

WRIT PETITION DISMISSED

Bangalore, 11

The writ petition filed on behalf of Mr. H. M. Chennabasappa, Industries Minister, praying for the issue of a writ quashing the order of the Election Tribunal which invalidated his election to the Assembly, wasdismissed yesterday at the Mysore High Court. Since the counsel for the petitioner submitted to the Court that he was not pressing the petition and sought permission to withdraw, Mr. Justice K. M. Padmanabhiah, dismissed the petition as desired.

STEPS TO IMPROVE STANDARD OF UNIVERSITY EDUCATION

Union Education Minister Maulana Azad stated in Parliament that the State Education Ministers had been asked to modify rules regarding the appointment of Vice-Chancellors of Universities to conform generally to the procedure followed in the Delhi University, where the Executive Council appointed two members and the Visitor nominated one to form a SelectionCommittee which recommended a panel of not less than three names to the Visitor for the appointment of Vice-Chancellor. This was meant to avoid the evils of electioneering and canvassing in filling up this crucial post.

Speaking about various important steps taken for the improvement of the standard of University Education, the Minister said that the Central Government besides setting University Grants Commission to look after the financial needs of Universities and maintenance of proper standard of education, had appointed a Secondary Education Commission to review the problems of secondary education in the Country.

Besides financing for the teachers' grades and salaries in the Universities, measures were being taken for improving the pupil-teacher ratio and introducing tutorial work. The State Governments had also been impressed the need for reform in the system of examinations with a view to laying more emphasis on regular work throughout the year. For expansion of students'energies Inter-UniversityYouth festivals excursions and hike, labour social service games were being encouraged.

A Model Village

Seventeen miles from Patna is a village consisting of 25 families with a population of 275. The people in the village neither drink nor smoke. Dowry at the marriages is forbidden. Anyone who bargains over boy's marriage runs the risk of being an outcast.

Another feature is that all male members of the community are literate. The whole population are living like members of a joint family. Though agriculture is the mainstay, they are taking on trades and handicrafts. Dairy industry is at its peak in the community. The only oil used by them is mustard oil while pure ghee is the cooking medium.

AID TO SMALL INDUSTRIES

The Union Government hoped to give about Rs. 20 crores to the State Governments for providing financial assistance to small industries during the Second Five Year Plan period. Kashmir Demarcation On Cease-Fire Line

Prime Minister Nehru disclosed that he had gone to the extent of suggesting to the Pakistani leaders to hold mutual discussions to settle the Kashmir problem by demarcating the borders of the State on the basis of the present cease-fire line.

Addressing a mammoth meeting at Delhi, Pandit Nehru declared 'We shall not accept any step which seeks to create in the slightest manner any upheaval in Kashmir.'

Devoting a mojor portion of his 100-minutes speech on Kashmir, the Prime Minister said "I told the Pakistani leaders clearly: I think that, that you have committed a lot of excesses and zoolum in Kashmir You have no right to sit on a part of Kashmir that is under you. But since my desire is only that there should be no clash and upheaval I am willing to accept that the question of the part of Kashmir which is under you should be settled by demarcating the border on the basis of the present cease fire line. We have no desire to take it by fighting'. Some days later there was a sudden outburst of fury and emotion in Pakistan.

Mr. Nehru said that during the last three or four years, the Government had changed in Pakistan many times. There had been no stability about it It was therefore very necessary to be very vigilant lest India should be entangled into any kind of war not as a result of deliberate attempt by Pakistan but by a mere chance.

Tracing the background of the Kashmir problem and the change over for the past nine years, he said that now many things had happened. The most special thing was the U.S. military aid to Pakistan. The entire face of the problem has been changed from it. 'I agree that it is not the intention of the U. S. A that U. S. military aid to Pakistan should be used against India But the fact is that this aid increased the strength of Pakistan to attack India. If now something is done which upsets all that had been achieved in Kashmir, it will be a dangerous thing, dengerous thing for Kashmir, dangerous for India and dangerous for Pakistan, because it will bring in its train a calamity on India and Pakistan. This would spell ruination', he said.

MORE NON-COMMUNAL HOSTELS

Bangalore, 16

" There is considerable difference between the new society of today which we are trying to build up and the society in existence based on castes and creeds. Hence modern youth should develop the mental attitude towards the new society in the making ", said Sri H. Siddaveerappa, Home Minister, laying the foundation stone of a " Sarvajanika Vidyarthi Nilaya" at Somanahalli on Saturday last.

Today there were in the State 112 communal hostels. To that extent, they had relieved the burden that lay on the Government and the public, in matter affording relief, he stated.

M: Siddaveerappa declared that in future, Government would not aid purely communal hostels. At present communal hostels admitting at lest 40 per cent of students of other communities were given grant-in-aid.

The object of non-communal hostels was to help students to prosecute their studies in an atmosphere free from any communal bias. For this purpose, Government had provided Rs.5 lakhs in 56-57 budget He hoped that the public would as usual come forward in large numbers for this philanthropic purpose.

PAKISTAN REJECTS COMPENSATION

Pakistan has turned down India's demand for compensation for the loss of Indian life in the Nekowal Incident of last year, it is stated.

HEAVY INDUSTRIES TO PROTECT FREEDOM

Prime Minister Nehru said at Delhi that a country should have its own heavy industries to ensure proper protection to its freedom.

Inaugurating the Annual conference of the All India Manufacturers' Organisation, the Prime Minister said that perhaps formerly the idea of industrialisation was to imcrease the output of consumer goods. But the idea now was that in order to have industrialisation, country should have heavy, basic, mother industries. There was no other way to industrialise the country, he added.

Mr. Nehru said 'we must start with the production of iron and steel on a large scale. We must start with the production of machines which make machines. These are basic things. If we do not have them, you are dependent on others. Once you get these basic things, you grow as rapidly as you like, depending on your own energy. you are not bound by any external factor You start a process of self growth. 'No country which has to rely on other countries for essential articles can be fully independent today.'

NO BRITISH TITLES FOR CEYLONESE

WORLD IN THE HANDS OF TECHNICIANS

Inaugurating a two-day conference of University Planning Forums at Delhi, on Saturday last, Prime Minister Nehru said the future of the world was in the hands of the technicians and engineers and not administrators and politicians. A time would come when an administrator would also have to become a spacialist or a technician, he observed.

Speaking about the future progress of India, Mr. Nehru said that progress of India ultimately would depend upon the work that they were doing in their National Laboratories He regretted that while the world was making rapid advance in technology, India's thinking and outlook technologically continued to be static.

MORE TAXATION TO IMPLEMENT 2nd PLAN

Union Finance Minister Mr Deshmukh stated yesterday that the difficulties in the execution of the Second Plan would be acute in the second and third years of the plan and additional sources of revenue had to be found.

The first year of the plan was seeing the reorganisation of the States. The location under the public sector had to be raised from the present Rs 4,800 crores by another Rs. 300 or Rs 400 crores on account of the demand by 'Ambar Charkha', the Railway and the Defence. The extent of foreign aid might in all probability fall short of expectation. So the Centre would have to raise Rs 50 crores by way of new taxation every year. This was in addition to to the monies that the States would have to raise.

He therefore cautioned that the present standard of consumption of some classes might have to be lowered

MAJOR CHANGES IN CONSTITUTION

ABOLITION OF RAJAPRAMUKHS

AMENDMENT BILL PRESENTED IN PARLIAMENT

Home Minister Sri G. B. Pant introduced yesterday in the Lok Sabha the Constitution Bill seeking to amend the Constitution as a consequence to the proposed reorganisation of States.

With the abolition of the Part 'B' States, the Bill seeks to do away with the institution of Rajapramukhs. It also seeks to do away with the present classification of States and enumerate the 15 States and seven Union territories.

Among other things, the Bill seeks to amend the provisions dealing with High Court and High Court Judges, the executive power of the Union and the States and some of the entries in the Legislative Lists.

The Bill further seeks to amend the schedule to revise the allocation of seats in the Council of States, House of the People and the State Legislatures.

Article 153 of the Constitution is proposed to be amended to enable the appointment of a common Governor for two or more States. Provision for the constitution of an Upper House for M.P. has also been made.

It has been proposed to fix the maximum strength of the Upper Houses in the State Legislatures to one third of the strength of the Assembly instead of one fourth as at present.

The new Mysore State will be represented in the House of the People by 26 members and in the Council of State by 12. The State Assembly will have a membership of 182. The provision relating to High Courts, are to be amended permitting retired High Court Judge to practise before the Supreme Court and any High Court other than the one in which he was a permanent Judge.

Art. 224 is proposed to be modified so that the President might appoint any duly qualified person as a temporary judge, when the permanent judge is absent. The provisions relating to the extension of jurisdiction ot a High Court are to be amended so as to enable establishment of common High Courts for two or more States.

The Second Schedule of the Constitution dealing with salaries of High Court Judges is to be provided for lower salaries for the Chief Justices and Judges of High Courts of Mysore, Kerala and Rajasthan.

Part 7 of the Constitution dealing with part 'B' States is also being replaced, along with Part 8 relating to part 'C' States, with new provisions in Part 8 pertaining to administration of the proposed Union Territory. It provides the setting up of a Council of Advisers to theChiefCommissioners who will administer the Union territories on behalf of the President,

Art. 258-A, is proposed to be so altered as to empower the Governor of a State to delegate to the Union Government or its officers, Executive functions of the State. At present, the Union can delegate to any State Government or its officers Union Executive function.

A new Article is proposed to be incorporated by which States and Local authorities would be obliged to provide adequate facilities for instruction in the mother tongue at the primary stage of education to children of linguistic minorities, as recommended by the S.R.C.

NO U.K. BASES IN CEYLON

Ceylon's new Prime Minister Mr. S. W. R. D. Bandaranaike said that he had made up his mind that British forces based on Ceylon would 'have to go'.

'Having foreign bases on another soil is not at all consistent with our sovereignty as a nation. It is against my line of thinking of making Ceylon the Switzerland of Asia. Also it would make us one of the first targets if war should break out'. he observed. (Britain has a navel base and two R. A. F. bases in Ceylon.)

CHANNABASAPPA'S RESIGNATION ACCEPTED

Bangalore, 20

Industries Minister Sri H. M. Channabasappa laid down his office as Minister yesterday.

A Gazette Extraordinary stated late in the night that His Highness the Rajpramukh had accepted the resignation tendered by Sri. Channabasappa.

Sri. Channabasappa had tendered his resignation to the Chief Minister following the judgement of the State Election Tribunal declaring his election to the State Assembly as wholly void.

Sri. Channabasappa received a communication from the Chief Minister from Delhi endorsing the decision of the Minister to resign and seek re-election, yesterday.

Sri. Channabasappa disclosed that Mr.Hanumanthaiya had written to him that even Prime Minister Nehru had appreciated his stand to resign and seek re-election.

Speaking to pressmen yesterday Sri. Channabasappa said that the judgement of the Tribunal would come into effect only after it was published in the Government of India Gazette. According to the Constitutional position, the Minister contended that he being unseated from the Assembly did not mean he being unseated from the Ministership also. But "whatever may be the legal position," the Minister observed 'my first reaction was to resign and seek re-election." He did not give immediate effect to his decision as the Assembly was in session and he did not want to create embarassment at that time. Immediately the Assembly Session was over he tendered his resignation.

Sri. Channabasappa asserted that "at least to vindicate myself and my constituency, I should stand for re-election", though his immediate "inner feeling" was that he should retire from politics. After proving the confidence of his Constituency in him, he would be free to take any decision. If he was rejected in the election even then it would be blessing to him in one way, he could return to farming

NATIONALISATION OF K.G.F. MINES

The talks over the nationalistion of Kolar Gold Mines ended yesterday at New Delhi between the representatives of the Mysore Government, Central Ministry of Natural Resources and the mining authorities. Further talks, it is stated, would be resumed at Bangalore shortly between the State Government and the mining interests.

The Home Minister of Mysore, Sri Siddaveerappa who led the delegation to Delhi left for Bangalore yesterday. The other members are expected to arrive this weekend.

TRANSFER OF PORTFOLIO

Bangalore, 20

Following the resignation of Mr. H. M. Channabasappa, the portfolio held by him has been transferred to the Home Minister Mr.H. Siddaveerappa.

The Government of India it is stated are not against nationalisation of the Gold Mines.

An agreement is likely to be reached between the State Government and the management of the Gold Mines whereby the present British concern may assist the Mysore Government in operating the Mines for another five or seven years.

MOVE TO POSTPONE GENERAL ELECTIONS

A move to postpone the ensuing general elections by a year, is said to be afoot by a section of the Congress Party in Delhi.

This postponement is said to be necessary in the interest of maintaining the Party unity and regaining the lost ground on account of the recent feuds in the ranks.

But many in the Congress Party seem to be not in favour of postponement as holding elections to the likes and dislikes of political parties would be unfair.

The Prime Minister, it is well known, is bent upon holding the elections as scheduled. How far the postpone enthusiasts would be able to persuade the Prime Minister is a matter to be seen.

NEHRU REPUDIATES CRITICISM

Repudiating the criticisms levelled on the Union Health Ministry, particularly against the Health Minister Rajkumari Amrit Kaur, Prime Minister Nehru said yesterday that he was certainly not against criticisms and in fact he welcomed it. But, criticism in this case, he said, was without justification when the Ministry had rendered most valuable services and had won even the approbation of the International organisation like the W. H. O.

He pointed out that in an age when modern surgery had made vast strides, there was no point is harping on old systems, like Unani and Ayurveda, which were good enough from the preventive aspect. It could not be argued that old systems could achieve what highly advanced modern systems had done.

CENTRE APPROVES NATIONALISATION OF GOLD MINES

Rs. 80 LAKHS OFFERED AS COMPENSATION BY STATE GOVERNMENT

Bangalore, 23

Home Minister Sri Siddaveerappa, who returned yesterday to Bangalore after attending the talks at Delhi over the nationalisation of Gold Mines at Kolar, revealed that the Central Government had given their official approval to the State taking over management of the Mines.

Speaking to pressmen the Minister said that the basis of further talks of the State Government with the mining company would be decided by the Cabinet early next month after the Chief Minister returned to Bangalore from his holiday.

The Mysore Government, it is stated, has offered a compensation of Rs. 80 lakhs to the Kolar Gold Mining Company for nationalisation of the mines. The Company it is learnt originally demanded Rs. 6 crures and later reduced the quantum of compensation to Rs. 2 crores.

The Union Government, is said to have advised the State Chief Minister Sri K. Hanumanthaiya to pay not only 'fair compensation to the Company, but also to create the impression that the Government want to be fair. In view of the shortage of financial resources in India, for development work, the Union Government want to attract foreign investment and do not want to do anything which will act as a discouraging factor'

The working of the area at present offers considerable difficulties in safe mining due to frequent rockbursts and heat. There is no definite information regarding the reserve of gold per ton of ore which has gone down in comparison to what was obtained more than fifty years ago.

NATIONAL T. B. SURVEY

It was expected that the B. C. G. Vaccination Campaign in India would cover the entire susceptible population of the country by the end of the Second Plan period and bring down very appreciably tuberculosis mortality, stated Lt-Col. C. K. Lakshmanan, Director-General, Health Services Government of India at Delhi.

The Government of India, he said, in cooperation with the Indian Council of Medical Research had undertaken a National T. B. Survey Scheme, the results of which were expected to be available by the end of this year.

Speaking on the occasion the Union Health Minister, Rajkumari Amrit Kaur, pleaded that in planning the anti-tuberculosis campaign in the country there should be a harmonious blending of both preventive and curative measures. For this purpose, she said, we had to educate both the administrators and the public.

NEW INDUSTRIES IN KARNATAKA

ATOMIC ENERGY FOR PRODUCTIVE PURPOSES

Prime Minister Nehru stated that India stood for peace and was therefore against war. If peace was disturbed, the progress and development for which India was striving would be seriously jeopardised.

Prime Minister Nehru was addressing a mammoth gathering at Patna on the question of vital importance before the world today namely whether atomic energy should be harnessed for the benefit of humanity or for destructive purposes

Mr Nehru continued that it was an atomic age and mankind must decide sooner than later what it should do with this revolutionary weapon, which had even changed the concepts of revolution itself. He felt that atomic energy should be used for productive and constructive purposes, for the betterment of mankind

Though India was far behind the Western countries in this respect, yet she was spending large sums trying to keep pace with them. He hoped that it would be possible for India to use atomic energy for peaceful purposes in a few years' time

FEAR OF CTOTH FAMINE

The Chairman of the Mill Owners Association, Bombay Mr. Somani has stated that the contemplated expenditure of Rs. 100 crores on the Ambar Charka and of Rs.80 crores on handloom by way of subsidies or otherwise 'may ultimately turn out to be a colossal waste.'

Speaking at Bombay, he said, the Ambar Charka and the handloom will not be able to achieve the targets assigned to them, while the productivity efficient mill sector is prevented by artificial curbs from expanding its production to meet the increased demands during the plan period. If the present market trends are any guide, the emergence of a cloth famine in the country in the near future cannot be ruled out, as the available production will be grossly inadequate to meet the greatly increasing demand, he said.

PRESIDENT URGES IMPORTANCE TO AYURVEDA

President Rajendra Prasad has called upon scientists to give due importance to Ayurveda as he felt that it was no use giving up the ancient science because people even today derived more benefit from the ancient treatment than from the modern Hospitals.

The President laying the foundation stone of a Medical College at Kanpur felt that the modern treatment was too expensive for the average poor man because of a number of tests which he had to undergo to arrive at the right diagnosis. Foreign medicines were also very costly. It was for these reasons that the President urged upon the scientists to devote sometime and find out whether old system of medical treatment could prove of any use or not.

He called upon the scienists not to look with contempt at the ancient system of treatment. He wanted to consider the question from research point of view. To characterise it as unscientific without proper research was itself 'unscientific characrerisation', he observed.

REGISTRATION OF MEDICAL PRACTITIONERS

The Committee appointed by the Central Council of Health to study the question of formulating uniform standards in respect of education and regulation of practice of vaidyas, hakims and homoeopaths, has recommended an amendment to the Medical Degree Act so that the use of bogus degrees in Ayurveda, Unani and Homaeopathy could be prohibited.

SOIL CONSERVATION MEASURES

Sri V. T. Krishnamachari stated at Delhi yesterday that a provision of Rs. 26.83 crores had been made for soil conservation measures under the Second Five Year Plan. This large amount-Rs. 4 crores at the Centre and the rest in the States-afforded a measure of the importance that the Government of India attached to the programme in the national interests.

The Deputy Chairman of the Planning Commission was inaugurating a two-day conference of State Ministers of Soil conservation convened by the Union Ministry of Food and Agriculture.

Dr. Punjab Rao Deshmukh, Union Agriculture Minister, who presided over the conference said that it would be impossible for them to maintain the very satisfactory food position attained during the first Five-Year Plan period unless effective measures were taken to plan and execute soil conservation-measures on a country-wide scale quickly and efficiently.

SET UP STUDENTS' COMMITTEES AND NEWSPAPER CLUBS

SEMINAR'S RECOMMENDATIONS

Mysore, 27

With a view to encourage democratic practice among students and make them feel that they are part of the School and also to create better atmosphere of discipline in the school the Seminar of Headmasters has recommeded that in organising school unions and all other school activities, active cooperation of the students should be sought and they should be entrusted with considerable degree of responsibility and intiative.

Under the auspices of the Teachers' Training College, a seminar on Internal Organisation of High schools in Mysore was held from April 16 to 25. It was attended by more than 40 Headmasters and assistants from all over the State.

The seminar considered a series of problems and made several recommendations.

As already reported in the these columns, the Seminar felt that in addition to curricular activities more co-curricular activites and social service that the teacher is expected to render should be considered.

Among other important recommendations made are: physical education to become part of regular time-table and the last two periods of school time each day to be devoted to co-curricular activities; to set up students' committees and newspaper clubs for maintenance of libraries; to organise staff councils so that there might be more contacts between the Headmaster and the staff and to control and supervise private tuition work by teachers. Here the Seminar suggested that a teacher should not engage himself in private tuition for more than twelve hours a week nor to coach more than six students in private.

It further recommended that the work of collection of fees should not form part of teacher's duties; and that the sports and reading room fees be enhanced from Rs. 1-8 to Rs. 2.

Introduction Of Basic Education

Basic education is not only a more practical but also more scientific method of education as compared with the existing bookish or class-room education. The basic method of teaching is woven round the creative and productive activities of the child, observed Sri Sriman Narayan, General Secretary of the Congress in an article on Basic Education.

Mr. Narayan has stated:

Basic education is not merely a new method of teaching. It is indeed a new way of life. Basic education centres round the crafts, physical enviornment and social environment. In fact it is correlated to the whole of life.

Experiments made so far in different schools in India indicate that about 50 per cent of the recurring expenditure in a Basic School can be met out of the articles produced by the students. This is surely no small gain provided that no attempt is made to sacrifice good teaching only for enabling school children to produce goods like factory labour. Productivity, according to Gandhiji is the acid test of a good teacher.

Basic education is not more costly than ordinary education. If we try to erect separate workshops and big school buildings for Basic Schools, they would be surely more costly than ordinary type of elementary schools. Any good education is bound to be costlier than the present type of routine education. Basic education is not only good but also comparatively cheap. The intial investment in workshops is not very necessary.

Basic education should not be treated as a fad of Gandhiji and other Sarvodaya workers. It is absolutely necessary to introduce Basic Education throughout the country. Basic Education alone would bring about a real and lasting co-ordination between the educational system and the large schemes of economic and industrial development.

We require a host of teachers who can shoulder the responsibility to our basic schools. The new method of teaching requires a new type of teachers in the country. So great importance shoutd be attached to schemes for training of Basic Education teachers.

The nation appeals to the citizens of the country to join the teaching profession and help India to make India's Basic Education an unqualified success.

ERADICATION OF IMMORAL TRAFFIC IN WOMEN URGED

Mysore, 1

The City Municipal Council which met yesterday, passed unanimously a resolution urging the Government to take suitable measures to eradicate prostitution in the city and to wean away the victims of the profession to help them to become decent citizens.

Mr. A. Krishnamurthy Rao was in the chair.

Moving the resolution, Dr. B. G. Das suggested that those engaged in the profession should be taken for work in various small-scale industries and given a living wage.

Answering an Interpellation, tabled by Sri Srikanta Sarma the President stated that the Vani Vilas Water Works had asked the Municipality to fix up meters to all the houses having water connection. He added that the Municipality required 3, 000 meters; but they had received only 300 meters and these were being fixed up.

Replying to an Interpellation of Mr. Narayana Rao, the President stated that there were in the city 39 advertisement boards erected by the Municipality of which only four boards were taken up by the public, bringing a revenue of Rs. 17-8 per month. He added that some of them were being used unauthorisedly and the Municipality would take-suitable action.

The President replying to Mr. M. N. Thimmiah stated that they had received a complaint from a Municipal councillor that the previous Manager of the Sewage Farm was alleged to have removed some Municipal properties from the Farm and that it was under investigation.

The Council also passed a resolution for changing the name of " De " road behind the Central Police Station into Gita Mandir Road.

The Council rejected the resolution tabled by Mr. Narayana Rao requesting Government to extend facilities to students for free education up to the completion of S. S. L. C. standard instead of the L. S. as at present.

While recording the various monthly statements, several Councillors criticised the policy in the matter of leasing out Municipal shops; that the nuisance by stray cattle was increasing as also the slaughter of cows in the city. The President stated that it was the responsiblity of the Police to prevent cow slaughter.

The Council then adjourned to May 7.

Introduction Of Basic Education

Basic education is not only a more practical but also more scientific method of education as compared with the existing bookish or class-room education. The basic method of teaching is woven round the creative and productive activities of the child, observed Sri Sriman Narayan,General Secretary of the Congress in an article on Basic Education.

Mr. Narayan has stated:

Basic education is not merely a new method of teaching. It is indeed a new way of life. Basic education centres round the crafts, physical enviornment and social environment. In fact it is correlated to the whole of life.

Experiments made so far in different schools in India indicate that about 50 per cent of the recurring expenditure in a Basic School can be met out of the articles produced by the students. This is surely no small gain provided that no attempt is made to sacrifice good teaching only for enabling school children to produce goods like factory labour. Productivity, according to Gandhiji is the acid test of a good teacher.

Basic education is not more costly than ordinary education. If we try to erect separate workshops and big school buildings for Basic Schools, they would be surely more costly than ordinary type of elementary schools. Any good education is bound to be costlier than the present type of routine education. Basic education is not only good but also comparatively cheap. The intial investment in workshops is not very necessary.

Basic education should not be treated as a fad of Gandhiji and other Sarvodaya workers. It is absolutely necessary to introduce Basic Education throughout the country. Basic Education alone would bring about a real and lasting co-ordination between the educational system and the large schemes of economic and industrial development.

We require a host of teachers who can shoulder the responsibility to our basic schools. The new method of teaching requires a new type of teachers in the country. So great importance shoutd be attached to schemes for training of Basic Education teachers.

The nation appeals to the citizens of the country to join the teaching profession and help India to make India's Basic Education an unqualified success.

SECOND PLAN OUTLAY TO BE RAISED

ENCOURAGEMENT TO CO-OPERATIVES

CENTRE'S NEW INDUSTRIAL POLICY

ANNOUNCEMENT IN PARLIAMENT

Prime Minister Nehru announcing in Lok Sabha Government of India's new industrial policy said that theState would progressively assume a predominent and direct responsibility for setting up new industrial undertakings and for development of transport facilities.

As an agency for planned national development in the context of the country's expanding economy, the private sector would have oppportunity to develop and expand, he added.

The industries have been divided into three categories-first, industres the future development of which would be exclusively the responsibility of the State; secondly industries which would progressively be State-owned in which private enterprise would also be expected to supplement the efforts of the State and thirdly all the remaining industries whose future development would be left to private sector.

In the first category are listed arms and ammunition and allied items of defence, iron and steel, mining, heavy electrical plants, atomic energy aircraft, ship building, railway, transport, telegraph and telephone cables.

The second category includes non-ferrous metals, Chemical Industries. fertilisers, road transport and sea trans port.

It has been decided that industrial co-operatives should be encouraged in every way.

As regards the role of labour, it was stated that in a Socialist democracy, labour was a partner in the common task of development and should participate in it with enthusiasm. Workers and technicians should, wherever possible, be associated in management progressively.

Speaking on the new Industrial policy, Union Commerce Minister Sri T. T. Krishnamachari stated that the items included in the list had been so carefully chosen that the Government might acquire a certain key position in those industries in time to come, may be five or 10 years.

The Minister here announced that the State Trading Corporation would soon take over the import and distribution of cement.

BANK REFUSED LICENCE

MORE TAXES TO FINANCE SECOND PLAN

MYSORE TO RAISE RS. 5 CRORES BY MORE TAXATION

More Central taxes and an increase in the present rates and improvement in the coverage of many existing taxes are envisaged in the Planning Commission's final report on the Second Plan

These are designed to achieve the twin-purposes of mobilising the resources for the proposed outlay of Rs 4800 crores in the public sector and reducing inequalities in income and wealth in consonance with the goal of a Socialist society.

Among the new measures proposed for examination are a tax on wealth, the levy of gift tax to supplement estate duty and an expenditure tax so as to cover the capital gains which now escape income-tax. The enforcement of a ceiling on incomes is however, ruled out.

The report gives a State-wide as will as item wide breakdown of 50 percent of the present additional taxation target of Rs. 450 crores which the State Governments are expected to raise.

Mysore State is expected to raise a sum of Rs. 5 crores through additional taxation over the plan period. The other States in all are expected to raise nearly Rs. 211 crores.

Of the sources from which the State Governments are expected to raise these additional revenues, sales-tax occupies the first place (Rs. 112 crores) and land revenue comes second (Rs. 37 crores).

The other heads of additional taxation are agricultural taxation, betterment levy, electricity duty, motor vehicle tax, stamp duties and court fees and local property taxes.

PROHIBITION BY STAGES

The Planning Commission in its report on Second Plan has favoured a phased programme of prohibition. It is not in favour of the Prohibition Enquiry Committee's suggestion that by April 1958, prohibition should be enforced throughout the country. The Commission has suggested several steps that the State Governments may follow. Among them are: discontinuance of advertisements and public inducements relating to drinking, stoppage of drinking in public premises and at public receptions, reducing the number of liquor shops in rural and urban areas, closing liquor shops for an increasing number of days during the week, reducing quantities supplied to liquor shops, closing shops in and near specified industrial areas, removal of shops to places away from main streets and living quarters and taking steps to production of cheap and healthly soft drinks.

In pursuance of these suggestions the State Governments have been requested to evolve phased programmes and draw up a time limit for full enforcement of prohibition.

LAND REFORMS TO COST Rs. 435 CRORES

The total amount of compensation and re-habilitation allowance payable to intermediaries as a result of introduction of land reforms in the country is estimated at Rs. 435 crores excluding interest charges said the report of the Planning Commission on the final draft of the Second plan. Uttar Pradesh and Bihar together accounts 70% of the total amount of the compensation. The rate of compensation has been fixed as a multiple of net income of intermediaries from their estates. In most States higher multiples were allowed to persons in lower income groups. Compensation is payable sometimes in cash but generally in the form of bonds which are transferrable and negotiable and are redeemable over a period varying from ten to 40 years. It is proposed that during the Second plan ceilings on existing holdings should be implemented throughout the country. The ceiling it is suggested, may be placed at three family holdings. A family holding being defined as the area of land which yeilds a net annual income of Rs. 1200 and is not less than a plough unit. Where the members of a family are more than five the ceiling may be extended to a maximum of six family holdings, Each State may determine the basis on which the size of the family should be allowed for in the application of the ceiling. Areas in excess of the ceiling should be acquired by the State Governments on payment of compensation at the rates to be determined, said the report

PRY. EDUCATION AT AGE OF FIVE

Mysore, 4

The Regional Seminar of Headmasters and Educational officers in its session yester day decided that the age of admission to the first year primary course should be five plus, in view of the educability of the students at that age and smaller expectation of life in a hot country like India.

The Seminar has advocated a eight-year primary course followed by a four-year Secondary course. It has emphatically opined that even if the All India pattern of eleven year of education were to be adopted, the duration of High school course should be not less than four years.

BOOK INDUSTRY COUNCIL

The Southern Languages Book Trust has decided to establish a Book Trust Industry Council for South India.

The plan envisages establishment of a number of regional depots with show-rooms where member publishers could display a copy of each book published by them. The Trust has also proposed to bring out during the first year 80 'pocket book' publications in the four South Indian Languages. A Seminar is proposed to be held in September or October to deal with problems connected with Book Industry.

ANCIENT CITY SITE FOUND

A very ancient city site, more than 2000 years old, has been discovered at Chandraketur Garh, 23 miles north-east of Calcutta.

Cut In U.S. Aid

INDIA NOT WORRIED

Prof. P. C. Mahalanobis, Statistical Adviser to the Indian Planning Commission stated at New York that India considered her economy strong enough not to be unduly concerned about any possible reduction in the U. S. aid to India.

Getting overwhelming aid from one block was not, however, very desirable. The Soviet Union seemed to be in a position to give India more capital goods than she could presently absorb, he added.

SALES TAX TO BE DOUBLED

With a view to reduce the dangers of possible serious inflationary situation during the Second Plan period in the country the Planning Commission has suggested to step up taxation from the proposed Rs. 450 crores to 850 crores.

The Commission pointed out that since the various demands of the Welfare State had to be met, deepening and widening of tax structure was imperative at Central and State levels.

Consequently existing sales tax on cartain articles was to be raised while many other commodities were to be subjected to taxation; as the States were to raise additional sum of Rs. 225 crores out of which Rs. 112 crores by sales tax.

To enable the Centre and States to implement successfully the Second plan, it was necessary to have a substantial increase in the tax resources over a period, the Planning Commission stated

ADDITION TO UNION LIST OF TAXES

Mr. M. C. Shah, Union Minister for Revenue and Civil Expenditure introduced in Parliament yesterday the Constitution (Tenth Amendment) Bill seeking to include taxes on Inter-State sales and purchases in the Union list, thus giving effect to the recommendation of the Taxation Enquiry Commission in this behalf.

DYNAMIC METHODS OF TEACHING NECESSARY

REGIONAL SEMINAR'S RECOMMENDATIONS

Mysore, 5

Sri. R. Senapathi, Field Director to All India Council for Secondary Education addressing the general session of the Seminar of Head Masters and Educational Officers yesterday here laid special stress on the four-fold aims in the education of the child for a democratic country in the re-orientation of modern education. The aims were the development of the personality of the child, improvement of the child's economic efficiency so as to make it self-sufficient, cultivation of a sense of civic responsibility and developing leadership. To achieve these, he said that more dynamic methods of teaching were necessary, in which the emphasis would be shifted from a talking teacher to the participating pupil by utilising resource persons and aids in teaching.

Pro. Rangachar, the Director of the Seminar in his remarks stressed the need for Central control over State Educational policies so that minimum standards might be enforced throughout the country.

The Seminar adopted two recommendations namely that within five years all the existing High schools should be upgraded to Higher Secondary Schools and that for the interim period a public examination be held at the end of III year.

BARRIER BETWEEN EMPLOYER AND EMPLOYEE TO GO

Mr. T. T. Krishnamachari, Union Minister for Commerce and Industry declared at Delhi that he was opposed to the idea of extending amenities to labour as ' gifts ' since it was repugnant to the labourer. Between the employer and the employee, he said, there should be no ' Master servant ' feeling.

Mr Krishnamachari was addressing a session of the All-India Organisation of Industrial Employers, when he wanted the Employers to break down the psychological barrier between them and the labourers. He opined that the safety of the private sector depended on the ability of the employers to keep the labour happy and contented.

He felt that the employer had failed to assume leadership of labourers in the proper way and appealed to them to change their narrow outlook.

He pointed out that the private sector would enjoy all the facilities for sometime as in democracy, and they could not kill it-he said.

PROGRESS OF SMALL AND LARGE INDUSTRIES

Mr Khandubhai Desai, Union Labour Minister addressing the commerce graduates' association at Surat stated that small-scale industries were complementary to large scale industries, and hence there was no reason for any tussle between the two. If any one of them was dislocated, it was indicative of the unsoundness of the country's economy.

Both categories of industries required subsidy from the Government. Without the purchasing power of the rural masses,the country's large-scale industries could not hope to march ahead, the Minister pointed out.

REWARD TO OCTROI OFFICIALS

MUNICIPAL COUNCIL'S DECISION

Mysore, 8

The adjourned meeting of the City Municipal council was held yesterday Mr. A. Krishnamurthy Rao presiding.

The Council resolved to distribute Rs. 1,251 as rewards among such of the officials of the Ociroi department who turned out efficient work and collected octroi on many articles, for which payment was evaded.

Mr. Noor Hussain opposed it on the ground that officials were paid for doing their duty and this reward was unnecessary.

Mr. T. Narasima Iyengar supporting the decision stated that such reward was justified from the view of efficiency of work.

Mr. M. N. Thimmiah said that this reward should be paid only to those who collected more and worked honestly.

The Managing Committee's resolution to withhold the grant given to Holdsworth Memorial Hospital was referred to the Grants Committee.

Mr. K. Puttaswamy and Mr Coutinho, opposing the reso lution said that the institution was rendering useful service and hence the grant should be continued.

Messrs M. K. Lingiah and B. K. Puttiah were against giving grant to the hospital as it was charging for operations and other treatments.

The Council approved the resolution for exempting Newsprint from payment of Octroi.

RESPONSIBILITY OF TEACHERS IN NEW EDUCATIONAL SET-UP

AGE OF ADMISSION TO PRIMARY SCHOOLS SHOULD BE NINE

Unlike the old system now the Secondary Education was for the greater majority of the people and hence teachers of High Schools had a great responsibility in fitting students for practical and gainful avocations, observed Prof. V. L. D'Souza, Vice-Chancellor of the University of Mysore.

Inaugurating the Regional Seminar of Headmasters and Educational Officers here yesterday Mr. D'Souza called upon the teachers to adopt themselves to the new system of education. The High school teachers not only laid the foundation of education but also were suppliers of the food and fodder to the University, he observed.

Speaking about the usefulness of the Seminar, Mr. D' Souza said that the most neglected part in the ladder of education was the Secondary stage. But now, there had been keen interest to improve that section of education. The Union Education Ministry was organising seminars to make High school teachers aware of the new pattern of education. In the sphere of education, there was much to learn from each other and as such, these Regional Seminars were very helpful.

Mr. D'Souza disagreed with the recommendations of the Seminar relating to the admission age to Primary school. He said the fifth year of a child was in his opinion not a mature-enough age and he preferred the age of nine as the right age.

Earlier Prof. C. Rangachar, Director of Seminar explained the significance and usefulness of such Seminars.

BEE-KEEPING INDUSTRY

Bangalore, 8

Basic education would be more effective and purposeful, if the Government Departments particularly Industries and Agriculture were associated with the working of the present educational system, said Chief Minister Mr. K. Hanumantaiya yesterday.

The Chief Minister inaugurated the Second All India Beekeepers conference. He disclosed that he had instructed various departments in Government to co-ordinate their activities with the implementation of educational reforms so far as vocational education was concerned.

Industries Minister Mr. H Siddaveerappa who declared open the exhibition of the bee-keeping industry, called upon the experts to advise as to how the industry could be developed.

Mr. Vaikunta Lal Mehta, Chairman, All India Khadi and Village Industries Board who presided over the conference said that during recent years there had been an all-round development of the bee-keeping industry. He said that the Board had established138 substations, 17 model apiaries and had introduced bee-keeping in fifty-two schools, during the last three years. Production of honey during the nine months of 1955 was 37765 lbs. and the industry was now operating in 743 villages.

Mr. Mehta disclosed that the share of bee-keeping industry during the Second Plan was fixed by the Board at Rs.1.45 Crores.

Craft Training In Schools

In future only ten to fifteen per cent of students should be provided with University Education while others would get self-sufficient general education at High Schools, with crafts, stated Mr. N. S, Hirannayya, Director of Public Instruction at Kolar.

The D.P.I. said that in future more attention would be paid to train more technicians in schools with a view to utilising their services in various development projects undertaken in the country.

PAKISTAN "WAR CRAZY"

Master Tara Singh, the Akali Leader stated yesterday at Chandigarh that the U. S. Military Aid had made Pakistan "War Crazy." He added that the American Arms aid to Pakistan literally stood in the way of a settlement between India and Pakistan in respect of Kashmir.

This military aid, he pointed out had also increased the chances of aggression against India. while she had no designs of aggression against Pakistan and while the Government of India was for settling the dispute on the basis of the present cease fire line.

MORE POWERS FOR VILLAGE PANCHAYETS

SECOND FIVE YEAR PLAN PROGRAMME

The Second Five Year Plan envisages the establishment of a statutory panchayet in every village which will be entrusted with the work of carrying out the local development programmes.

The number of village panchayats in the country will be increased to 244564 by 1960..61, according to the programme.

There are 380029 villages in India with a population of 500 and below. More than 78 million people or 27 per cent of the rural population live in such villages. There are 104268 villages with a population of between 500 and 1000 and about 73 million people or 25 per cent of rural population live in the villages. The question of combining these into units with a population of about 1000 each are being examined. The development works of these units are proposed to be entrusted to the concerned village panchayets. Some major works connected with the land reforms will also be entrusted to these panchayets.

Judicial functions of panchayets concern administration of civil and criminal justice, enforcement of minimum wages for agricultural workers and settlement of simple land disputes.

As regards financial resource State Governments have been suggested to consider making grants to them on basic proportion of 15 to 20 per cent of land revenue with an additional grant extending up to 20 per cent of the land revenue on condition that the panchayets raise an equal amount by way of taxation or voluntary contribution.

As the national extension movement expanded, the work of village panchayets would be closly integrated with the programme adopted in development blocks.

As regards district development machinery it has been suggested to set up District Development Councils and Committees to work as advisory bodies.

MYSORE-LARGEST PRODUCER OF COFFEE

In India Mysore is by far the largest producer of coffee accounting for about 47 per cent of the total area under coffee in the country. Next comes Madras State about 27 per cent and Coorg contributes nearly 22 per cent.

The output of coffee during the year 1952-53 in the country rose to 59.8 million lbs. as against 54.5 million lbs. in 1951-52. The increase was largely due to the progressive expansion of the area under coffee.

India accounts for only 1.1 per cent of the world production.

ERADICATION OF RINDERPEST

A large-scale programme for the eradication of rinderpest from India will be undertaken under the Second Five-Year Plan at a total cost of Rs. 2,82.34,000, including Rs. 1,57,84,000, as the Central Government's share.

From this disease alone, the loss to the nation is estimated at about Rs. 30 crores per annum.

TEACHERS SHOULD DEVELOP SENSE OF UNITY

Mysore, 9

"In an age of democracy teachers are expected to be always in contact with the public noting the changing views of society. The latest conception requires the teacher to fit the child to the society with its changing needs and standards," observed Dr. Siddalingiah, Principal of the Institute of Education in Mysore addressing the Regional Seminar of Headmasters here yesterday.

He opined that there must be a thorough reconstruction of the syllabus and that should be done by teachers, and it was the duty of the teachers to develop the sense of unity among the young folk. It was for this purpose that modern educationists were advocating for proper correlation of of the subject with conditions of ordinary life, he said.

He also emphasised the imperative need for the improvement of the economic status of the teachers and advocated that teachers should try to influence public opinion in their favour

New States Formation May Be Put Off

The Bills relating to the States Reorganisation, it is learnt, will be taken up for final consideration only at the next session of Parliament, which is likely to meet in the latter half of July.

The representatives of opposition parties and the Joint Select Committee, it is stated have asked for reasonable time for consideration of the report and make necessary recommendations.

This may result the inauguration of the new States, originally targeted for October 1 being postponed by a month or two as several administrative steps can be taken only after the Bills are adopted.

This may also result in the postponement of the General Elections by four or five months or early 1958.

The present session of Parliament is likely to be adjourned by the end of this month and reassemble on or about July 20.

Inaugurating the tenth State Scout Jamboree at Tumkur, yesterday M.P.C.C. President Mr. S. Channiah stated that one should become a scout by service and not by dress. Scouts should serve the country like disciplined soldiers with full patriotism.

The Jamboree which was held in the High School premises was attended by over 3000 scouts, rovers and girl guides.

Earlier the Camp Chief read out the messages from the Union Vice-President Dr. Radhakrishnan, Rajapramukh of Mysore, Union and State Ministers and others.

The Chief Scout Commissioner detailed the working of the Scout movement in the State.

Mr. Channiah stated that the Scout movement was a unique non-communal organisation spreading international ideals. He suggested that such Jamborees should be held at least once in three years in the State. He said that Scouting had become well established in the State, due to the great contributions made by the late Yuvaraja and the present Rajapramukh. He wished the Scout movement to grow in strength at least to three crores and thus share the responsibilities in building up New India.

LABOUR PARTICIPATION IN INDUSTRIES

EXPERIMENT IN GOVERNMENT-OWNED INSTITUTIONS

Bangalore, 11

"The State Government have decided to implement their intention of allowing labour to participate in the management of Government-owned industries as an experiment. If that proves an unqualified success, Mysore State would have the unique privilege of giving the lead to the entire country in laying a firm foundation for the establishment of a Socialistic society", said Chief Minister Mr. K. Hanumanthiya, speaking at a tripartite conference of Representatives of Government, Labour and Management.

Mr.Hanumanthaiya continued that it was symptomatic that both the Centre and State Governments were agreed in this regard as also the INTUC and those in charge of Government Industrial concerns had concurred on this.

The Chief Minister pointed out that industries could not be run on political slogans Capital, raw materials, cost of production and marketing facilities were some of the factors responsible for success of any industry. It was hence necessary to consider how far labour participation would benefit the industries.

He also told Labour that as soon as they became part of an industry, they would forfeit the right of agitation. It was to be seen whether labour participation in the management would help concerns work efficiently, economically and smoothly to increase production.

Since national wealth and production were inter-related, conference should consider this question carefully and lay down coventions for implementing Government's intention.he said

The conference was convened to discuss this important issue.

MANUAL LABOUR IN SCHOOLS

Mysore, 11

The Regional Seminar of Headmasters and Educational Officers decided that manual labour and social service should be integrated in the work of the schools on a planned basis and that every student and teacher should participate in it,

They have also decided to find time for a variety of co-curricular activities in the school time-table by extending the present school time by one period per day.

At the general session of the Seminar, Sri. S. V. Srinivasa Rao, UNESCO Expert in Liberia spoke on 'Fundamental Education.'

Mr. Srinivasa Rao said that fundamental education was service of the economic and social development of a Community. It was the minimum knowledge of essential things to make the people better and happier in life. It was out-of-school education. Fundamental education started with the felt-need of the people, as distinct from a prepared plan of community development, he said.

SURVEY OF PRIMARY AND SECONDARY EDUCATION

Dr K. Shrimali, Union Deputy Minister stated yesterday in the Rajya Sabha that Government of India had proposed to conduct a survey of Primary and Secondary education in the country shortly.

The object of the survey was to ascertain the number and population of cities, towns and villages already provided withPrimary and other schools, of villages still to be provided with schools and the manner in which new schools could be started to avoid overlapping so as to achieve maximum effect at minimum cost.

The survey would also ascertain the condition of girls' education in the country and how it could be improved.

He further stated that each State Government would be asked to depute an officer exclusively for this purpose: and that one-week's seminar would be held in Delhi to train officers for survey work.

DECIMAL COINAGE

Decimal coinage will be introduced in the country from April 1, 1957. The lowest coin will be named 'paisa' and the highest 'rupia' No new anna coins will be introduced. After the old anna coins were withdrawn from circulation Government might introduce new coins.

The existing coins will also be in circulation for four years after the new coins were introduced.

The cost of postal and revenue stamps in terms of the new decimal coins would be 'a bit higher' than under the present currency, while in the case of certain articles, the cost might be less.

Child Welfare

Inaugurating the first National conference on Child-welfare, Prime Minister Nehru said that child welfare schemes should be given the first place in the national development plans.

Mr. Nehru said he felt sorry to see children uncared for. Whatever the reasons might be it made him hang his head in shame. Doing things in a piecemeal way for the betterment of the children was not good. There had to be a co-ordinated effort. The Government too had a great responsibility in this.

In the matter of child welfare, the Prime Minister suggested that Indians should go abroad and exchange ideas and learn things as there was much to learn from other countries. But, Mr. Nehru said that it was strange that Indians should go abroad to study how to work in villages. If they wished to work in the rural parts they should go to the villages and not 5000 miles across the seas to get degrees in social service.

The Prime Minister said that child welfare was a big task in the country because of the enormity of the population. Many children went without enough clothes and enough food. About 50 per cent of the children in the country went to schools. The rest did not, either because they could not afford it or there was shortage of schools. He hoped a day would soon come when every child would be able to get education.

He asked all those engaged in child welfare work to evolve a schmee that was simple and intelligible to the common man in the villages because majority of the children lived in villages.

★ The Rajya Sabha adopted yesterday the All-India Institute of Medical Sciences Bill.

EDUCATION SHOULD BE MADE CHEAP

The Government were anxious that no child should be left uneducated and that all facilities should be afforded in that direction, said Sri Sri Prakasa, Madras Governor, at Ootacamund.

He added that it was the teachers' duty to tell Government as to what should be done to make education available to all at cheap cost.

Important role of education was to find proper place for one in life, so that he or she could be of service to society.

CHANGES IN SECONDARY EDUCATION SYSTEM

REGIONAL SEMINAR'S DECISION

Mysore, 12

The Regional Seminar of Headmasters and Educational Officers passed yesterday three resolutions, recommending the duration of the courses in Multipurpose schools to be 4 years and that in addition to the academic course only other vocational courses be provided.

It further resolved emphasising that the regional language must be compulsory for all students, besides two other languages to be selected from the following group: Hindi, English, Mother-tongue, classical language and a modern foreign language other than English.

The Seminar also resolved that a separate section for Audio-Visual Education be opened in the State Education Departments and that suitable educational films be prepared and research be made in this field.

Addressing the Seminar Sri. M.P.L.Sastry,opined thatGovernment should be content with academic control over education. He stated that the Primary and the University education should be the concern of the Government, secondary education being entirely left to private enterprise. He suggested that only model schools need be maintained by 'Government,in selected places where research can be carried'.

Sri P. Kodanda Rao of Servents of India who also addressed the Seminar appealed to educationists to put forth their utmost efforts in remedying the deplorable condition of failures in examinations. He stressed the need for the retention of the English language as the *'Lingua Franca'* of India, in view of its richness and beauty, besides being the International language

He advocated a three-stringed course of arts, science and applied science or vocation for multi-purpose schools

Dr. Alvin D. Loving, American Educationist speaking at the Seminar gave a vivid picture of the American system of education in which provision was made for diversification of studies so as to enable pupils to carry on with some profession after their education. He stated that the salary of teachers in America was also low as compared with other professions and vocations but they enjoyed a certain measure of autonomy, which enabled them to make their work as creative and joyous.

GENERAL ELECTIONS AS SCHEDULED

Prime Minister Nehru stated in Parliament yesterday that the Government were anxious to have the next general elections in March next as scheduled. The Prime Minister said that the Election Commission would go ahead with the work of organising the elections as soon as a final decision of Parliament was known on the States Reorganisation. The exact date for the Election Commission to start work on the next general elections cannot be fixed unless the House fixed the finalisation of the new States and the demarcation of new constituencies, he added.

VOLUNTARY CUT IN PAY
C. M's SUGGESTION TO IN-COMING GOVERNMENT EMPLOYEES

Mysore, 14

Inauqurating the Mysore Taluk Village Panchayets conference here yesterday Chief Minister Mr. Hanumanthaiya stated that he never intended that the Government servants in the neighbouring States opting to join greater Mysore would get reduced salary but merely suggested a voluntary offer to accept less pay in view of the financial stability of the New State.

He added that according to present pay-scales in parts of Karnataka, Government would require about Rs. 8 crores. This amount would have to be found only by taxation, for which people would not agree. He therefore appealed to all to solve the problem in an atmosphere of peace and friendlinesince many more problems would arise in the formation of the New State.

Speaking about parties in the Congress Chief Minister stated that time was when he had himself formed groups and parties within the Congress. But experience taught him now that larger interests of country demanded that such parties within the Congress was not only undesirable but also detrimental to the progress. He had therefore changed his views and decided to act up to it henceforth.

Speaking about the voluntary service the Chief Minister regretted that voluntary service for the execution of local development works in the State was not forthcoming in sufficeint measure, and said that in places where there was no response from the public no development works would be undertaken in the future,.

Regarding more financial help to the village panchayets the Chief Minister said that it was the intention of the Government to give more funds and this year Rs. 12-5 crores had been provided.

Sri. S. Channiah, President M.P.C.C. presiding said that village panchayets formed the very basis of the State under democracy and hence members of panchayets should work with integrity and selflessness, so that the country might progress.

EQUITABLE DISTRIBUTION OF WEALTH

BETWEEN AGRICULTURAL AND INDUSTRIAL SECTORS

Bangalore, 14

Chief Minister Sri K. Hanumanthaiya stated here that the First and Second Five Year Plans did not do any justice to agriculturists. Speaking at the Agricultural Conference, here, Sri Hanumanthaiya said that he was of the view that in the plans, there were defects that go to work to some extent at cross purposes with the fundamental principles of socialism.

Referring to the question of fixing a ceiling on agricultural holdings the Chief Minister said that in effect it might limit the income of agriculturists while 'we do not propose to limit the income in other sectors'. If fundamental principles of the Constitution had to be followed seriously, he said the wealth produced in the country had to be distrubuted equitably, if not equally, between the agricultural and industrial sectors.

INDUSTRIAL ESTATES

The Government of India have sanctioned the establishment of 3 industrial estates and two major workshops and three small workshops immediately in Travancore-Cochin State. The three industrial concerns are alone estimated to cost Rs. 65 lakhs.

PLEA FOR DEVELOPMENT OF ZOOS

C. M.'S SUGGESTION IN WILD LIFE BOARD MEETING

Mysore, 15

"We are living now in a planned economy. We begin to plan in every possible sector and the wild life and the zoo have come into this field", said Mr. K. Hanumanthaiya, Chief Minister, inaugurating this morning the first meeting of the Zoo Wing of the Indian Wild Life Board.

Till now he said there was a notion that only children took pleasure in visiting the zoos. But it should be changed now. People should visit and take steps to the growth and development of zoos.

Mysore, he said, had a zoo which attracted thousands of people, especially during the Dasara. There was much scope for expanding the zoo; but the financial resources were limited. Before taming the wild animal, he stated, the wild nature in human beings must be tamed, through education and social sciences, for which much money was being utilised now. However, Mysore had to do its best, as it attracted very many tourists.

There were at present 20 zoos in India, 12 of which were in the former Princely States. This indicated the interest the Princes took in establishing them, he said.

The Chief Minister hoped that this meeting would give a filip to the development of zoos and he was particularly happy to inaugurate this first meeting of its kind to be held here.

Welcoming the Chief Minister, the Chairman of Zoo Board Mr. C. R. Ranganathan said that zoos in India were being run without any coordination or integration. This necessitated the establishment of the Zoo Wing of the Wild Life Board, The purpose of the zoo was both entertaining and educative. The art of running the zoo was a difficult one and it should be learnt through a study of the latest techniques in the advanced countries Here he suggested that Superintendents of zoos should be deputed to foreign countries for studying the techniques.

The Chairman felt that zoos should not become prison-houses for animals; but a limited amount of liberty must be allowed to them.

Dr Kadambi of Mysore exhlained that the conference would study the intimate life of animals in captivity, research on their diets, prevention of cruelty to them and more skillful ways of displaying the animals.

His Highness the Rajapramukh, Chairman, of Indian Wild Life Board had sent a message wishing success for the conference.

The meeting thanked the Rajapramukh. The Chairman of the conference Mr. Ranganathan stated that His Highness the Rajapramukh was " a tower of strength to the Board"

Need For National Feeling On Wild Life

Mysore, 15

The Southern region of the Indian Board for Wild Life in its meeting here yesterday decided to recommend the formation of Sanctuaries around Tungabhadra and Nagarjuna Dams. It decided that there should be a ban on fishing within two miles down stream of the Tungabhadra Dam.

The Board also decided to recommend a conservation pledge to be taken by all school children in the interest of promoting a national feeling for wild life. It also decided to request all the States to adopt the Wild Life Act and the rules prepared by the Secretary of the Board so that there might be uniformity and efficiency.

The Meeting was held here at the Government House, Sri C. R. Ranganathan I. G. of Forests in India presiding. Sri Raja Saheb of Sandur, Secretary of the Southern Region and Representatives of Southern States and Sri H. D, Chaturvedi Retd., I. G. of Forests were present. At the outset Dr. Kadambi welcomed the members on behalf of the Mysore State. The Regional Secretary in his welcome address spoke about the importance of the wild life protection to the country and said "If we do not set quickly, I am afraid there will be very little left to preserve and protect."

NO SUGAR SCARCITY

Bangalore, 15

Due to the sudden appearance of scarcity conditions in respect of sugar in the State, Mr.S. Muninanjappa, Chairman, Mysore Sugar Company stated here, yesterday, that he had sought the permission of the Centre to release an extra quantity of 3,000 tons of sugar, this month and that he was awaiting instructions.

The scarcity conditions in the State were throughly unwarranted, he said, since they had enough stock of sugar to meet the requirements of the State. He assured that the Sugar Company was always ready to come to the succour of the consumers and that he would release adequate stocks, if co-operative societies came forward.

He revealed that he had requested Central Government to build up a stock of 1,23,000 bags of sugar, enough to slash down the price of sugar.

Mr. Muninanjappa stated that sugar production in the country during 55-56 was expected to be 15 lakhs of tons, a record figure The Sugar Factory at Mandya produced annually about 35,000 tons of sugar, half of which was sold within the State The normal consumption of sugar in the State was from 20,000 to 25,000 tons.

7,200-CRORE SECOND PLAN

PRESENTED TO PARLIAMENT

The Second Five Year Plan with an outlay of Rs. 4800 was presented in both Houses of Parliament yesterday by the Prime Minister.

The outlay in the private sector had been fixed at Rs 2400 crores.

The Plan aims at securing a 25 per cent increase in national income and rapid industrialisation of the country accompanied by large expansion of employment opportunities. It seeks 'to rebuild rural India and to lay foundation for industrial progress'.

Transport and Communications have been allotted the maximum of Rs. 1385 crores. Social services come next with Rs. 945 crores. The other allocations are : Agrl. Community Development Rs. 568 crores, Irrigation and Power Rs. 913 crores, Industry and Mining 890 crores and miscellaneous 99 crores. Total Rs. 4800 crores

Of the proposed investment of Rs, 2400 crores in private sector, 575 crores are for Organised Industry and Mining, Plantations, Electricity undertakings and Transport other than Railways Rs. 125 crores, Reconstruction Rs. 1000 crores, Agriculture and Village and Small Industries Rs. 300 crores and Stocks Rs. 400 crores.

According to State-war allocation Bombay gets the highest : Rs. 266.2 crores. Mysore State gets Rs. 80.6 crores.

The following is the scheme of financing envisaged in the public sector : Surplus from current revenues Rs. 800 crores (Rs. 350 crores at the 1955-56 rate of taxation and Rs. 450 crores by way of additional taxation), Rs. 1200 crores by way of borrowings from public, other budgetary resources Rs. 400 crores, external resources Rs. 800 crores, deficit financing Rs. 1200 crores, by additional measures to raise domestic resources Rs 400 crores

During the Plan period at least 10 million job opportunaties would be provided.

The Plan has proposed that steps should be taken in each State to impose ceiling on existing agricultural holdings. They would apply to owned lands, including those under heritable and permanent rights held under personal cultivation being enabled to acquire rights of ownership.

Presenting the Plan, Prime Minister stated in Lok Sabha "While the Plan is there for the House to consider and when approved, for the country to act upon, it is not a rigid Five-Year Plan. It is proposed to consider it from time to time, vary it here and there as experience dictates and conditions necessitate so that while we have a Five-Year Plan, it is going to be considered annually and where necessary, revised."

PLANNED PROGRAMME FOR GAMES

Mysore, 16

Addressing the Seminar, of Headmasters and Inspecting officers this morning, Prof. H.T. Schuelke, of USIS gave a bird's eye-view of the changes in curriculam in secondary schools in America. He suggested that a knowledge of trials and tribulations experinced in America at the time of reorganisation in secondary education would be helpful in India just when the question of revising curriculam of studies was being actively considered.

Sri George Thekaekara addressed the Seminar on physical education. He pleaded for a balanced development of the physical and intelectual activities of pupils and also for a planned programme and encouragement for inexpensive games. He criticised the tendency in some schools to spend disproportionately large amounts on expensive games like cricket and over a few individuals or teams.

Sri T. N. Krishna Rao, Deputy Director, Mysore who addressed the Seminar on earlier day drew the attention of the members to the various difficulties in working multi-purpose schools successfully. He hoped, with faith and vision on the part of the teachers these schools could be made to realise the objective.

PLEA FOR CHANGE IN EXAM. SYSTEM

Mysore, 17

Sri. Paul T. Verghese, Principal. Teachers' College, Trichur addressing the Seminar of Headmasters this morning elucidated the evil effects of the present system of examination and how it worried the examinees, the examiners and also the parents.

He characterised the evaluation of the answer papers by the teachers as 'not reliable'. He suggested several remedies in this connection such as dropping out public examinations for those who did not prosecute their studies further, to have standardised test and supplementing the results of examinations with those of intelligence tests. He suggested that examinations should never be taken as "Traps".

PRICES OF FOOD GRAINS

HYDERABAD MINISTER JUSTIFIES RISE

Bangalore, 17

Dr. M. Channa Reddy, Minister for Agriculture, Hyderabad, addressing the five-day Agricultural Seminar here called upon the agriculturists to organise farmers' clubs in rural areas and cautioned them against being politically exploited. He advised them to organise themselves for establishing their rights as had been done in the sphere of labour, industry and the capital. He warned them that if they failed to organise themselves and develop proper leadership they would continue to be servile and exploited by others.

Speaking about the spurt in the prices of food grains, he stated that none need feel apologetic about the prices. He justified the increase in the price structure of foodgrains, with the increase in the prices of iron, steel and other agricultural implements besides manure. He called upon the ryots to increase the yield from the land and to reduce the cost of production.

New State To Be Named "Karnataka"

K. P. C. C. DEMAND

The Karnataka Provincial Congress Committee resolved that the proposed Kannada Speaking State to be newly formed should be named "Karnataka", instead of Mysore The Committee hoped that Parliament and Government of India would accept the same. The meeting was attended by large number of members at Hubli including M.L.As of Kannada speaking areas of Hyderabad, Coorg, Bombay Karnataka and Mysore.

The general body opposed the inclusion of Karnataka in bi-lingual or multi-lingual State. The resolution added that the wishes and desires of the people were against such inclusion.

The committee suggested the inclusion of the follwing areas also in the new Karnataka State : Jathan, Akalkot, and South Sholapur taluks of Bombay State and the parts of Kasargod taluk, north of Chandragiri river, Madaksira of Ananthapur district, Nilgiri district of Madras State.

It also opposed any reduction in Coorg's representation in the interim Assembly of the State.

The meeting adopted another resolution demanding the establishment of one Pradesh Congress Committee for the proposed Karnataka State.

BUDDHA JAYANTI

Mysore, 21

The Fort Mohalla Youths in a meeting on Saturday, Sri Jogi Siddiya, presiding decided to celebrate Buddha Jaynti on May 24. A Committee under the chairmanship of Sri M. S. Ramaseshan was formed.

REDS SUPPORT TO GOVERNMENT

The General Secretary of the All-India Communist Party has stated that a ceiling on incomes should be imposed not only to raise adequate resources for the Second Plan, but also to create the necessary psychological atmosphere and enthuse the masses for national reconstruction.

He stated that his Party had approved the broad objectives of the Second Plan and would extend its co-operation in mobilising public opinion for its implementation. He said that the Communist Party had supported the Government in its foreign policy relating to national security and promotion of world peace. He said that his Party could extend co-operation in the economic field provided the broad objectives of the Second Plan were implemented faithfully and the method and manner of raising resources for the Plan were so altered as to make the taxation burden more equitable.

UNION OF TAMIL NAD AND KERALA

Freedom would mean nothing, if the Government was not run in the language of the people stated Acharya Vinoba Bhave in Madras, stressing the need for developing the cultural unity between Tamil Nad and Kerala, He said that the children of these parts should be taught the other language to become ready for the union. He said that instead of a Dakshina Pradesh, he was in favour of the Union of Tamil Nad and Kerala.

SILK FACTORIES TO BE REOPENED

Bangalore, 21

Agreement having been reached between the employers and the employees in the Bangalore silk factories, there is every prospect that the disputs between the parties would be settled soon and normality would be restored. A joint memorandum would be submitted to Government embodying the points of agreement, it is learnt.

It was agreed that all the factories should be opened; that the workers should withdraw all the cases pending; that all discharged workers should be taken back into service and all points of differences should be referred to an arbitration tribunal, consisting four represantatives each from the labour and employers.

Regarding the grievances of workers explained when the factories were closed, the employers agreed to place before them suggestions acceptable to all.

Mr. B Beerappa, Director for Rural Industrialisation initiated the talks between the parties.

PRISONERS TO RUN OPEN PRISONS

Dr J. C. Dhar, West Bengal Minister presiding, the sectional committee on 'Open Prisons', made a strong recommendation that pre-planned and well directed steps should be taken to transfer the authority and management of open prisons to the prisoners themselves. The International Seminar on correctional administration was held in Banaras when it also decided that the selection of prisoners for these open prison camps should be based on standardised psychological and aptitude tests.

SETTING UP OF MULTI-PURPOSE SCHOOLS

CO-OPERATION OF COMMUNITY ESSENTIAL

Mysore 21

Mr. N. S. Hirannayya, Director of Public Instruction addressing the Seminar of Headmasters here yesterday stressed that although the objectives of education had been variously interpreted, fact remained beyond dispute that man could not get on without the three 'Rs.' He expected quite a large number of Higher Secondary schools in the country during Second Plan

In the establishment of Multi purpose schools, he said they should have the co-operation of the community.

Dr. Miss Bina Roy of the United States Education Foundation addressed the session in the evening on the working of Seminars and workshops.

Sri. V. Ramanathan, Principal of the Alleppey Sanathana Dharma College, appealed to the teachers to look upon their vocation as one of parmount importance and responsibility and to regard it as their sacred duty to instil into the minds of the pupil an ardent and abiding love for the country.

He also stated that students should be helped to grow up as useful citizens, by giving them ample scope for self-development in the field of social service and help visualise Sarvodhaya State-casteless and classless society.

He discouraged the activities of political parties using the students to make public demonstrations and to cavass votes in the time of elections and be remarked that students should refrain from taking active part in politics. But he wanted them to study political conditions not only of their own country but of others. He also favoured setting up teacher-parent organisations which would go a long way in maintaining proper dicipline among students.

Earlier, the Seminar discussed the problem of discipline in in schools. and suggested some remedial measures for eradicating indiscipline in schools.

PROPAGATION OF HINDI

Prime Minister Nehru has emphasised the need for allowing Hindi to grow in its own way instead of prescribing any rigid and orthodox line on which it could develop. 'If you want to keep this language alive let it grow in its own way; otherwise it will become deformed and weak,'he said: speaking at the Hindi Association of Parliament.

Language was a dangerous thing. It could unite people or disunite and create conflicts among them. Therefore one had to be very cautious while promoting the cause of Hindi, he said.

He warned Hindi-speaking people in their enthusiasm for spreading Hindi, should not make the non-Hindi, speaking people feel Hindi was being imposed on them. Mr. Nehru suggested that it was good if the work of propagation of Hindi was entrusted to non-Hindi-speaking people who had attained proficiency in the language. That would remove the fear of domination among the non Hindi-speaking people.

BHAVE'S CHALLENGE

Acharya Vinob Bhave threw a challenge to Communist leader Mr. P. Jeevanadam that he was prepared to convert him to the Bhoodan Movement failing which he would himself become his follower giving up the movement altogether.

Mr. Jeevanadam who met Vinobji on Saturday last told him that the Bhoodan Movement could never change the human heart as it was so corrupt and the movement could not solve the land problem even in the next generation, let alone in the present.

Legislation alone could solve the land problem.

Vinobji replying told the Communist leader that he was prepared to take up the challenge. He was sure that his mission would succeed because it was based on love and faith. "You accompany me on my 'Yatra' and I will surely transform you and make you one of my trusted followers You will surely realise the 'magic touch' of the movement and definitely become my follower. If I fail to convince you and convert you to my ideals, I will offer to be convinced by you and become your follower. If not convinced I will give up the Bhoodan movement altogether, accepting my failure," he said

FORMATION OF NEW MYSORE

INTER STATE COMMITTEE DISCUSSES PROBLEMS

Bangalore, 22

The Inter-State Ministerial Committee headed by Mysore Chief Minister Mr. K. Hanumanthaiya met yesterday here and discussed various administrative problems in connection with the formation of New Mysore State.

All the members of the committee were present, including Mr. C. M. Poonacha, Chief Minister Coorg, Mr. N.P. Patil, Mr. A. B. Shetty and Dr. Melkote, Ministers of Bombay, Madras and Hyderabad respectively.

The discussions centered round problems of assets and liabilities, integration of services and pay-structure of employees.

Addressing the committee, Mr. Hanumanthaiya stated that there were two sides to all these questions, one administrative and another political. This committee was concerned with the administrative aspect and he wanted the committee to play a great role in bringing about reconciliation between these two aspects.

The Chief Minister added that there was great deal of difference in the psychological outlook between the leaders of North Karnataka and Mysore and pleaded for approaching the problem in a non-partisan spirit. As otherwise, he said it would not help the situation, if any one of them championed only one point or view. Members of this committee should think in terms of New Mysore State and not this or that part of Karnataka.

Mr. Hanumanthaiya said they would dispose of every matter on the basis of merit, justice and in the sole interests of the New State,

Mr. Nanjappa is the brother of the Chief Minister Mr. K. Hanumanthaiya.

TESTING OF RESEARCH RESULTS

Government of India have decided to set up pilot plants, where the results of the researches now conducted in the 17 National Laboratories of the country would be put to practical test, before they were presented to the industries for their adoption. This was revealed by Prof. M.S Thacker, Director of the Council for Scientific and Industrial Research.

Prof. Thacker pointed out that the Central pilot plant organisation that Government proposed to set up would consist of some foreign experts. Its function was to design the fabricating plants needed by the different laboratories. It would also impart training for the country's nationals in the working of the pilot plants.

Plea For Clinic For Every School

Mysore, 22

The Seminar of Headmasters in its session yesterday decided that there should be an annual medical check up in every school and suggested a clinic for every Secondary School. As a first step, it was proposed to have a Central Clinic to serve the needs of schools in an urban area. It also recommended a mobile unit for the benefit of Schools in rural areas which could not afford a clinic of their own.

It also decided that schools should organise canteens to provide midday meal to all children who need it, provision being made for free meals to poor students, the State and local bodies liberally contributing for such canteens.

Earlier Prof. K. V. Puttappa, Principal of the Maharaja's College who addressed the Seminar stressed the need to make the Regional Language the medium of instruction even at the University stage. He said that there must be clear distinction between the study of English language and English literature. Mr.Puttappa remarked that there was a waste of energy and that a sense of frustration was experienced by students when compelled to express themselves through the foreign language. He suggested that international technical terms might be retained and absorbed into the several regional languages. Efforts at translating the technical terms involved waste of effort and created unnecessary confusion. He was for making study of English optional. Even the English literature might be taught through the medium of Regional language. Students may know how to read and enjoy English Literature without the compulsion of writing in English, he said. He fully concurred with the Gandhian view that every pupil should learn three languages-regional, official or national and an international foreign language.

STEP-UP STANDARD OF EDUCATION

MINISTER'S ADVICE TO EDUCATIONISTS

Mysore, 23

Delivering the valedictory address of the Regional Seminar of Headmasters here yesterday, the State Health Minister Mr. T. Chenniah stated that secondary education should aim at training worthy, responsible and useful citizens of our secular democracy.

Appealing for stepping up the standard of secondary education, the Minister said that secondary education was the most vital link in our educational chain. He remarked that secondary education had not been able to help the pupil to find an honoured and satisfying place in society. At the end of the secondary course majority of pupils found themselves at the cross roads of life, having, to accept unemployment as their invitable destiny or to pursue a higher course of study in the University which, they knew not, where it would lead them.

Such a sad state of affairs might be attributed to the fact that the standard of attainments in our high schools did not give that degree of self-assurance and competence to the stndents to pursue a gainful occupation.

Mr. Chenniah stated that the courses of studies should be so widely diversified as to foster and develop endless varied talents which could be preseed into the service of our motherland.

Speaking about deterioration in student discipline, the Minister observed that the operation of several extraneous forces had contributed to a considerable extent to that disease of indiscipline. But the personality of the teacher and his own moral standards of conduct and work had to become so strong as to counteract other forces, he said.

He hoped that the labours of the seminar would yield rich dividends. Earlier, Prof. C. Rengachar, Director of the Seminar welcomed the delegates.

MPCC CHIEF REBUTS ANDHRA MINISTER

Bangalore, 23

MPCC Chief Mr. S. Chenniah said here yesterday that the suggestion of Mr. N. Sanjiva Reddy, Andhra Deputy Chief Minister on the future of Bellary taluk was unjustified.

In a statement, Mr. Chenniah stated that the by-election to the Mysore Legislative Assembly from Bellary was a fight between individuals and had no political significance. He added that neither the Congress nor other political parties had set up their candidates. Hence the by-election will not by any means be said to be a straight fight on the linguistic issue. It could not also be compared with the recent by-election in West Bengal, where the Congress and Communist parties contested on the issue of merger of West Bengal and Bihar.

Hence there was no justification for Mr, Sanjiva Reddy to state that the Government of India should decide the future of Bellary taluk on the outcome of the by-election, he said.

Rise In School Fees

PLEA AT HEADMASTERS' SEMINAR

Mysore, 24

Addressing the Regional Seminar of Headmasters Sri A C. Deve Gowda, Principal of the Teachers' College pleaded for a rise in school fees to meet the increased cost of education as necessary for improving its quality. To improve the standards in education he wanted the Government to start ReadingClinics as was done inU.S.A. and to introduce the type of text books known as 'Culture free Readers' devoid of foreign environment and backgrounds. With regard to training of teachers he proposed lengthening of the period and more intensive coaching not only to teachers but also to lecturers and professors. Mr Devegowda speaking about the present tendency of centralisation of education, advocated greater amount of freedom for the States to chalk out their own pattern of education according to local conditions. He cited the instances of the Osmania University where Hindi was being imposed and the imposition of 11 years pattern of education on States.

He called upon the State and the Central Governments to pay more atttention to matters of education. When considerable sums were expended for building roads and dams, he said, comparatively negligible percentage of revenue had been set apart for education.

Mr. Devegowda also suggested the desirabality to start research work in the field of education. He also pleaded for setting up of a statutory body-All India Teachers' Council with functions similar to those of other professional bodies.

AMBLI FAVOURS ONE PCC FOR NEW MYSORE

Mysore, 24

Speaking at a reception held by the local Veerasaiva Sangha, Sri C. J. Ambli, President, Karnataka Provincial Congress Committee said here yesterday that all the Kannadigas had great responsibility on the eve of the formation of Karnataka. Usually people here questioned what they would bring from other parts of Karnataka. He would reply them that Karnataka was rich in mineral wealth like gold and had cement and paper factories. Above all the land was fertile and they had ample forest resources. All these would contribute greatly to the wealth of the new State. Hence all Kannadigas should strive hard to develop the new State to the fullest extent, he said.

Regarding naming of the new State, Sri Ambli pointed out that 'Karnataka' would suit well. Even the Mysore Maharajas were referred to as 'Karnatakadiswara,' he said.

Asked about the position of P.C.C.s after the formation of new State, Sri Ambli said that even Gandhiji and other leaders had favoured only one P. C. C. thirty years ago. As such he too would recommend one Karnataka P. C. C. Speaking about the formation of Dakshina Pradesh, he felt that those who had opposed merger of Mysore supported the cause of Dakshina Pradesh. He failed to understand their stand.

Sri Poonacha, Chief Minister of Coorg, who was also present at the function said that the leaders of the new State had to solve several problems arising out of the formation. People, he said expectedm, any good things in the wake of the change. He felt confident that leaders of Karnataka and MysoreState would give a bold and correct lead. It was the duty of everyone in the State to co-operate with them in forming a welfare State, he said.

Earlier, Sri M. C. Mahadevaswamy welcomed the guests.

FOLLOW PATH OF LOVE AND PEACE

PRASAD'S CALL TO WORLD NATIONS

On the auspicious occasion of the 2500th anniversary of Lord Buddha, President Rajendra Prasad in a message has called upon the world preoccupied with thoughts of the atom and hydrogen bombs to turn its thoughts awhile to Buddha's immortal message of love and peace which during these 2500 years had given real peace and happiness to men without number and which was needed more today than at any other time in the history of the world.

The President has stated :

" It is a solemn day for all those who believe in the supremacy of virtue and the superiority of human spirit over things mundane and ephemeral. People of this land, where Sidharth Gautam was born, where he underwent a process of rigorous penance in search of truth and where he preached the gospel of absolute tolerance and universal peace, are bound to experience a special joy on this occasion.

" India is not a Buddhist country in the sense that we are not formally Buddhists, but there is no doubt that the essence of Buddhism has been incorporated and obsorbed in Hinduism and is a part of the Hindu way of life, though perhaps others might think that they have fashioned their lives more in accordance with the traditional teachings of Buddha than we in this country.

" It is characteristic of Buddha's immortal message that with the passage of time, far from becoming obsolete, it has become more radiant and shines today like a beaconlight "

In a broadcast to the Nation the President said yesterday that 'thinking persons in all countries realise that the time has come when the Buddha's path of love and peace long enshrined only in books of History, were now adopted in practice in order to save the world from sure annihilation." He hoped that this anniversary would give an impetus to this belief and thus create a climate of opinion in which the wisdom and the feasibility of the Lord's message were pondered earnestly.'

Dr.Rajendra Prasad said: "It is a great day for the world as it focuses our attention on one of the sublimest of messages in the heritage of mankind Lord Buddha's message appears to be in contrast with current world trends and yet it irresistibly attracts the moderner on account of its loftiness, universal peace and tolerance and its prctical approach to the problems which man has had and will always have to face in the world.

"As an humble admirer of Lord Buddha, I would commend his teachings, particularly his moral discipline embodied in the Eight fold Path, to all men and all nations. Perhaps never before was the world so torn by strife and violence, and the need of Buddha's message of love, tolerance and peace was never greater than it is today.

"His teachings are essentially practical, meant for common men in all walks of life. His principle of avoiding extremes and prefering the golden mean is a valuable contribution to world thought.

"Seen in the light of the present day situation when atomic energy seems to be vesting man with boundless capacity to do good or harm, Buddha's philosophy of life and his message to mankind is of particular significance today. Far from being outmoded, it has assumed for discerning men an importance equal to life itself.

"Following the path of peaceful co-existence as preached by the Buddha appears to be the only alternative to destructive wars and subsequent misery.

"Though India is a haloed land where the Buddha trod, lived and preached, as a matter of fact Gautama, like other prophets, belongs to the whole world and his message is truly universal."

SRI BHASHYAM PASSED AWAY

HIGH-SOULED PERSONALITY AND BORN LEADER

Bangalore, 25

We deeply regret to announce the sudden passing away of Sri K. T. Bhashyam, Chairman of the Mysore Legislative Council, yesterday evening at 7-40, due to heart failure in his residence, at Cottonpet. He was 61 and is survived by his wife.

Sri Bhashyam was ailing since a year and had just returned after treatment in Vellore. Yesterday evening Mr. Bhashyam returned home after meeting his friend at the Residency. As soon as he entered his room he collapsed and fell dead.

News of his death soon spread in the city and several leaders and officials including the Chief Minister Mr. K. Hanumanthaiya, other Ministers, Judges of the High Court and Congress leaders called at his residence to pay their last respects. Thousands of labourers thronged near the house to have the last darshan of their earstwhile leader.

His funeral took place this morning.

MEMOIR

Mr. Bhashyam was born on April 12, 1895. After graduation he entered the Bar at Bangalore and had a lucrative practice. He entered the State Assembly in 1926 and later the Legislative Council and served for several years in both the Houses. As a legislator he sponsored many reform bills. In 1928 he organised the labour in the State. He was the pioneer in the labour movement and devoted his entire lifetime for the betterment of the labourers He was elected President of the State Congress in 1940.

He courted imprisonment over ten times in connection with the freedom and also the labour movement in the State.

After the dawn of independence, he entered the first Cabinet in Mysore in 1947 and held the portfolios of Law and labour. He represented India, in the International Labour Conferances at Sansfrancisco in 1948 and at Geneva in 1949. After the General elections he was elected Chairman of the State Legislative Council.

He was a great debater and parliamentarian and a social reformer and fought for the rights of labourers and women. He has to his credit several publications.

HIGH SOULED PERSONALITY

Chief Minister, Mr. K. Hanumanthaiya in a statement expressing his deep sorrow on the demise of Mr. Bhashyam stated that he had lost a great friend and a valued colleague "That he passed away today the day of Buddha Jayanthi indicates what a high sculed person, he was."

Mr. Hanumanthaiya added that Mr. Bhashyam's life was so intimately connected with the making of the history of Mysore State over quarter of a century "He was a historical personality; a great partiot and the pioneer of Labour movement in the State. He was a great parliamentarian, an able administrator and an ideal Chairman. He was kind at heart, sweet in speech and generous to a fault. Physically, he may have passed away. But he will live long in the memory of the people."

GREAT LOSS TO COUNTRY

Congress President Mr S. Chenniah stated in a message that Mr. Bhashyam's death was a great loss not only to Mysore but to the entire country.

CHAMPION OF CONGRESS IDEAS

Mr. A. G. Ramachandra Rao, Education Minister in a condolence message stated that in his death Mysore has lost a born leader of men. He was an accredited Congress leader in Mysore. Inside the legislature, he was the champion of Congress ideals He upheld the highest traditions of the Legislature as its Chairman. He was an inspiring example for the younger generation.

Revenue Minister Mr. Kadidal Manjappa said that Mr. Bhashyam's service to the cause of Labour should ever be remembered. He left us mourning at a time when we most needed his guidance.

A NOBLE PHILOSOPHER TO LABOUR WORLD

Mr. P. Gopalakrishna Setty, Ex-Deputy Chairman, Legislative Council in a statement stated that in the untimely passing away of Sri. Bhashyam the county has indeed lost a patriot and a high class parliamentarian and renowned reformer. He was an eminent lawyer of very high order and possessed keen intellect and rare gift of oratory. He was a patriot, he made supreme sacrfices in India's struggle for freedom As a leading luminary of the Mysore Congress he really made history. He was a great friend, trusted guide and a social reformer and champion of women's cause. As Chairman of the Legislative Council his contribution was unique and possessed a supernatural flash. The halo of supreme sacrifices and the scholarship he possessed, commanded respect from everyone in the House. His personality was really inspiring. He endeared himself to one and all.

CHANGE IN THE UNIVERSITY SESSION

Mysore, 25

The special meeting of the University Senate, adopted this morning a resolution expressing its deep sorrow over the demise of Sri K. T Bashyam, Chairman of the Legislative Council.

Then the Senate adopted a resolution for the change in the acadamic year of the University as recommended by the Council: the Arts and ScienceColleges to begin from 25th May 56 and end on 31st January and Pre-Medical Class to open on May 25 and end on 31st October, the M.B.B.S. to open on 9th December and end on 31st October. In respect of Engineering College it decided to open either on May 25 or on Nov. 1.

After discussion, It adopted another amendement to Ordinance giving option for the Intermediate students to reject the results in a part or parts in which he has been declared successful and appear for the entire examination.

It gave its assent to the introduction of Post-Graduate Doctor of Medicine (D. M) and Doctor of Surgery (D. S.) degrees in the University.

The meeting was presided over Prof V L D'Souza, Vice-Chancellor.

CHENNABASAPPA FACES NO OPPOSITION

Today being the last date for the withdrawal of nominations for the by-election to the State Assembly from the Periyapatna constituency, Messrs. Annayya (P. S P.); Rangiah (Ind.); Belliyappa (Com.) and Patel Linge Gowda (Congress) withdrew their candidature. Hence Mr. Channabasappa is the only official Congress candidate left.

★Under the auspices of the Buddha Jayanthi celebration committee, Buddha's 2500th anniversary was celebrated yesterday evening in the Town Hall. Presiding over the function, Sri.S.Chenniah, President M. P. C. C, spoke on Buddha's life and teachings.

GANDHIJI ON BUDDHA

I have no hestitation in declaring that I owe a great deal to the inspiration that I have derived from the life of the Englightened One.

In Hindu culture I venture to submit Buddhistic culture is necessarily included for the simple reasons that Buddha himself was an Indian, not only an Indian, but a Hindu amongst Hindus. I have never seen anything in the life of Gautama to warrant the belief that he renounced Hinduism and adopted a new faith.

By his immense sacrifice, by his great renunciation and by the immaculate purity of his life, he left an indelible impress upon Hinduism, and Hinduism owes an eternal debt of gratitude to that great teacher.

He was saturated with the best that was in Hinduism, and he gave life to some of the teachings that were buried in the Vedas and which were overgrown with weeds.

Buddha's teaching like his heart was all-expanding and all-embracing and so it has survived his body and swept across the face of the earth.

Buddha never rejected Hinduism, but he broadened its base. He gave it a new life and a new interpretation.

One thing that the Buddha showed India was that God was not a God who can be appeased by sacrificing innocent animals. On the contrary, he held that those who sacrificed animals in the hope of pleasing God were guilty of a double sin.

Gautama taught the world to treat even the lowest creatures as equal to himself. He held the life of even the crawling things of the earth to be as precious as his own.

The Buddha said, if you want to do any sacrifice, sacrifice yourself, your lust, all your material ambition, all worldly ambition. That will be an ennobling sacrifice.

The second thing that Gautama taught was that all that caste means today—as it meant in his time also—was wholly wrong. that is to say, he abolished every distinction of superiority and inferiority that was eating into the vitals of Hinduism. But he did not abolish *Varnashramadharma-Varna dharma* is not caste. There is nothing in common between caste and *Varna*. Whilst *Varna* gives life, cast kills it, and untouchability is the hatefullest expression of caste.

The effects of Buddha's non-violent action persist and are likely to grow with age. And the more it is practised, the more effective and inexhaustible it becomes, and ultimately the whole world stands agape and exclaims, 'a miracle has happened.'

MYSORE VARSITY HONOURS THACKER AND PUTTAPPA

Mysore, 26

.At a special convocation held yesterday evening in the Crawford Hall, Mysore Rajapramukh, the Chancellor presiding, the Mysore University conferred the honorary degree of Doctor of Science on Prof. M. S. Thacker, Chairman of the Council of Scientific and Industrial Research, and the honorary degree of Doctor of Letters on Prof. K. V. Puttappa, Principal, Maharaja's College, Mysore.

The Chief Minister, and the Education Minister were present.

Introducing Prof. M. S. Thacker, Mr. V. L. D'Souza, Vice-Chancellor stated that the University was proud and happy to confer the Doctorate of Science on an eminent scientist like Mr. Thacker. He had a genius for planning and execution of projects. His association with the Indian Institute of Science was marked by many-sided progress, both in technical knowledge and its application and of human relationships.

Speaking about Prof. K. V Puttappa, the Vice-Chancellor said that being a gifted poet, he had made his mark as a poet, critic and teacher. He had been serving the cause of Kannada literature during the past two decades His contributions to Kannada Literature were highly commendable. The 'Ramayana Darshanam,' had won for him the Sahitya Academy Award, which would live for ever in the hearts of people.

Replying Prof. Thacker thanked the Mysore University for honouring him and said that he had drunk deep at the fountain of bounteous nature in Mysore. He was associated with Mysore University and its many scientific and technical institutions, undertakings and projects.

He said that science was the fountain head out of which technology welled forth. Technology permeated human life in numerous ways and it could be made basis of new humanism.

He added that rise of technology need not be deplored but its social implications had to be seriously examined. At no time in modern history it had been more important than now that Scientists and technologists should be more sceptical about the consequences of their specialities. Time had come that they should consider not what could be done but what should be done, said Prof. Thacker.

Prof.K.V.Puttappa in his reply said that foreign medium had been a great handicap in the difusion of education in the country. He stressed that if the educational system was to function satisfactorily, children and adults of each linguistic area should be taught in the language in which they were brought up from their infancy. And the University education should be in the regional language. He warned that linguistic patriotism should not be carried too far, as to endanger the good of the nation.

He was glad that Central and State Governments were now trying to bring the fruits of culture and enlightenment to the doors of the people.

REDUCE INDIA'S MILITARY STRENGTH

Mr. C. Rajagopalachari, former Madras Chief Minister inaugurating the Sarvodaya Sammelan, at Sarvodayapuram yesterday put forth a strong plea for the Government of India to reduce her military strength and thus give a lead to other nations of the World. Similar appeal was made by AcharyaVinob Bhave also from another platform and thus to demonstrate India's faith in herself and firm belief in the Sarvodaya ideal of Gandhiji.

Mr. Rajagopalachari stressed that Indians must remove the fear complex from their minds. America's Millitary Aid to Pakistan need not deter India from taking a unilateral decision on the question.

Acharya Vinob Bhave said that the World was now prepared to accept whatever path India laid down. India need not fear about Pakistan increasing her defence strength. Any reduction in the Indian defence forces would result in greater finances for improving her economic position,the said.

Reddy Urges Co-ordinated Education

Mysore, 30

Presiding over the 'Founder's Day' of the D.Banumiah's Educational Institutions yesterday here, Shri. K. C. Reddy Union Production Minister said that the problem before them was what type of education should be given to the children. Throughout the country, he said, there was an urge for a change in the present system. It was necessary to equip the student with knowledge of some kind of craft by the time he finished the High school stage of education.

Mr. Reddy regretted the lack of co-ordination between the country's need in skilled labour and the type of personnel they were producing. Although some progress had been made, he felt that it was not enough to meet the requirements of the country.

He was glad that Mysore State had taken the lead in this direction, due mainly to the initiative and efforts of Dr. M. Visvesvaraya in starting Occupational Institutes in the State. This was an example to other States to emulate. Along with Occupational institutes, the Minister suggested that vocational training should be given in the High School stage itself. Here he welcomed the suggestion of Mr. K. Hanumanthaiya, Chief Minister for giving sericultural training to students in sericultural areas. He pointed out that education should be imparted so as to avoid national wastage.

Declaring open the new Subbanna Science Block, Mr, Reddy paid tributes to the farsightedness and philanthropy of the donors Messrs. S. Narain and Nagappa and said that although it was the major responsibility of the Government in creating a 'Welfare State', private effort was also essential. He also paid tributes to the late Mr. D. Banumiah, founder of the Institute. Mr. S. Chenniah, M.P.C.C. President unveiled the portrait of the late Mr. D. Subbanna.

On behalf of the Silver Jubilee Committee, an address was presented to the donors.

The latter in their turn presented an address to Sri K. C. Reddy. Mr. B. V. Banumiah, Hon. Secretary of the Committee read the report, and the messages including that of the Mysore Rajapramukh.

INDO-PAK. TALKS ON KASHMIR

Prime Minister Nehru is reported to have told the Congress Parliamentary Party yesterday that his recent statements on Kashmir did not rule out the possibility of talks on this question with the Pakistan leaders. But he said that no useful purpose could be served by such talks if the same old arguments in regard to Kashmir which had become out of date were to be repeated. The American aid to Pakistan and Pakistan's membership of the Baghdad Pact and SEATO had to be taken note of as they had changed fundamentally and radically the situation in Kashmir, he added.

ACHARYA BHAVE AGAINST COMPULSORY EDUCATION

Inaugurating the three-day session of the All-India Basic Education Conference at Sarvodayapuram Acharya Vinob Bhave said an ideal system of education should inculcate the qualities of humanity and an urge to fight against superstition. Knowledge could not be imparted by orders and complusion. They should learn it by themselves. Students should develop discipline from within and they should not be ordered or forced to learn knowledge, he said.

He appealed to the people to cast away their 'Ahankaram'. Acharya Bhave asserted that the students of Basic Education would not tolerate the system of slavery based on injustice and inequalities.

The teachers and students, Acharya Bhave added, should consider themselves as partners in a noble task and both should feel that they were learning new things from each other. He described the Basic Education as Gandhiji's last and best gift to the Nation. Describing the initial difficulties faced by basic education, he said people did not get faith in any new system of education. It was easy to give education to an ignorant man but it was difficult to change the opinion of those who were already educated, he observed.

REVOLUTION IN THE EDUCATION SYSTEM

Union President Rajendra Prasad made an appeal to all the State Governments to achieve the big targets provided in the Second Five Year Plan under Basic Education. Speaking at the All India-Basic Education Conference yesterday at Sarvodayapuram, he declared that unless Basic Education went up to the University stage, they could not make much progress in the country. The three stages of education should not be kept in watertight compartments. The existing system of education, he said, was the main source for the present-day inequality and class distinction. They should see that these distinctions were not allowed to continue. Their aim should be that every one in the country should have equal opportunities to equip himself in whichever way he liked and basic education, when implemented successfully would bring about the necessary change, he said.

KakasahebKalelkar inhis presidential address said that Basic Education was a revolution in the whole education process. He suggested that recruitment of trainees to basic training schools should hereafter be from artisans and craftsmen from villages instead of advanced class at present. This process, he added, would remove social injustice and educational distance from the privileged classes and artisan class.

SEPARATION OF JUDICIARY

CIVIL JUDGES APPOINTED

Bangalore. 31

Comprehensive orders explaining the salient features of the separation of Judiciary from the Executive have been issued by the State Government detailing the functions of the various officers.

The function of a Magistrate fall into three broad categories: functions which are police in nature like the handling of unlawful assemblies; functions of administrative character like issue of licences for fire-arms and functions which are essentially judicial like the trial of criminal cases.

The scheme at present is an arrangement whereby all the functions of a Magistrate have been divided between two sets of Magistrates designated as Judicial and Executive Magistrates.

According to the scheme the judicial functions coming under the last category are transferred from the Deputy Commissioners and Magistrates subordinate to them to the Judicial Officers. The other functions will be continued to be discharged by the Deputy Commissioner and the Revenue Officers subordinate to him. The said Judicial Officers as well as officers of the Revenue department discharging executive functions will all be designated as 'Magistrates'. To indicate the difference, officers of the former category will be classed Judicial Magistrates and the latter 'Executive Magistrates.'

The responsibility of maintence of order will continue to rest with the Executive officers of the Revenue Department designated as Executive Magistrates. The Deputy Commissioner, by virtue of his office will have some of the powers of a District Magistrate and will be an Additional District Magistrate.

The District Magistrate will have the general administrative superintendence and control over other Judicial Magistrates in the District.

The District Magistrate and Deputy Commissioner Cum-Additional District Magistrate will act independently of each other.

The following Subordinate Judges have been appointed Civil Judges for the ten districts of State, from June:·

Messrs R. Krishna Setty (Tumkur), V·Channiah(Mysore), B N Rudrappa (Kolar), N. S. Krishna Murthy (Bellary), M. S. Bheema Rao (Chikmagalur), V. C. Ramachandra (Chitaldrug), G. Chenneraya Reddy (Shimoga), S. Govinda Sharma (Mandya), V. Narasimha Murthy (Bangalore) and M. R. Sanjeevalu (Hassan).

The status of these Civil Judges will be intermediate between that of District Judge and a Subordinate Judge.

No Bye-Elections

The Election Commission has decided that no further bye-elections should be held in the normal course in respect of vacancies arising in the House of the People or any of the Legislative Assemblies except the Andhra Legislative Assembly, in view of the re-organisation of the States followed by the next General Elections.

The Commission has felt that to hold a bye-election just a few weeks or even a few months before the General Elections would amount to an avoidable waste of time, effort and money for all concerned in as much as a member elected at such a bye-election will hardly enjoy a reasonable opportunity of representing the constituency effectively for any length of time.

DEMAND FOR FAIR PRICE SHOPS IN CITY

Mysore, 1

The City Municipal Council in its meeting yesterday, urged upon the State Government to make arrangements for the sale of food grains, as was done in Madras and other States, to check the soaring of prices. The resolution was moved by Sri B G. Das.

Another resolution moved by Sri Lingiah was passed, requesting Government of India to convert existing meter-guage railway line between Bangalore and Mysore cities into a broad-guage line immediately, keeping in view the industrial development.

The Council also requested the Government to start a post graduate training centre in Ayurveda, at Mysore, attached to the present college.

Before taking up the agenda, Mr. B. G. Das complained that the re-assessment of house-tax was not properly done. The Commissioner pointed out that there was provision for an appeal against the same

While recording monthly statements, Mr. Mir Noor Hussain pointed out that there was corruption in toll gates and to check this, surprise inspection was essential.

Mr. Muddiah stated that tollgate authorities were allowing buses, especially Government Buses without checking them.

The President accepting that there was some truth in it said that proper action was being taken and the Transport department had been addressed to give proper instructions.

Mr. Aziz Sait wanted time-tables of the City Bus Service to be printed for the convenience of the public. The Commissioner replied that it was under print.

Mr. Srikanta Sarma said that stoppage of water supply on Sundays due to general shutdown or electricity had become chronic nowadays. It was not the case a few years ago. The Department should be asked to see that electricity was supplied to the Water Works through some other line, to avoid trouble.

The President replied that they were in contact with the concerned authorities and would definitely try to minimise the hardship.

Mr. Chowdiah, Mr. Noor Hussain and Mr. T. [illegible]asimha Iyengar referred to the manufacture of vegetable ghee of various brands in the city and asked the Health Officer to examine whether these brands of ghee were fit for human consumption They wanted that open formula of the product should be given so that public might know the ingredients used. Along with this, different brands of ragi malt should also be examined, they said.

The Health Officer replied that it was beyond the powers of the Municipality to take action in the matter. Only the Government could do something under the Prevention of Food Adultaration Act. However, he added that he would visit these places of ghee manufacture and examine them.

CENTRAL ADMINISTRATION IN BOMBAY

DECISION FINAL SAYS NEHRU

Prime Ministar Nehru declared at the A. I. C. C. meeting in Bombay yesterday that the City of Bombay would be a Centrally administered area for the present and its future would be decided after a period of five years.

He pointed out that Bombay had disqualified itself to decide its future now; since it was not in a peaceful mood and there was too much of excitement and passion in the city. He however assured the people that they would be given the right to decide their future at proper time and in proper circumstances. In the new set up, they would not be disturbed in their normal avocations, he said.

Mr. Nehru declared that matters relating to States Reorganisation had been disposed off already and there was no question of reopening it.

Mr Nehru hoped that even after division of the present Bombay State into two states, the Great Maharashtra State and the great Gujerat State with Bombay City remaining a Centrally administered area the Bombay High Court would continue to serve the two States.

After Mr. Nehru had announced the proposal about the future of Bombay city, pro-Samyukta Maharashtrians met at a mass meeting, rejected the proposal and declared that they would continue their struggle for the inclusion of Bombay city in Maharashtra. About 3 lakhs of people who had gathered there adopted a resolution affirming that the people of Bombay and Maharashtra would not rest till Bombay city was included in the proposed Maharashtra. The meeting was addressed by Communist and Hindu Maha-Sabha leaders also.

WEST ASKED TO DEFINE THEIR POLICY ON GOA

PRIME MINISTER NEHRU'S DEMAND

Prime Minister Nehru demanded the Western Powers to define their attitude on the issue of Goa freely and frankly.

Speaking in a rally of over 25,000 Goans in Bombay Prime Minister declared that the problem of Goa involved national interests and national safety of India. Portugal was a member of the NATO. If the NATO powers were involved in a conflict, Goa would be affected creating embarassing position for India. "We shall not tolerate such a position", he declared.

'To be told that Portugal having been in Goa for about five hundred years, it had some right there, was no argument. The only answer is that they had been here for long and they must get out quickly', he said.

Speaking about the recent statement of Mr. Dulles and Dr.Kunha, Prime Mininster said that India considered it as highly objectionable and improper. He observed that it was an "extraordinary statement for the head of the Foreign Office of a great Power to make"

The Prime Minister further said that he wanted to know from the United States, United Kingdom, France and other Western countries, whether they accepted the political and moral views of India as laid down in her Constitution or did they accept the political philosophy of Dr. Salazar and his authoritarian Government. "We want a clear answer to this, why this hedging? What is the use of telling us that we are neutral about Goa"? he asked.

Pandit Nehru added that the problem of Goa did not depend on the size of the territory, but on the wider implications of it in national and international spheres.

The Prime Minister advised all Goans to close their ranks and form one organisation and not waste their energy in quarrelling among themselves. He declared that ultimately Goa must come to India. And Goans should decide their future, once the Portugese left them, he said.

NO TERRITORIAL AMBITION TO INDIA

Prime Minister Nehru stated at Bombay that India had no territorial ambitions or a desire to capture leadership of Asia, the very idea of leadership being foreign to India. He emphasised that India's international relations were governed by equality, goodwill and friendship.

Plea For Unemployment Insurance

Bangalore, 6

"Neither Tata nor Birla spends as much a day as Pandit Nehru or Mr Hanumanthaiya spends" and "an end must be put to this enormous expenditure" said Dr. Ram Manohar Lohia, the Chairman of the Socialist party, here addressing a public meeting yesterday

Dr. Lohia said that the present Government of India was behaving like a tyrant and that the people should take up "civil disobedience to get redress". He criticised the extravagence of the Congress Ministres who spent at the rate of Rs.2,000 to 3.000 a day. He alleged that some of the Ministers had also installed cinema houses in their residences costing lakhs of rupees.

Dr. Lohia questioned the need and the justification of putting up a stone structure like the "Vidhana Soudha", when crores of people were starving without a morsel of food.

The Second Five year Plan, he said would not solve the unemployment problem in the country, nor raise the standard of living. "Give us jobs or jails" he emphasised. When the Government were unable to provide the people with jobs, they should provide unemployment insurance, he said.

Dr. Lohia further stated that his party fully supported the Maharashtra's claim for Bombay City and that his partymen would take full part in the struggle.

His party was for "Language States and not for language mentality".

BELUR SRINIVASAIYENGAR & FAMILY MURDERED

UNHEARD OF INCIDENT IN BANGALORE CITY

Bangalore, 7

Bangalore City was shocked to witness yesterday morning the ghastly murder of an entire family of a leading personality of the city, unheard of in the annals of Bangalore.

On Tuesday night, assailants equipped with crowbars, hammers and daggers seemed to have entered the house of Mr. Belur Srinivasa Iyengar in Gandhinagar and butchered Mrs. Vengadamma (35) his wife; Smt. Singamma (75) his mother-in-law; and seven year-old twin sons Lava and Kusa and Ramalingam the watchman.

Mr. Belur Srinivasa Iyengar and his 15 year old daughter were also seriously hit. Mr. Iyengar died 12 hours after his admission to the hospital in unconscious state. The daughter is in a precarious condition.

Mr. Iyengar's two other daughters Rathna (14) and Prasanna (9) who happened to sleep in a different wing of the house escaped the massacre. They are the only two survivors of the family.

It is stated that the above two girls woke up at 6. A. M. and finding the house quiet entered their father's room and found Mr. Iyengar sprawling in a pool of blood. Shrieking in terror, the girls ran to the adjoining room and found their mother, grandmother, and twin brothers murdered and sister Rangalakshmi in a precarious condition. Outside in the verandah Ramalingam, the watchman, was also found dead with his dog doped.

Immediately thousands of people gathered round the house and the police arrived. The two ailing persons (Mr. Iyengar and his daughter) were removed to the hospital. News of this tragedy spread in the city and Ministers, leading personalities of the city and top-ranking officials arrived to see the heart-rending scene.

The assailants were stated to have force-opened the iron safe and some quantity of diamonds and other precious stones are suspected to be missing.

The Police throughout South India were immediately alerted about the incident. A pair of 'Police Dogs' were flown to Bangalore from Madras to join the man-hunt, in the afternoon. The dogs after sniffing round the scene started on the trial and moved about to Chickpet, Baleypet and City Railway Station platform, where the Chikballapur train usually starts. Thence, thay refused to move further. Later they were taken from station to station onBangalore-Chikballapur line. It is evidently presumed that the criminals had boarded the morning train towards Chikballapur.

POLICE STILL IN DARK

: RANGAVILAS' MURDER EPISODE

Bangalore, 8

In the vigorous hunt for the murderers of Mr. Belur Srinivasa Iyengar and his family, the Special Police could not make much progress beyond bringing for interrogation 30 to 40 persons whom the Police Hounds 'figured out'. No arrests seem io have been made, so for.

The Police dogs were stated to have rsturned in the morning after an all-night hunt over a region from Yelahanka to Chikballapur. Since the dogs had not responded for further inducements on the hunt for the culprits the authorities had decided to pack them off to Madras.

Vigorous hunt is continuing to trace the miscreants.

It is stated that the eldest daughter of Mr.Srinivasa Iyengar, Rangalakshmi is still in a state of coma in the hospital. And doctors are not in a position to offer hopes of her recovery.

Ranga Vilas, the residence of Mr.Srinivasa Iyengar, where the ghastly murders took place has been sealed and is in complete charge of the police. The two surving daughters Rathna and Prasanna are under the protection Sri M K. Varadarajan, Chief Electrol Officer of Mysore, brother of late Vengadamma. (Mr. Srinivasa Iyengar's wife) His residence in Shankarapuram is also fully guarded by the police.

After post-mortem on the body of Mr. Iyengar, the ten hand fingers were cut and taken for investigation purposes, and the body was handed over to the relatives.

The cremation of all the bodies was performed late yesterday night.

Improve Food Production

DESHMUKH'S CALL TO CULTIVATORS

Union Agriculture Minister, Dr Punjabrao Deshmukh has called upon the agriculturists to push up food production by bringing more land under cultivation and by intensive cultivation of crops.

In a broadcast talk over A. I. R., yesterday, the Minister gave out the fundamentals for better cultivation, like regard to seed-rate, ues of manure and fertilizers in liberal quantities and time and method of application, on the basis of research and experiments.

Mr. Deshmukh pointed out that the average production of rice during the first five years of our freedom was 2 crores and 16 lakhs tons per annum and from 52-53 to 55-56, it increased to 2 crores and 50 lakhs, i.e. more production of about 34 lakhs tons during the last five years. In respect of wheat the average production increased by 20.7 lakh tons per annum.

The production of cereals, he said, increased on an average of 1,12,50,000 tons per annum. Total food grains increased by 1,27,00,000 tons per year. The total imports of foodgrains was 47 lakhs tons costing Rs 244 crores.

The Minister stated that the campaign for sugar-cane crop also yielded considerable increase, to the tune of 40 per cent. The production of sugar in 55-56 recorded an increase of 75 per cent over the average for the last twenty years.

Concluding, the Union Minister said that it was proposed to establish a net work of co-operative credit societies to offer financial assistance to the cultivators and also to provide better marketing and ware-housing facilities for agricultural produce to ensure better returns to the cultivators.

BELUR'S DAUGHTER REGAINS CONSCIOUSNESS

Bangalore, 12

Rangalakshmi, fifteen year-old daughther of Belur Srinivasa Iyengar has regained consciousness and is slowly recovering. It is stated that she might be able to throw much light upon the happenings, when she is fit enough to speak.

Krishna, his brother Muniswamy (both old offenders with several convictions to their credit) and another, Govinda Reddy, a lorry keeper in Gandhinagar were arrested by the police in connection with the famous "Rangavilas' mansion mass murders of Belur Srinivasa Iyengar and his family. The police after brisk work had recovered much cash and 35 pieces of jewellery from the house of Krishna.

The police are still going on with their detective work without allowing the zeal to cool down, to unearth the whole bunch of gangsters responsible for the whole sale killings.

According to the police Krishna and Muniswamy had both undergone sentences several times for house-breaking and theft.; and that Muniswày had only recently come out of the jail. Incriminating articles were found on the person of Govinda Reddy.

In the meanwhile the three arrested persons who are all releated to each other were produced before the City Magistrate and remanded to police custody.

Better Future For Insurance Agents

HANUMANTHAIYA'S ASSURANCE

Mysore, 12

Mysore Chief Minister Sri.K. Hanumanthaiya presiding over the fourth conference of Mysore Government Insurance Agents yesterday at the Town Hall referred to the nationalisation ofInsurance companies and said that the Insurance Agents need not have any fear about their future, as their interests were quite safe with the Insurance Corporation. He said that with much reluctance, he had to hand over the Insurance department to the Central Government, in view of the new set-up in the country.

Mr. S V. Krishna Murthy Rao, Deputy Chairman of the Rajya Sabha, inaugurating the conference said it was the sole responsibility of the Government to look after the welfare of the people. The present Government were striving their utmost in this direction to improve the economic conditions of the people.

With a view to remove the various defects and irregularities in the working of the department and to inculcate a spirit of savings among the people, the Central Government had to nationalise the Insurance companies. As the insurance agents were the back-bone of the insurance business they need not entertain any fear of their interests.

He said that the their future would be brighter, if they worked with greater zeal and vigour. He asked them to consider themselves 'Dharmadarsis' and to work hard.

Mr, M. C Kumar welcomed the guests and presented a report. Messages from the Rajapramukh, Governor Pattabhi Sitaramiah and Dr. M. Visvesvariah were read.

"MUTHAIDE BHAGYA"

A preview of the picture "Muthaide Bhagya" of Vittal Productions was arranged for the press at the local Chamundeswari Talkies on Friday last.

The picture is a social drama depicting the repercussion of the Hindu Code Bill on a Hindu family.

On one side is shown a go-lucky girl who thinks that she can conquer anything through her look and beauty and gets the support of the mother and a girl friend in her deeds. On the other, there is a couple noted for good qualities.

All the difficulties experienced by the couple in getting a boy and marrying him to the freedom-loving girl are portrayed. It concludes like any other picture in the success of justice and piety, over vice,

The Director has utilised much humour, and dances to make it appeal to the people.

UNITY CAMPAIGN

The All-India Youth Congress Convention at Hyderabad took a decision, at the conclusion of the three-day session for a nation-wide unity campaign and celebration of the "National Unity Day", on August 9. The convention recommended not only inter-caste marriages but also inter-State marriages. It further suggested to the A. I. C. C. not to select candidates for election on communal basis.

Among others, the convention discouraged students from active participation in politics and urged formation of moral rearmament committees in the colleges to oppose indiscipline and hooliganism among students.

It called upon students voluntarily to participate in working Second Five-Year Plan and suggested to call for a convention of countries subscribing to the 'Pancha Shila', in India.

NO DISAPPEARANCE OF PRIVATE SECTOR

Bangalore, 13

The Government of India did not want the disappearance of the private sector from the field of industrial development but what it aimed at was merely the division of work in the public and private sectors, said Sri K.D Malaviya, Union Minister for Natural Resources, while replying to a welcome address by the Mysore Mine Owners' Association at a luncheon party, here, yesterday.

The mere fact, added the Minister, that the Government wanted to control the production in all the key-industries did not imply that it wanted to discourage the private sector from their work in which they were engaged. He however, added: "We have made provision in every way possible to see that the money invested and the energy applied in the private secor is not in any way wasted and the incentive taken from it.".

MORE CLOTH DUTY LIKELY

The Union Government are considering a number of proposals for increasing the production of cloth and stimulation of textile production.

The possible readjustment of production of cloth as between mill and handloom sectors in the light of the proposed Ambar Charka programme, levy of an enhanced excise duty on cloth, introduction of a third shift in the mill industry, automatisation of a few mills and stricter quality control over exportable cloth are some of the proposals.

RANGAVILAS MURDER CASE

Bangalore, 14

Police are busy preparing the chargesheet in connection with the murder of Belur Srinivasa Iyengar and others and it is expected to be filed during the course of next week. Disclosing this, the I.G of Police told pressmen, that it would disclose some **amazing** things.

The old K. D. Chinnaiah of Ananthapur said to be a resident of Bangalore at present, who disclosed clues for the arrest of Krishna is still in the police custody. It is stated that Chinnaiah was moving about in the mid-night of the day after the murder with a crow-bar. The Police petrol who saw him chased and brought him to Seshadripur police station

When questioned, he said that he would disclose very useful material only to high police officials.

Immediately, the I.G. ofPolice and others arrived at the station. Chinnaiah gave certain details about Krishna's attempt a few days earlier to burgle the house of Mr. Belur Srinivasa Iyengar. It is stated that Chinnaiah also was a close associate in this attempt.

It is stated that a Special Court would be set up to try this case.

Sri. B. T. Revanna, D S. P. has been appointed as the Investigating Officer of this case.

Rangalakshmi, daughter of late Srinivasa Iyengar is said to be improving, though she has not yet fully recovered her power of speech. Doctors are of the opinion that she would be able to speak well, in the course of a week. Police protection to her has been strengthened and no visitors are allowed to see her.

RELIEF MEASURES IN MYSORE DISTRICT

Bangalore, 14

Owing to failure of 'Mungar' rains in the Mysore district this year seasonal conditions have been affected in the taluks of Nanjangud, Gundlupet, Chamarajanagar, T.Narasipur and Yelandur. With a view to provide relief to the raiyats, measures were taken including starting of all irrigation and other works included in the current year's budget and those proposed to be undertaken under lumpsum provision inclusive of desilting works.

Proposals are under way to take up large number of irrigation and similar works at a cost not exceeding Rs 2,500.

In addition to the privilege of free grazing of cattle, villagers in the affected areas are permitted to cut and remove grass from State Forests for a period of two months without any charge. The local Revenue officers have been given the discretion to grant time for clearing revenue arrears in deserving cases and not to take coercive measures for recovery in any case.

Arrangements are also being made to stock quantities of seed ragi and paddy for meeting the demands of the farmers. In addition to Rs.20,000 placed at the disposal of the Deputy Commissioner, Rs. 50,000 has been granted for carrying out relief works through Revenue agency, and a further sum of Rs 35,000 for fodder supply, on a no-profit basis, the cost of its transport being subsidised. For grant of Takkavi loans in these taluks, Rs. 20,000 has also been sanctioned.

A reasonable amount out of the sum allotted to the district is set apart for doling out food grains to helpless poor.

PRIVATE SECTOR NOT SHUT OUT

Bangalore, 14

At the fourth meeting of the Mineral Advisory Board which concluded here yesterday, Mr. K. D Malaviya, Union Minister for Natural Resources and Scientific Research, said that the new Industrial policy resolution did not shut out the private sector at all. It contemplated the exploitation of minerals in the schedule "A" in isolated areas. The private sector, he said would be given the mining leases for areas already prospected and renewals of existing mining leases would also be permitted, if rules permitted, he said.

AGENCY FOR STATE OWNED PRODUCTS

Bangalore, 14

A proposal for the establishment of an organisation to deal with the sales of products of the Government-owned and aided industrial concerns was under consideration for some time past. The question was examined in all its aspects by the Board of Management of Industrial Concerns and it was resolved to drop the scheme. With a view to allaying any apprehension in the minds of the merchants in general and the agents in particular that the sales of such products through them would cease, it is announced that the existing system of the sales of these products will continue.

UNIVERSITY SHOULD BE AUTONOMOUS

Bangalore, 14

Mr M.P.L. Sastry, member of the Mysore Senate said here yesterday that the University education had become wooden, mechanical and lifeless and no attempts had been made to build academic traditions. The initiative and resourcefulness on the part of the teacher had disappeared due to the vicious recruitment policy and the poor salaries. He stressed that the University should be free from Government control. Education should be declared out of bounds for economic exploitation and that leadership in education should be restored to the teachers.

RED CROSS MILK CENTRES

Mysore, 14

The Deputy Organising Secretary of the Indian Red Cross Society, Mysore State Branch will be touring in the affected areas of the district from today upto June 24 to organise Red Cross Milk and Gruel centres to afford relief to affected people in the taluks of Nanjangud, Chamarajnagar, Gundlupet and T. Narasipur.

RURAL ELECTRIFICATION SCHEMES

The extent to which Indian's rural electrification schemes under the Second Five Year Plan depend upon a well-planned policy of afforestation and forest management became apperent during the Plenery meeting of the Standing Committee of the Central of Board of Forestry which concluded its five-day session at Srinagar yesterday.

For a phased programme of electrical supply to 10,000 villages, involving nearly 35,000 miles of transmission line, about 850,000 poles would be required during the Second Five Year Plan. A correspondingly large quantity of crossarms, bracings, pins, etc., would also be needed. According to expert opinion, the use of wood instead of steel for transmission poles is likely to reduce capital costs by Rs. 1 5 crores and the demand for steel by 45,000 tons.

20 DIED OF STARVATION IN MYSORE DISTRICT

M. P. CHARGES UNDER ASSESSMENT OF FAMINE CONDITIONS BY GOVT.

Mysore, 18

Mr. M. S. Gurupadaswamy, M.P. charged the State Government and official machinery of failure to assess the exact famine conditions prevailing in Nanjangud, and T Narasipur sub-divisions.

Mr. Gurupadaswamy, the P S P. leader toured round the famine areas recently and gave an account of his impressions, to the pressmen yesterday.

He said that the people in Mysore district had been affected seriously due to the failure of seasonal rains. There was no food to the people and no fodder to the cattle. Wherever he went, the villagers asked him " give us food or give us death". They were obliged to dispose off good number of their cattle for the sake of existence, selling them to slaugter houses at cheap rates. The fodder supplied by the Government was very scanty and costly too. The Government, he said, should subsidise the sale of fodder at least by fifty per cent.

Mr. Gurupadaswamy disclosed that there were about twenty deaths in the village of Badanaguppe of Chamarajanagar taluk alone and several cases of starvation.

The people were eating roots and tender leaves, which he said even animals would not touch. The Government should immediately declare the whole area as famine affected area and should seek help from the Union Government.

The present help of about Rs. $1\frac{3}{4}$ lakhs was nothing considering the situation and it was "an apology for help."

The population affected was at least about 4 lakhs and the help rendered could not fetch even a meal for a person. Immediate steps should be taken to give doles to the affected people. Here he disagreed with Sri S. Chenniah, MPCC. Chief who said that doles tended people to become idle. Mr. Gurupadaswamy declared that doles were given to affected people not to encourage idleness but to help them to survive.

He wanted that grains should be supplied to the poor at their doors.

He said that the same conditions which prevailed in Kolar during last year were being experienced in this district this year. He failed to understand why the Government did so much for Kolar and nothing for this district.

Apart from the small reliefs, he suggested that the Government should sanction at least Rs. 10 lakhs for immediate short term relief, for launching upon works, providing employment

Let the Suvarnavathi project proposed to be taken up next year under the II Plan be undertaken now alone and the Centre be asked to take up the Satyamangalam Chamarajanagar Railway as a famine-relief work immediately ,he suggested

Concluding Mr. Gurupadaswamy urged the Government to seek co-operation of all parties, to relieve the famine in this area.

STRINGENT ACTION TO CHECK SOARING FOOD PRICES

Chennabasappa's Assurance

MINISTER TO MEET ELECTRIC CONSUMERS

Mysore, 20

Sri. H. M. Chennabasappa, Minister for Agriculture, at his first Press conference today, after his assumption of office, assured that the Government would immediately take stringent measures to check the soaring prices of rice and other foodgrains in the State.

He also said that he would be glad to hear representations from those who had been affected by the increase in electric rates and try to give them suitable relief, without loss of revenue to the Government.

Earlier Mr. Chennabasappa expressed his gratitude to the electorate of Periyapatna Taluk for their adjudication in electing him to the State Assembly once again.

During the course of the conference the Pressmen appraised the Minister with the soaring prices of foodgrains. Rice which was being sold at Rs. 50 last week had gone up now to Rs. 58 and similarly, prices of other commodities had also gone up. Though there seemed to be sufficient stock of rice with the merchants and the rice-mills, artificial scarcity had been created. Though the Governments in the adjoining States had taken some relief measures, nothing was so far done in Mysore, they said.

It was pointed out that there were three courses open to Government to adopt at once : to release the Government stock of rice, secondly to arrange for withdrawal of credits on rice given to merchants by Banks and lastly to arrange to bring to open market hoarded stocks in the mills and with the merchants.

The Minister stated that he would discuss this important matter with his colleagues in the Cabinet and take immediate action, to check the soaring prices.

Regarding the enhanced rate of electric power, the Pressmen pointed out that consumers of lesser power were hit hard more than the bulk consumers. In several cases they had been asked to pay 600 to 800 per cent more than what they were paying earlier.

The Minister agreed that the new scheme had hit the less consumer. But the enhancement was mede on a broader principle. He stated that since the inception of electricity in the State, the Department had not earned any profits and was working at a loss. Being a commercial department, it was unwise to work the department at a loss and to reimburse the loss out of general revenues paid by non-consumers.

But, with a view to give possible relief, the Minister said that he would meet the consumers who were affected by the enhanced rate on 28th of this month, when he would be at Mysore, along with the Chief Electrical Engineer.

The Minister stated that instructions would be issued to the Electric Department not to take coercive measures, for non-payment under the revised rates, till the end of this month in view of his proposal to hear the consumers on this.

He agreed to consider the question of shifting the agricultural office at Mysore Horse and the Education Office, in the Third Infantry buildings to the heart of the city as they were far away from the city proper.

Later, the Minister left for Periyapatna, to attend a meeting of local Congress workers. In the evening he returned to Mysore and left for Bangalore.

NEED FOR INTEGRATED SYSTEM IN COOPERATIVE MOVEMENT

DIAMOND JUBILEE OF CITY' CO-OP. SOCIETY

Mysore, 23

"There is a paramount need for a well-integrated system of official and non-official agencies to help Government in the development of co-operative endeavour. Early measures should be taken for creating a proper climate for the growth and development of this great movement." declared His Highness the Rajapramukh inaugurating this morning the Diamond Jubilee of the City Co-operative Society, at the Town Hall.

The function was presided over by Sri S. Chennaiah, M. P. C.C. President

His Highness stated that co-operation was indeed both a system and a spirit; a method of working and a moral force; a form of organisation with legislative sanction and a method of economic working, enabling smaller units to pool their resources together for their common welfare.

They must realise, the Rajapramukh stated that though much had been accomplished yet great deal remained to be achieved There was a vast field for application of co-operation in the infinitely varying forms of economic development in the pursuit of democracy. The strength of cooperation came from reletively small and homogenous groups functioning actively. Institutions like the agricultural credit, marketing and processing, consumer's cooperative stores were some of the organisations appropriate to work on the co-operative method, which formed the principal basis for organisation of economic activity on a national scale. If the farmers and those engaged in small industries were to find a place in the economy of the country, it must be achieved only through co-operation.

In our State, the total expenditure on cooperative schemes during the Second Five Year Plan had been placed at nearly Rs. 3½ crores The targets included the reorganisation of 400 large scale societies and 81 marketing societies, construction of 300 ware houses and the issue of short term, medium and long-term loans.

His Highness commended the bright record of achievement of the City Co operative Society, being one of the oldest and foremost of such institutions in the State.

Union Minister for Food and cooperation Mr A. P. Jain speaking on the occasion stated that in the Second Plan, 10.000 more large-size mutli-purpose cooperative societies would be established, each society covering five to ten villages, with a share capital of about Rs. 20,000; working capital of Rs. 2 lakhs. and 500 members drawn from the villages.

These would provide implements, cattle, clothes and other necessaries for the farmers besides function as marketing societies.

Speaking about the advance of credit to farmers, the Minister emphasised that credit should be not on the security of land but on the security of prospective crop, so that there would be an equitable distribution. With this end in view, producers agricultural cooperative societies were being established in the country, he stated.

Here he appealed for proper leadership in the movement, which was lacking at present.

The Minister announced that Government would be sending two teams of cooperators and planners to China for an intensive study of cooperation there Deputy Food Minister Sri M. V. Krishnappa would be one of the members of the team.

Concluding the Minister hoped that this Mysore City Co operative Society would develop ten-fold in the next five years and thus enable the State to be a model for the whole country in the field of co-operation.

Dr. R Nagan Gowda, State Minister unveiled the portrait of late Sri C. Narasimhiah, ex-President. Among others the function was attended by Messrs. M. V Krishnappa, Union Deputy Food Minister, H. M. Channabasappa, State Agricultural Minister.

Earlier Mr B. N. Kenge Gowda, President of the Society welcomed the guests and presented an address to the Rajapramukh.

Humanise Administration

Mr. K G. Saiyidin, Educational Advisor to the Government of India suggested that arrangements should be made to provide training for educational administrators, both in the personal qualities and the techniques required for successful direction of policies and projects.

Inaugurating the Seminar on Educational administration, at Srinagar he remarked that the first business should be to humanise the administration. Instead of comradeship of work, there was often a rigid official heirarchy, a vicious circle which he observed, must be broken.

He stressed the need to maintain and multiply field contacts and to come into vitalising touch with live problems and active features. He advised educationists to develop sound techniques of appraisal, so that whatever was good and promising in their field work might be put across widely and whatever was weak or inefficient might be eliminated.

MORE RELIEF FOR DROUGHT-AFFECTED AREAS

CENTRE TO GIVE 30000 PALLAS OF RICE AND OTHER FOOD ARTICLES

Mysore, 25

Sri A. P. Jain Union Food Minister announced that the Centre would come to the aid of the State Government in affording relief in the distressed areas in Mysore District.

Speaking to pressmen on Saturday last here, the Minister said that out of the Central reserve of 60,000 pallas of rice at Bangalore, they would issue 30000 pallas to scarcity areas at Rs. 14 per Bengal maund which would be about 2½ seers per rupee. Besides the Union Government would supply free 5000 maunds of milk powder, 5000 maunds of ghee and 2500 maunds of rice for feeding school children in the affected areas.

The Minister said that any expenditure incurred on the supply of food and fodder as well as on relief works, would be borne equally by the Central and the State Governments If the State Government was short of funds, he added, the Centre would advance loans to meet a portion of the State's share of expenditure.

Sri Jain also disclosed that the Centre would be ready to release any amount of rice at Rs. 16 per maund to the State Government, it needed.

Referring to scarcity of sugar he said that the Mandya Sugar Company had been asked to release sufficient quantities for sale.

Release Of More Sugar

Bangalore, 25

The Mandya Sugar Company have made arrangements for the retail sale of sugar at Bangalore at Rs. 95 per bag per buyer, including sales tax and octroi, besides retail sales at Mandya at Rs. 93 including octroi.

Wholesale dealers would also be given another quota at Rs. 88 per bag from June 25. The co-operative societies from all parts of the State, which are running provision stores have been requested to come forward in large numbers to buy sugar for distribution at a fair price.

The Government of India have arranged for regular movement of sugar by special trains from factories in Northern India to the destinations in the South where at present there is a keen demand for sugar. The special trains wil start from this week and stocks will be maintained in several places in the South including Bangalore.

SENATE ELECTION RESULTS

News delayed is no news, even as justice delayed is justice denied. Whether of general elections or by-elections or to any statutory body for that matter results are always keenly awaited not only by the contestants but also by the general public. Under democracy all institutions including Government with its various departments owe a great responsibility to the public, who are the ' De Jure ' masters.

When we approached the University Registrar yesterday for ,the results of the elections to the Senate we were told that the Government were alone competent to publish it that too in a Gazette and he could not give out the news.

Elections are not an every day affair. They are held periodically or as and when they are necessitated. On such occasions, it is for the Government to give proper instructions to concerned Heads of Departments for releasing them to the Press. But in this particular case, the paradox is that the news has to go to Government at Bangalore and retransmitted to Mysore. Another anamoly is that Mysore being the headquarters of the University it carries no conviction to say that it would be released at Bangalore after the approval of the Government. Even the results of the general elections are announced at the spot as soon as counting was over. What makes the University not to publish the results after counting was over is ununderstandable. It is hoped that the Government would take suitable action to set right the matter.

NO FOOD SCARCITY IN MYSORE

UNION DEPUTY FOOD MINISTER'S STATEMENT

Bangalore, 27

Sri M. V. Krishnappa, Union Deputy Food Minister said that in the drought affected areas of the Mysore District, there prevailed "money scarcity" and not "food scarcity".

Mr. Krishnappa, who toured these areas along with some M. Ps and M. L. As in a statement said here that people should be given employment so that they could earn purchasing power to procure food-grains. There was no dearth for foodgrains in the market but they had not enough employment due to absence of agricultural operations since rains failed in April, he added. He suggested the opening of relief works such as laying and repairing of roads, digging and desilting of tanks and wells. The people in the area should be given Takavi or distressed relief loans and this relief must extend especially to the lower middle class people, the statement said.

The Minister said that he paid surprise visits to the grain shops and found ample food everywhere, Ragi was being sold at 3-3/4 seers a rupee and rice about 1-3/4 seers As soon as the Government announced their plan to sell rice at subsidised price, the prices of food grains came down and when stocks moved, they were further bound to come down to normal.

Speaking about fodder the Minister stated that this was the most important problem in this area. There was great scarcity of fodder and in many places leaves were being cut to feed the cattle. So immediate action had to be taken to move sufficient quantity of fodder from nearby districts to the affected areas. Government, he said were at present sending some fodder and that was not sufficient.

Tha Deputy Food Minister promised sufficient help from the Centre for the affected areas.

NOTES NOT LEGAL TENDER

The Government of India have announced that all currency notes of the Government of India and bank notes other than those bearing the Asoka Pillar emblem in the design and in the watermark shall cease to be a legal tender except at the branches of the Issue department of the Reserve Bank of India and Government treasuries, including the sub-treasuries and such branches of the State Bank of India, Hyderabad State Bank and Bank of Mysore Ltd., who are acting as agents of the Reserve Bank of India.

AFTER-CARE WORK

The Chairman of the Central Social Welfare Board Mrs. Deshmukh said at Madras that 80 large homes and about 350 district shelter homes would be started in the Country for helping rescued women in their after-care work. The first handicap they had in tackling the problem of rescued women was the absence of sufficient data, she said.

Mrs. Deshmukh said that five homes for each State on the State level and five homes for centrally administered area would be started. Each home would cater to 100 inmates. In addition there would be one shelter home in each district of the States. About 450 supervisory staff would be trained to man these homes. The entire plan is expected to cost about Rs. 10.5 crores.

Another question was the lack of legal protection to what they did, she added. No State had extra-territorial jurisdiction to enbale a person to be arrested if he escaped and went away to another State. She pleaded for sufficient law support in the field of social service. They needed strong protection not only from the financial but also from the security point of view.

FREE AND COMPULSORY EDUCATION

Mysore, 28

Dr. Shrimali, Union Deputy Education Minister declared that the objective of both Central and State Governments was to provide free and compulsory primary education as laid down in the Indian Constitution.

Laying the foundation-stone for the Vidyodhaya Students' Hostel at T. Narsipur this morning Dr. Shrimali said that people in larger numbers should take keen interest in pooling their resources and participate in the development of education in democracy. Otherwise domocracy could not flourish. It was a happy augury that in Mysore, private sector had developed a happy tradition in cooperating with the Government for educational develepment, he said.

Stressing the need for multi purpose schools, he said, that they were being started all over India to provide variety of course at the High School stage and at present there were 400 such schools. These were schools of democracy where different kinds of interests and abilities of students were developed to the fullest extent, thereby preparing them to take up the responsibility of citizenship.

State Education Minister, Mr. A G. Ramachandra Rao who laid the foundation-stone for the recreation and meeting hall said that no child in the country should be left without education. He wanted Indian society to become foremost in the world and education was the greatest means of achieving this objective.

Agriculture Minister Mr. Chennabasappa presiding over the function suggested that education should be given up to the Secondary course to all and those with special talents and intellgence might take to higher education.

SCHOOL BUILDINGS

The Government of India have suggested to all the State Government to effect all possible ecanomies in the matter of school buildings, especially in the building of elementary schools in different parts of the country.

In a circular sent to the State Governments, the Centre has pointed out that during the next five years the country would be faced with the problem of planning a considerable expansion of educational facilities within the limited resources made available. As a rise in the teachers salary and provision of minimum equipment were pressing problems, economy should be effected in the construction of school buildings. They have proposed the construction of the buildings on the model of village houses, care being taken of certain reasonable minimum standards of spacing, lighting and hygiene being observed. Free labour has to be enlisted from the villagers themselves materials, being supplied by the Government or local bodies and a small grant towards the construction considering the size of the school house.

Relief Measures In Distress Areas

Mysore, 29

The Mysore District Distress Relief Advisory Committee which met yesterday, Mr. H. M. Chennabasappa, Agriculture Minister presiding, decided to distribute Rs. 1 lakh to each of the taluks of T Narasipur, Chamarajanagar, Gundlupet, Nanjangud and Mysore and Rs. 50,000 to Yelandur, for immediate relief works, out of Rs. 10 lakhs sanctioned by the Government.

Out of this one lakh, Rs.30000 will be utilised for irrigation works, Rs. 60,000 on communications and Rs.10,000 on other works.

Regarding the question of fodder, the committee decided to utilise funds from the Reserve' to rush fodder and sell at subsidised rate of 4½ pies per lb. Coarse rice was decided to be sold at 3 seers per rupee only to labourers engaged in relief works, either in kind or in coin through co-operative societies or Government fair price depots.

It recommended that Rs. 10 lakhs should be granted for Takkavi Loans and Rs. one lakh to be placed at the disposal of the Deputy Commissioner for distribution among the ryots in distress areas, pending sanction from the Government.

With a view to step up Khadi production it was decided to approach the Government for a loan of Rs. 3 lakhs.

Mr. H. M. Chennabasappa assured that all possible measures would be taken to afford relief to the people and works would be undertaken immediately.

Walk-Out In Ml. Council

Mysore, 29

The Opposition party in the City Municipal Council staged a walk-out yesterday as a protest against the policy of the Congress party to elect two members to the Trust Board.

When the names of Mr. Puttaswamy and Fr. Audieu were proposed, by the Congress party, Sri B. G. Das opposed stating that the Congress party had failed to give equal opportunity to the opposition.

The leader of the opposition Sri B.K. Ramakrishnaiah pointed out that while the Congress always expressed co-operation from the opposition, in practice they did not follow it, and they had proposed their own party men to the Trust Board. As a protest against this aititude, they would stage a walk-out, he said. Later the above two members were elected to serve on the Trust Board.

The Council also adopted resolutions to shift the 'Gujari' from its present location near the Town Hall to some other place, sale of mutton and other varieties of meat in separate places in the Mutton Market and also to take immediate action for the construction of a sports stadium in the City.

As regards the resolution relating to the celebration of Golden Jubilee of the Municipality, it was referred to the Managing Committee.

★ The 39th International Labour Conference at Geneva called for a new convention to ban forced labour as a violation of the 'Rights of Man'.

Electric Consumers Meet Minister

Mysore, 26

A deputation of consumers of electric power in the city met Mr. H.M Chennabasappa, Minister in charge of Electricity, yesterday and placed their difficulties arising out of the recent enhancement of electric rates and requested him to take immediate steps to reduce them

Mr. Agaram Rangiah suggested that the Government should give six months' time to the consumers before revising the rates, fix up the minimum on the basis of the average consumption of previous years and not arbitrarily, as has been done now. However, he said that rates might be raised if necessary, to Rs. 0-1-9 per unit, if they should have a profit of Rs. 30 lakhs.

Mr. Chennabasappa replying stated that the Electrical Department was being run on comercial basis. It had earned so for, only 44 lakhs as net profit on a total capital investment of Rs. 27.84 crores. This showed that the profit was only 0 25 per cent

The Minister observed that the rates prevailing in Mysore were the lowest in the whole country. If the Electricity Act was fully implemented, the administration would go over to the Electricity Board and the conditions then would be entirely different, he said.

He suggested to the consumers to fix up motors of required Horse Power for their consumption and not more. He accepted that the photographers had been hit hard by the revision of rates and promised to look into the matter and take proper action.

Messrs. Chunche Gowda, Janardhan Naidu, Sitaram, Puttanna and others also detailed their grievances.

In a message to the India-China Friendship Association of West Bengal, on the occasion of the second anniversary of the Declaration of the Panch Sheel on June 28, the Prime Minister has stated: "These Five Principles have now become international coin."

"I have no doubt that these Five Principles must necessarily form the basis of international relations. If that is done fully, then there should be no question of war."

INDIA CAN BE RID OF MALARIA

Dr. Faul F. Russel, Malarial consultant to the World Health Organisatian who visited India several times expressed opinion that India could successfully rid herself of malaria completely within the next ten years.

Dr. Russel was of the view that it was no accident that India was making rapid strides towards malaria control; but she had a well-conceived malaria control programme, and was proceeding with good momentum. India had the necessary well-trained personnel in malariology and the know-how to make the best advance in the direction of control of malaria.

MPCC PRESIDENT'S TOUR

Mysore, 2

With a view to gain first-hand knowledge of the situation arising out of the failure of seasonal rains and the consequent distress conditions of people, and in accordance with the requests of the District Congress Committee, Mr. S. Chennaiah, President, Mysore Pradesh Congress Committee will undertake a tour in affected taluk of Chamarajanagar on July 6 and 7.

CO-OPERATION IN REVOLUTIONERY PHASE

Union Food and Agriculture Minister Mr. A P. Jain, speaking at the conference of State Ministers on co-operation at Mussooree stressed that the co-operative movement was entering a revolutionery phase and the old and outmoded laws, meant for rural credit cooperatives could no longer meet the changing situation in the country.

The Minister stated that the large expansion of co-operation in the Second Five-Year Plan was based on report of the Rural Credit Survey Committee. Rs. 47 crores was allotted in Second Plan as against Rs. 7 Crores in the First Plan. A good portion of Rs. 200 crores earmarked for small village and cottage industries was likely to be available for co-operatives.

The Minister pointed out that efforts would be made to revitalise existing small societies.

The Central and State Warehousing Corporation would operate warehouses at 350 important trade centres, the storage capacity being 2.5 to 3 million tons.

In the new co-operative policy faith should be created in the minds of farmers thorough proper incentive and propaganda about the greater efficacy of co-operative as an economic unit and of its higher social value. To reach the target, under the Second Plan, they would require about 20,000 to 25,000 trained workers by 1960-61 which meant that every year they must train not less than 5,000 persons in the co-operative, he said.

28 wagon loads of rice, milk powder, butter oil and other food stuffs valued over Rs 10 lakhs arrived here this morning by a special Goods Train. Immediately, 18 wagons left for Nanjangud and Chamarajanagar Of this 11 wagons are meant for distribution in Nanjangud taluk and 7 in Chamarajanagar taluk. 10 wagon loads left in the City Station would be distributed in Mysore taluk.

These articles were received yesterday at the Bangalore Railway Station by the Revenue Minister Mr. Kadidal Manjappa, from the Union Deputy Minister Mr. M. V. Krishnappa, who specially arrived at Bangalore, from Mussooree for the purpose. A brief ceremony of handing over was held in the platform. On behalf of the State Government, the Revenue Minister thanked the Union Food Minister Mr. Jain and the Deputy Minister Mr. M. V. Krishnappa, for the gesture of Central Government to succour people in their distress.

Sri Krishnappa said that four special trains carrying rice had already left for Mysore district, where arrangements had been made for sale at concession rates. As many as 6 lakhs of people had been affected in the district and proper relief measures were alredy taken by the Government.

Here Mr. Krishnappa revealed that he would meet the bulk consumers like the hotels and restaurants with a view to examine the possibility of giving them bulk supply to last for about six months so that they need not draw food grains from the markets, thereby creating scarcity and spurt in prices.

FOOD STUFFS TO HOTELS

Bangalore, 4

Union Deputy Food Minister Mr. M. V. Krishnappa met yesterday the Hotel proprietors in Bangalore city and others. He explained to them that in addition to the supplies of food grains from the Centre to the State, necessary arrangements would be made to sell rice, wheat and sugar direct to bulk consumers like hotels, hostels, and orphanages from the Central go-downs at the same price.

This was meant to relieve the pressure on the local markets considerably and to bring down the prices. He said that hotel industry was an important branch in the food industry like diarying and that they would be recognised as such very soon. He requested them to co-operate with the Government in their new proposal.

KRISHNA A WANTED MAN

SIMPLIFIED METHOD OF VOTING

A new proposal for the simplification of the present voting system in elections has been evolved. The idea is to print on ballot papers names of all the candidates of a particular constituency with their symbols and the voters would be asked to put a mark against the name of the candidate of their choice. There will be only one ballot box for all candidates and not one each as at present and the voters would be asked to drop the ballot paper in the box. This procedure would be followed initially in big cities and towns, if State Governments approved of it.

The State Governments have also been asked whether the question of introducing identity cards with photographs for the voters to avoid impersonation would be feasible.

NO-CONFIDENCE MOTION

The political atmosphere in Mysore is not what peace-lovers would like it to be. And those who had closely watched its ebb and fall since Sri. Hanumanthaiya's Cabinet came to power would not be perturbed over it. The current move for a 'No confidence' against the Chief Minister is neither opportune nor desirable.

When the administration was switched over from the hands of Sri K. C. Reddy to those of Sri Hanumanthaiya, false prophets predicted a cabinet crisis within a short period of taking over charge. But they were sadly disappointed. Mr. Hanumanthaiya belied all wishful thinkings of his political opponents. He gave indications of grit and efficiency in the administration. The then Congress President Sri Nehru curbed down the opponents to move such a motion.

Again in 1954, Sri. Hanumanthaiya was directed by the High Command to get a confidence motion passed, due to the machinations of his opponents. Then he got out unscathed.

The State Government under his guidance has now embarked upon several projects, under the Second Plan, which are in different stages of progress. For the successful completion of these undertakings, continuity of administrative vigilence and control are essential. But there are those who will trot out the theory that 'no man is indispensable'. To them we would say 'it is not wisdom to change administration as one would change his coats.'

The allegation against Sri Hanumanthaiya, seems to be his commital to the principle of New Karnataka State. Sri Hanumanthaiya has done what anyone in his position as Chief Minister could and should have done, knowing the trends of the States Reorganisation, the formation of New Mysore or Karnataka being inevitable. Sri Hanumanthiya foreseeing this acted wisely. This is neither a sin nor a crime to warrant a censure from his own partymen.

Another allegation against him is said to be heavy expenditure on the construction of the Vidhana Saudha. This is not a new point. A committee has already been set up to go into the matter. If Sri Hanumanthiya is really guilty of the charges, if there be any, he would certainly answer them. It would be time enough then for Congress High Command to take disciplinary action, if needed.

Besides, on the eve of the formation of a New State in the offing and the General Elections, it would be harmful to allow such a motion, which we are sure, would pollute politics in the State and lead to all kinds of undesirable acts. It is hoped that the Congress High Command would not commit the blunder of saying 'yes' to the sponsors of the motion. But in the meanwhile, if the M.P.C.C. Chief himself, without taking a prominet lead in this venture, puts down the move in the best interests of the State and the organisation, his action would be commendable.

STOP EXPORT OF RICE

Mysore, 4

In a letter to the Editor, Mr Sait Md. Iqbal a local businessman states; "As a long-standing businessman in the City I would point out that there is plenty of food stuff in the State, carried over from the previous year's harvest and the present scarcity is artificial created by the business community, whose aim is to make profit. These businessmen are exporting rice in abundant quantities from Mysore State to Manantady, Calicut, Cannanore and other border districts through lorries. This has created panic in the public mind. But for this export, the price would have been less by Rs. 10 to Rs. 12 per palla',

He has requested the Government to take immediate steps to effectively check export of rice from Mysore.

VIGOROUS CANVASSING TO OUST HANUMANTHAIYA

Bangalore, 6

Vigorous canvassing is going on in the Congress circles determinedly to oust the Leader of the Legislative Congress Party, Sri K. Hanumanthaiya.

It is stated a notice of 'no confidence' motion has already been handed over to the M.P.C.C. President Sri S. Channiah for taking suitable action in the matter. The M. P. C. C. President, it is learnt, would be forwarding this notice to the Congress High Command.

More than two-thirds of the total members of the Legislature Congress Party are understood to have signed the notice for moving the no-confidence motion. None of the members of the present cabinet seem to have put their signature for this move.

It is also stated in certain quarters that the M.P.C.C. Chief along with some of the sponsors of the motion would be going to Delhi to appraise the present political crisis in the State to the Congress President, Sri Dhebar and other leaders. No final decision is likely to come out until Prime Minister Nehru returns to the country.

KESKAR' CALL TO JOURNALISTS

Bangalore, 6

Union Minister for Information and Broadcasting Dr B.V. Keskar addressing the Bangalore Journalists' Association said that the Government of India had done their duty in providing the machinery for settling their disputes, which was non-existent till then. It was for the journalists henceforth to fight out their cause.

He called upon the journalists to consolidate themselves by closing up their ranks and strengthening their unity; for in their unity lay the key for their success, he said.

The Union Minister also exhorted the journalists to put up always a constructive fight in the interests of the Newspaper Industry. In their criticism against Government, the Minister pointed out journalists should be charitable. Journalists must thank the Government of India and the Press Commission for having put on the Statue Book for the first time, a very useful piece of legislation, to safeguard the interests of the journalists.

APPEAL TO MAHARASHTRIANS

President Prasad addressing the people of Marathi speaking areas in Hyderabad yesterday said they must beware of the danger of disunity and always place national unity above everything else.

India was today not only an important member in the comity of Nations but her counsels were being sought eagerly on matters of international importance. On every occasion India had emphasied the importance of solving all international disputes without resort to violence. If in our country, some people resorted to violence, it could not but compromise India's position and make her look false in the eyes of the world.

Moreover, President Prasad pointed out that during their long-drawn struggle against the British power in the country they did not resort to violence. Could there be any justification at all in doing so now against any section of our own people, he asked and appealed to the people to consider dispassionately the question of States re-organisation.

MESSAGE OF TOLERANCE

India's Prime Minister Mr. Nehru declared in London on Wednesday last that the Indian approach in international affairs was an approach of tolerance or the approach of co-existence.

Speaking at a reception by the India League he stated that India had always a tolerant approach to the world probleme or a "Pagan approach". India accepted the theory that people could have differing opinions and yet live together. The message of Indian culture was the message of tolerance.

In the age of atomic and hydrogen bombs, this approach had become very essential; otherwise they would be marching towards mutual extermination and extinction, he said.

Rangavilas Murder Case

CHARGE SHEET FILED

Bangalore, 9

The police filed a charge sheet against Krishna (27), Muniswamy (29) and Govinda Reddy (30) for the murder of Sri Belur Srinivasa Iyengar and five others on the night of June 5.

The charge sheet was filed in the Court of the City Magistrate,Sri Panchakshariah.

The accused were also charged for trespass, robbery and attempt to commit murder.

The charge sheet stated that the three accused armed with deadly weapons, crowbars, hammers and knives broke open the residence of Belur Srinivas Iyengar with the intention of committing theft and robbery and in the act of such commission murdered servant Ramalingam in the verandah and Singamma, Vengadamma and Lava and Kusa inside the house. With the intention of causing death, they caused serious injuries to Belur Srinivasa Iyengar and his daughter Rangalakshmi, of whom Belur Srinivasa Iyengar died on June 6. They also removed jewels and cash which were in the house and robbed the jewels on the person of Singamma, Vengadamma and Rangalakshmi, the value of jewels so removed and robbed being about Rs. 13360 and cash Rs. 4508.

The accused have been charged for offences under 10 sections of the I. P. C.

Sri G. Shankara Setty, Assistant Advocate General who is in charge of the prosecution laid the charge sheet. The case was adjourned to July 11.

All the accused were brought to the court under a heavy police guard. The courthall and its surroundings were packed to capacity.

The Magistrate ordered copies of the charge sheet to be supplied to the accused.

The accused were told that they were entitled to engage counsel for defence.

Later the third accused pleaded for supply of better food and the Magistrate instructed him to file an application through the Jail Superintendent.

The prosecution has cited 160 witnesses and among them are Mr. Parthasarathy (son-in-Law of Sri Belur Srinivasa Iyengar), Mr. M. K. Varadarajan, Chief Electoral Officer, Government of Mysore (brother-in law of Srinivasa Iyengar), the two little daughters of Srinivasa Iyengar (who escaped from the hands of the murderers), Yellamma, wife of Ramalingam, Ammakkanamma (daughter of Ramalingam) and Srirangamma, Lady Medical Officer (sister in law of Srinivasa Iyengar.)

Storm In Mysore Politics

C. M. WANTS FRESH ELECTION OF LEADER

Mysore Chief Minister Sri K. Hanumanthaiya disclosed at Mangalore that he was in favour of election of a leader at the time of inauguration of the new State of Mysore.

Addressing the members of the South Kanara District Congress Committee Sri. Hanumanthaiya said that the Ministry and the P.C.C. in Mysore were not supporting each other and one was trying to pull down the other with the result that the State's intersts were suffering. The Chief Minister added that he had made the suggestion of electing a leader to Mr. Morarji DesaiChief Minister of Bombay even before the move in the State for his removal cropped up and had expressed that he did not want to continue under the shelter of a High Command direcitve.

Sri. Hanumanthaiya assured the people of South Kanara that the storm in Mysore politics would not affect the Kannadigas. If the storm blew at all, it would blow only him, he said and added that the people of other areas should think of steps to control the storm.

Here the Chief Minister gave an accont of events since he took over the leadership. He alleged that some of the signatories for the no confidence motion had told him that they put their signature on pressure or threat. He further alleged that his differing from Prime Minister on the distribution of resources for various regional schemes had been used against him, at present.

RELIEF MEASURES IN AFFECTED AREAS

Mysore, 11

Agriculture Minister Sri. H. M. Channabasappa announced that the Central Government would shortly open depots, in Mysore City for sale of rice at 2 seers per rupee. These depots would work through the co-operative societies.

Speaking to pressmen yesterday here, the Minister stated that Union Deputy Food Minister had assured to supply more rice to the State, to bring down the price level.

Referring to measures taken by Government for giving relief in distress areas, in Mysore District Mr. Channabasappa said that the State Government had sanctioned Rs. 10,97,000 for relief works, of which Rs. 65,000 had been spent and 16,000 men have been provided work. Besides Takavi loans of Rs. 55,000 had been distributed and 4½ lakh pounds of fodder had been sold at concession rates. The Prime Minister had donated Rs. 25,000 and the Central Government had sent 800 pallas of rice, 1360 ghee tins and 2.84 lakhs lbs. milk powder for free distribution among the poor children. The Government had so far sold 30,000 pallas of rice at 3 seers a rupee, to the deserving people, in these affected areas, he said.

The Minister stated that several relief works were in full swing in Mysore, T. Narasipur and other taluks. Officers of the several departments had been instructed to take up all the sanctioned works immediately and provide maximum employment to labour. Provision for distribution of ten seers of ragi and jola seeds to each raiyat has been made.

The Minister categorically denied reported death due to starvation in any part of the State.

SLACKENING IN RELIEF WORKS

Mysore, 11

Sri T. V. Srinivasa Rao, Secretary of the local branch of the Socialist Party in a statement pointed out that there had been great slackening of relief works in Nanjangud taluk. He complained that many of the raiyots who had worked in relief works in some parts of the taluk had not been paid either in cash or kind and tons of rice that came to Nanjangud had been returned undistributed.

It is further stated that more than 1,000 raiyats went in a procession in the streets of Nanjangud yesterday evening to place their grievances before the Union Deputy Food Minister, Mr. M.V. Krishnappa, who promised immediate action to set right matters.

MEMORIAL FOR BHASHYAM

Bangalore, 11

With a view to perpetuate the memory of the late Mr. K. T. Bhashyam, the Bangalore Corporation District Congress Committee decided to erect a suitable memorial.

The Committee decided to collect Rs. 75,000 for constructing a memorial hall in the city and another in the Civil area. Suggestion has also been made to erect a statue of Mr. Bhashyam and to observe 'Bhashyam Day' every year.

Mr. Channabasappa further stated that there had been a psychological change in all the affected areas, due to recent rains.

TRAGIC END OF A YOUTH

Mysore, 11

Padmanabhan, a Malayalee aged about 28 is reported to have committed suicide under tragic circumstances. It is stated that the Nazarbad Police spotted out a dead body in the golf field near Chamundi Gymkhana, lying under a tree yesterday. On examination of the body, a piece of paper was found wherein he had mentioned that he committed suicide by taking poison, due to acute stomach-ache, to end his life. The paper was signed in Tamil.

Later it was found that he had posted a letter to the Central Police Station, Mysore, conveying the same information and that none was responsible for his death, except himself. He had also mentioned that some years ago he had swallowed poison and glass pieces which was the cause for his acute stomach ache.

Nutritive Value Of 'Mysore Flour'

Mysore, 12

Dr. V. Subramanyam, Director Food Research Institute, Mysore, demonstrated to newsmen yesterday the products made from 'Mysore Flour' a recently evolved product of the Institute and explained its nutritive value.

So far, the Institute has supplied free nearly four tons of 'Mysore Flour' to the distress areas of the district, among the villagers, to overcome dietary deficiencies.

Mr Subramanyam said that 'Mysore Flour' was both cheap, costing less than 3 annas per lb. and provided 12 percent protein with good biological value, besides the compliment of necessary vitamins and minerals. During times of distress, when nutritious food like milk became scarce, provision of a low cost nutritious supplement like 'Mysore Flour' would not only help quantitative but also qualitative deficiencies and thus help in preserving standard of health, he said.

Here he pleaded for encouragement and co-operation from the public, on matters like this. The Institute, he said, was experimenting on extraction of protein from oil seeds.

Later the pressmen were shown the new plants for the production of synthetic rice, under erection.

The plant is expected to go into production from next month. It would prepare about one ton of synthetic rice per day.

This is the only plant in the whole of Asia, except Japan.

Dr. Subramanyam told that the institute planned to instal a cold storage plant at Hassan for storing potatoes, as desired by the potato cultivators and dealers.

MYSORE POLITICAL PARLEYS

NO DECISION YET

Bangalore, 13

From all accounts, the talks between the Congress President Mr. Debhar and Chief Minister Mr.K. Hanumanthaiya, regarding the 'No-confidence' move appear to have ended, without any decision.

Mr. Hanumanthaiya who returned to Bangalore yesterday after his talks with the Congress President Mr. Dhebar at Bombay, told pressmen 'we just discussed the matter and no decision was taken. If there is anything, I will send for you".

Later speaking at a function at the Bowring hospital, the Chief Minister said that when political parleys were going on, he was not in a position to give any news. If he said anything, it might be misinterpreted, he observed.

The M.P.C.C. President Mr. S. Channiah speaking at a function at Sirigeri, near Chitaldrug stated that he had discussions at Delhi about his differences with Mr. Hanumanthaiya. "In democracy, there must be accommodation and adjustment, otherwise Mr. Hanumanthaiya will have to be honourably sent out. Mr.Hanumanthaiya is the leader of the administration. I respect him. Though we have difference of opinion, we have no animosity. We are like brothers. We are both working in the interests of the country", he observed.

He requested the people not to worry about the political situation and said that people should come forward to set right the situation, only when their leaders failed.

Sources close to the Congress reveal that Mr. Hanumanthaiya and Mr. Chenniah would meet shortly and discuss the subject and come to a definite understanding.

HANUMANTHAIYA TO RESIGN ?

Bangalore 16

The temporary deadlock in the Ministerial crisis in Mysore is likely to be resolved in the course of this week. The M.P.C.C. Chief Mr. S. Channiah seems to be anxious to arrive at a final decision in the matter without giving further room for speculations.

At the invitation of Chief Minister K. Hanumanthaiya, the M.P.CC. Chief met him twice in the course of past two days and discussed the situation.

M.P.C.C. Chief Mr. Channiah is said to have questioned Mr Hanumanthaiya what he proposed to do and Mr. Hanumanthaiya is said to have replied that he was thinking course of action he should take in the matter.

Knowledgable source close to the Congress believe that Mr. Hanumanthaiya would decide the step he should take in the present stuation. Under the strict democratic principle, two courses are open to him either to resign bis leadership or to secure a confidence vote from the party. The latter alternative seems to have little chance in view of the no-confidence being signed by more than two-thirds of the party.

The only course left therefore is to resign the leadership.

Mr. Channiah in the course of a speech at Mysore expressed that the whole situation would be decided in a day or two and hoped that Chief Minister Hanumanthaiya would abide by the parliamentary procedure.

It is stated that the Central Parliamentary Board has already considered the situation and arrived at a decision. If Mr. Hanumanthaiya doesnot resign, definite instructions are expected to be issued by the High Command, immediately without waiting for the return of Prime Minister Nehru from his foreign tour.

Rajapramukh's Call To Pandits

Bangalore, 20

The Seventeenth Mahasammelan of the Mysore State Vidyashala Pandita Mandali began its session here on Saturday last, Sri K. Hanumanthaiya, Chief Minister presiding.

Inaugurating and presiding over the function the Chief Minister assured consideration of the Government of the vital need of the Pandits for bettering their lot and invited a deputation to acquiant him in the matter.

In a message to the Sammelan, His Highness the Rajapramukh called upon Pandits to devise ways and means of enabling them 'to build up a fraternity which seeks to combine the practical efficiency of the modern system of education with the high spiritual ideals of ancient India.'

The Rajapramukh observed that Sanskrit had a sacred value as the channel through which our ancient religion and culture had been handed down from time immemorial. Sanskrit learning embodied a culture, a discipline and a type of humanism which no other learning old or new, dead or living could present to our age. It was the light derived from Sanskrit that illumined, interpreted and created the marvellous world of Asiatic art in all its ramifications, he observed.

The Rajapramukh exhorted the scholars that they should train their whole minds and lives to value the discipline of the spirit and realise the fact that they stood for all that was great, noble and eternal in their ancient culture. It should be their constant endeavour to link the India of the Vedic times with the India of tomorrow, he said.

Earlier the Chairman of the Reception Committee Sri M. P. L. Sastry in his wolcome speech stressed the need for the State to treat the Pandits on a par with scholars in English in respect of their emoluments.

Letter to the Editor:

LOKAMANYA FORGOTTEN?

When the whole Nation paid its tributes to Lokamanya Bala Gangadhar Tilak, the valient fighter for India's birthright of Swaraj, on Friday last by observing his centenary celebrations, it is really regrettable that the City of Mysore was silent. Neither the City Congress nor the City Municipal Council arranged any programme. The centenary celebrations marked a great event even in several places abroad.

But what made our leaders in the City to forget such a noble and great son of India on that memorable day is really ununderstandable and it is a great omission on their part. Even some of the Ministers of the State and the Congress President were in the City on that day to attend several other functions, but nobody seemed to have thought of this occasion. This shows nothing but indifferance and neglect on the part of our leaders who are always busy in indulging in internal squabbles and maneouvring for places of position.

A patriot.

EARTHQUAKE HAVOC

In the earthquake that rocked the Kutch State on Saturday last, over 130 persons were said to have been killed and over 300 injured, many of them seriously. The death-roll is likely to go up still as the debris is being cleared. The total loss estimated is at over one crore of rupees.

Of all the places the village of Anjar was the most badly hit area.

Kutch had witnessed a severe earthquake in 1813 and many villages were destroyed and over 1500 people were killed.

The President Rajendra Prasad has made a personal gift of Rs. 1000 for relief to sufferers. A sum of Rs. 50,000 has been sent by the Prime Minister from the National Relief Fund.

The League of Red Cross Society at Geneva has cabled an offer of emergency aid on behalf of the victims.

The Bombay Oil Seeds Exchange has donated Rs. 10,000 for relief works in the affected areas.

ELECTRONIC BRAIN

An electronic brain would shortly be installed at the Indian Statistical Institute at Calcutta to solve computational planning.

The Institute would henceforth be a computing centre for all scientific bodies in India.

CARLTON HOTEL

MYSORE

To all my well-wishers & Friends

In the issue of the Sadhvi of 10 7-56 on page 2 there is an article under the heading "Case For Wrongful Restraint of a Lady" which is far from the truth. The alleged person "Srimati Barks" is not known to me, nor is it true that there was any-wrongful restraint on such a person or any other person. The truth is that I had a Border and Lodger named Miss Banks, who owed me hotel charges, and with a view to evade payment she removed all her luggage from the hotel with the help of the Lashkar Police in my absence to which I objected near the gate of my hotel where I met them, leaving the hotel. The Police persisted in taking away the luggage and I was helpless. This matter has been brought to the notice of the higher authorities

The article has created a lot of misunderstanding in the minds of my friends, customers and well-wishers and has gone a long-way in hampering my business.

With a view to clear the misunderstanding the article has created, I have given the above facts. There has been no wrongful restraint or any other offence against any body-S. J. MYSOREWALLA.

DECISION ON BOMBAY UNCONSTITUTIONAL

DESHMUKH'S STATEMENT IN PARLIAMENT

Former Union Finance Minister Sri C. D. Deshmukh said in Parliament yesterday that he had resigned from the Central Cabinet as a protest against the decision to seperate Bombay City from the Maharashtra and the refusal to institute a judicial enquiry into the Bombay Police firings in December and January last.

Giving out the reasons for his resignation in a statement, Sri C. D. Deshmukh said that the decision on the States Reorganisation was not the decision of the Cabinet at all and charged the Prime Minister and 'an inner circle' with 'usurping the powers of the Cabinet.'

Sri Deshmukh said that the decision about Bombay City was never considered by the Cabinet 'and there was no consultation even of Cabinet members known to be interested such as himself.

He characterised this instance as typical of the cavalier and unconstitutional manner in which decisions had been taken and announced on behalf of the Cabinet by certain unauthorised members of the Cabinet including the Prime Minister in matters concerning States reorganisation. He stated that the decision was grossly unjust and unfair to the people of Maharashtra and against even the interests of the country. Here Sri Deshmukh stated that the seperation of Andhra from Tamilnad was also decided upon and announced by the Prime Minister without reference to the Cabinet.

Justifying the demand for a judicial enquiry into the Bombay Police firing, Sri Deshmukh said that he was convinced that the Prime Minister and Home Minister were false to their principles in regard to the safe-guarding of civil liberties in helping to hush up matters. There was evidance to show, he said, that the Bombay Chief Minister had instructed the police to shoot at sight and to shoot to kill and that the police showed lack of fire control and greatly exceeded their legal powers.

Sri Deshmukh stated that he felt it incumbent to resign on an issue not strictly financial or not of an all-India character, as he had no difference of opinion with his colleagues in the Cabinet and Prime Minister had continued to extend his support to him in all essential matters concerning the Finance Ministry.

Earlier Sri Deshmukh paid tributes to Prime Minister Nehru for his support to him in the discharge of his duties.

Prime Minister Nehru in reply to Sri Deshmukh's statement said that the account given by him was not quite correct in all particulars or was incomplete. He stated that the Bombay question was discussed in the Cabinet several times. Referring to the demand for judicial enquiry into Bombay firing, the Prime Minister said that 'after the most careful consideration and in consultations with many colleagues 'we felt that our principal aim of developing normal and good relations in Bombay between various communities and groups would be jeoperdised by such prolonged enquiry at this stage'.

Concluding the Prime Minister expressed regret at this parting of the ways and his reluctance to enter into controversy.

SECURE WORLD PEACE AND PROGRESS

RAJAPRAMUKH'S CALL TO UNIVERSITY SERVICE

Mysore, 27

"We should learn to treat our racial and cultural differences as variations which supplement and enrich the totality of human life, creating a new synthesis and harmony embracing the whole of humanity," said His Highness the Rajapramukh inaugurating yesterday here the General Assembly of the World University Service.

The Rajapramukh stated that it was encouraging to note that the World University Service was striving to create a sense of fraternity between the faculties and students of different universities in the world. He hoped that the organisation would continue to function as a vital factor for securing world peace and progress; for without peace, material prosperity became but fuel for the fires of destruction. If the Assembly and other circles of like purpose brought home to minds of students that distrust and inertia alike imperilled both themselves and others, they would have indeed inculcated the most urgent and much-needed lesson.

Proceeding the Rajapramukh said, for the vast majority of the men and women who worked for the World University Service, there was no promise of wealth or fame; but they to whom it was dear for its own sake were among the nobility of mankind. The unknown worker lived in obscurity contending with hardship. For him no trumpets blared, no chariots waited and no treasure decorations were decreed. Patient in his daily duty, he kept watch along the borders of darkness and strove to conquer the evil powers of ignorance and folly which were the enemies of youth. He lighted many candles which in later years would shine back to cheer him, he said.

The Rajapramukh hoped that the endeavours of the World University Service would be rewarded in the promotion of understanding and goodwill not only among the Universities of the World but also through their organised effort among the whole of the brotherhood of man.

Dr. Zakir Hussain in his address said that one of the most essential conditions in the development of university life was freedom. If Universities should perform this function properly, it should be based on illimitable freedom of human mind.

The Universities at present were institutions where information was imparted, reproduced and forgotten. They were not centres providing facilities for the development, of the mind. For mental development educationally productive work was essential. For such a work and service the Universities should be retransformed into true temples of knowledge. This would entail reorientation of our educational thinking, which would mean less of lecturing and more of mutual discussion in small groups. concluded Dr. Zakir Hussain.

Earlier, Dr. K. V. Puttappa, Vice-Chancellor of Mysore University welcomed the delegates. Mr. A. G. Ramachandra Rao, Education Minister also welcomed the delegates on behalf of the State and Central Governments.

CHANGE OF LEADER PERMITTED

CONGRESS MLAs TO MEET NEXT WEEK AND DECIDE

Bangalore, 27

The Central Parliamentary Board of the Congress which met at New Delhi yesterday decided that Mysore State Legislature Congress party should meet early and consider the resignation submitted by its leader Sri. K. Hanumanthaiya. If the party accepted the resignation, new leader would be elected.

The Board is said to have come to this decision, after considering the no-confidence move by a majority of the Congress M. L. As against Mr. Hanumanthaiya and his letter seeking the permission of the Board to resign from the party leadership.

It is stated that Mr. Hanumanthaiya will shortly call for a meeting of the Legislature Congress party to consider the issue, in the course of a week. Mr. K. P. Madhavan Nair, General Secretary of the Congress might attend the meeting. The new Ministry, if formed will stay in office only till the re-organisation of the States, when re-election of the leader would be necessary.

It seems to be definite that Mr. Hanumanthaiya's resignation would be accepted and a new leader elected. The choice is said to be among Sri S. Channiah, the MPCC Chief and Sri. S. Nijalingappa. Two Ministers in the present cabinet might continue.

Lack Of Tourist Amenities

After the dawn of independence, India has become a great centre for International conferences which draw peoples from all countries and climes. These conferences besides being business conferences, are providing great opportunities for foreigners to see and appreciate the treasures of Indian architecture and sculptural excellence, without parallel in any country or age, with historical background.

Besides those that attend these conferences, foreign tourists are visiting the country in large numbers, most of whom do not miss a visit to the South, especially to Mysore, the most beautiful State in India, and see some of the thrilling natural scenes and others which human ingenuity has acheived.

It is indeed gratifying that the Government of India are evincing a keen interest in developing the tourist industry in the country, by providing large sums, even to the State Governments, to create all possible amenities to the tourists. But it is a pity, that precious little seems to have been done in Mysore State, whic has several places of interest to be visited.

Many of these centres are laking in the ordinary basic amenities like boarding and lodging facilities, not to speak of the poor and unsatisfactory transport convenience. Sometimes tourists, prefer to forego the pleasure of a trip to some of these centres, due to the above causes.

Belur, Halebid and Sravanabelogola are some of the most important centres, famous for their monoliths of architectural beauty. No tourist can be said to have seen the Indian Art, in its entirity if he missed visiting these places and feasting his eyes on the masterpieces of sculpture.

Risking all handicaps, if a visitor made his pilgrimage to these centres, he has to return either to Mysore or go to Hassan for a good meal and some respite, totally tired. Belur possesses an apology of an ill-furnished Travellers Bungalow and the tourists have to depend upon the poor and even nasty food catered by local hotels, while Sravanebelogola is lacking even this.

Since the number of tourists to these centres are increasing every day, the State Government would do well to take up the construction of guest houses and equip them well at these places; and also arrange for good and wholesome food at reasonable charges. The amount spent on these schemes would not be a waste but would get good returns, by way of name and fame to the State.

PROTECTION TO MINORITIES

The Union Government has suggested to the State Governments the inclusion of a provision in the rules about recruitment to State services that minority languages spoken by 15 per cent or more of the population should be recognised as media in examinations, conducted for State services.

As regards examinations for recruitment for lower services at district levels, the language of the district, if it is different from the language of the State should also be recognised.

S. R. BILL IN LOK SABHA

The Union Home Minister moved in Parliament, yesterday, the S. R. Bill as reported by the Joint Select Committee for its consideration. He appealed to the House to accept the Bill and pass it with such improvements, as might be feasible, with a spirit of accommodation in a calm atmosphere and placing before themselves, the ideal of a prosperous, united and strong India.

About ten top delegates including officials and non officials from each State will attend the conference.

SUEZ CANAL Co. NATIONALISED

Mr. Gamel Abdul Nasser, President of Egypt announced his Government's decision to nationalise the Suez Canal Company. He said that the income from the Canal-100 million dollars a year would be used for the construction of Aswan Dam. Mr. Nasser stated 'we no longer have any need to go and beg for money from Washington, London and Moscow.'

The Suez Canal was built by the Egyptians 100 years ago and 120,000 Egyptians died during its construction. Yet Egypt got only £ 1 million of the Company's revenue, he said.

The Suez Canal Company is an Egyptian registered company with its headquarters at Paris.Majority of its shareholders are foreigners; and the British Government owns largest shares.

Both Britain and France have protested against the Egypt's decision to nationalise the Suez Canal Company and have sent their protest notes to President Nasser which he has refused to receive.

Plea For Development Of Fruit Industry

Mysore, 28

"India being a vast country, with varying climates and soils the problem of fruit and vegetable cultivation varies from region to region and necessitates the close study of these problems on a regional basis," stated Mr. A. G. Ramachandra Rao, Education Minister here today. Tha Minister inaugurated the symposium on 'the development of fruit and vegetable preservation industry in the Second Five Year Plan', at the Central Food Research Institute.

He said that the Planning Commission had allotted Rs. 9 crores for the preservation of national life by providing proper nutrition to its citizens, during the 2nd Plan period. It had decided on the rajuvenation of about five lakhs acres of existing orchards and the growth of new orchards to the extent of two lakhs, and the development of fruit and vegetable preservation and a canning industry as well as cold storage plants.

The Minister added that the Second Five Year Plan of Mysore contemplated provision of Rs. 15,64 lakhs for survey of fruits and vegetable cultivation, starting of nurseries, production of pedigree plants and pest control methods and extension of fruit cultivation in 25,000 acres at a cost of Rs 10 lakhs.

The Minister stated that close cooperation and co-ordination from the Horticultural department with this Institute would go long way to improve the fruit industry.

Earlier Dr. V. Subrahmanyan Director of the Institute welcomed.

A number of papers were read at the symposium, relating to the problems of fruit industry.

PLEA FOR COMPROMISE

Mysore, 30

Chief Minister K. Hanumanthaiva stated here yesterday that he would have been very happy, if the Central Parliamentary Board itself had come to a decision on his resignation. But he had not yet decided on his course of action, as it had been referred to the State Legislature Congress Party. He hoped that the legislators would bring to bear on their decision, the larger interests of the country and a wider outlook.

Some of those who opposed his leadership had already come back to support him and it was not difficult to secure some more votes in his favour, he disclosed.

Speaking to pressmen, he said that no effort to bring about a compromise between the two groups in the Legislature party had been so far done by high personages. Compromise could have been effected by persons of high political eminence like Pandit Nehru, and Mr. Dhebar who had influence on both the groups in the Congress.

The Chief Minister stressed that in view of the impending general elections and the formation of new Karnataka, such an effort would be in the best interests of the country.

He was very much grieved that the malady of group conflict and jealousies was growing in the Congress organisation not only in Mysore but also elsewhere in the country. If this was not removed, time might come when Congressmen would fight against Congressmen, warned Mr. Hanumanthaiya.

GLOWING TRIBUTES TO RAJPRAMUKH

BIRTHDAY CELEBRATIONS IN CITY

Mysore, 30

"The formation of Greater Mysore as an integral part of India, is about to be realised. And this is indeed a matter of special gratification to me," stated His Highness the Rajapramukh here yesterday.

He was replying to the Chief Minister who felicitated him on his 37th birthday at the Exhibition grounds.

On behalf of the Government and the people of Mysore the Chief Minister presented an address eulogising the valuable services of the Rajapramukh to the State. He stated that this birthday marked a milestone in the brilliant career of His Highness.

Referring to the integration of Mysore the Chief Minister said that the great decision His Highness took in this contributed to the establishment of all-India unity, and His Highness's adjustment in transforming himself from a powerful Sovereign to a Constitutional monarch stood as a proof of his high-mindedness and patriotic fervour

The people of the State were equally proud during his Highness's time the State was being expanded. This historical development sought from His Highness another great sacrifice, that of relinquishing the office of the Rajapramukh. Even this sacrifice had not disturbed in the least the equanimity of His Highness but merely proved to be another test from which His Highness emerged triumphant in rising to the highest pinnacle of virtue in the matter of serving the people, the Chief Minister said.

Replying His Highness stated that he did not look upon this as sacrifice. Destiny had now ordained that the time was ripe for the people to rule themselves. He considered it the greatest good fortune that it had been given to him to see the consummation, the fulfilment, the fruition of a great Trust.

"My greatest joy today is in knowing that that consummation has come about and that the continued happiness and prosperity of the dear people of this State is ensured. I am proud indeed to be a citizen of this great land and as a son of India, I shall continue to strive my utmost for the unity, progress and welfare of this great Republic, concluded His Highenss.

WAR-LIKE PREPARATIONS BY BRITAIN AND FRANCE

ARMY RESERVE CALLED FOR EMERGENCY DUTIES

Britain and France have begun making war-like preparations in view of the nationalisation of the Suez Canal Company.

Queen Elizabeth signed yesterday a proclamation calling up special soldiers on the British Army's reserve for emergency duties in the Mediterranean.

The Royal Air Force has ordered a large force of Jet Bombers to be ready to fly to some important destinations like Malta.

Week-end leave for the crews of four valient bombers squadrons is stopped and station personnel has been ordered to stand by for instant readiness. Ocean-going tank landing crafts have been made ready for use. Army reinforcements are said to be ready to move overseas.

The British Government have instructed all its Consuls in Egypt to advice all British Subjects including Commonwealth citizens to evacuate Egypt and those who desire to go to Egypt have been asked not to do so.

Similar action is also being taken by the French Government and all their naval, army and air force units have been alerted.

In the meanwhile Britain, France and United States have called for a 24-Nation Conference at London on August 16 to consider the establishment of international control over the Suez Canal. Among Nations invited to attend the meeting include India, Ceylon, Russia and Egypt.

President Nasser has declined to accept international control over the Canal and has proclaimed that Egypt would defend the Suez with her blood.

All the Arab countries have also proposed to meet and discuss joint action to help Egypt in retaining nationalisation of the Suez Canal Company and to meet any threat from outside.

WORLD VARSITY SERVICE

Mysore, 3

The General Assembly of the World University Service unanimously re-elected yesterday Dr. Zakir Hussain, Vice-Chancellor of the Aligarh University, as the International President of the Service for 1956-57.

The General Assembly which began its Session at Krishnarajsagar on July 27 concluded yesterday.

Delegates from 41 countries attended the session.

Before the Assembly concluded, sandalwood lockets in silk National Flags were presented to all the members on behalf of the Government of Mysore.

Parley Over Party Meeting

Bangalore, 3

The Meeting of the State Legislature Congress party will be summoned to be held on or about August 12, to resolve the political crisis in Mysore, arising out of the no-confidence move against Chief Minister K. Hanumanthaiya and his resignation letter, it is learnt.

Chief Minister K. Hanumanthaiya who received the directive from the Central Parliamentary Board only yesterday met his cabinet colleagues and also the M. P. C. C. President and had descussions.

It is learnt that the Chief Minister immediately after receipt of Central directive, wired to Congress President Dhebar that prompt steps were being taken for early meeting of the Legislature Party.

USE OF LIGHTS BY MOTORISTS

Bangalore, 3

The Government of Mysore in a Press Note have drawn the attention of the owners and drivers of motor vehicles to the provisions contained in the Rules of the Motor Vehicle and Road Traffic Rules regarding the proper use of lights of motor vehicles. They have been requested to adhere to the directions contained therein failing which the person concerned would be subjected to penalty. The Transport Commissioner in Mysore had observed that the rules were not being strictly observed at present which was causing much inconvenience to the pedestrians and the public, besides contributing to accidents.

GOVT. NOMINEE FOR MYSORE BANK

Bangalore, 3

The Government of Mysore have nominated Sri B. M. Krishnan, Finance Secretary as a representative of the State Government on the Board of Directors of the Bank of Mysore.

MIS-POSTING OF CONGRESS DIRECTIVE

Bangalore, 3

How a little mistake of insertion of letters into wrong covers could cause much heart-throbbing and amusement is easily understood from similar occurrence in respect of the Central directive sent to Mysore Chief Minister. The letter meant for Mr. K Hanumanthaiya was put into an envelope addressed to the Chief Minister of Orissa and vice-versa.

Both the Chief Ministers, Messrs. K. Hanumanthaiya at Bangalore and Nabakrishna Chaudury at Cuttack were amused and flabbergasted when they read the letters. Mr. Hanumantaiya was a little puzzled when the letter he received asked him to continue until be heard again from the High Command while Mr. Nabakrishna Chaudury was surprised to read that he should place his resignation befor the Party. The mistake was realised and the letter were exchanged

STATE OWNERSHIP

Addressing the workers in the Penicillin Factory at Pimpri Prime Minister Nehru expressed the opinion that there must be State ownership or State control, in such basic industry as those producing antibiotics. He said that antibiotics were essentical and life saving drugs. As such, there would be always a tendency to push up prices or create shortage. It was the duty of the Government to make available to people these at cheap prices.

He also said under private management, profit motive would always predominate and would keep the results of the research secret. But in government controlled factories, the results of researches would be made freely available to the rest of the world. He hoped that the high principles set out by the Government in entering into the field of drug production would be mantained for the good of the people.

CONGRESS LEGISLATURE PARTY TO MEET ON AUGUST 16

Bangalore, 4

It has been finally decided that the Mysore Ligislature Congress Party should meet at Bangalore at 9-30 a. m. on Thursday August 16, to consider the resignation letter of Mr. K. Hanumanthaiya, leader of the party.

After continued consultations with his friends, Mr. Hanumanthaiya fixed the date for the meeting.

It may be recalled here that the resignation by the Chief Minister of his party leadership was the off-shoot of a requisition by a majority of the Legislature seeking permission of the High Command, to pass a vote of no-confidence against Mr. Hanumanthaiya. Meanwhile Mr. Hanumanthaiya offered his resignation letter to the Central Parliamentary Board of the A.I.C.C. The High Command asked the Chief Minister to convene the meeting of the party for consideration of the letter.

Prime Minister Nehru has sent another letter to the Chief Minister relating to the political crisis in Mysore. This letter also will be placed at the meeting, along with the letter received from the High Command.

The Council approved the levy of octroi on sandalwood and ivory articles and articles inlaid with ivory, excepting those manufactured at Sagar and Sorab by the help of Gudigar society.

Youths' Camp

Mysore, 6

Delivering the valedictory address of the Youth Pioneers' Camp, of the Bharat Yuvak Samaj yesterday, at Rajyanilaya in Yelwal, Mr. M. P. L. Sastry, advised the trainees to develop the spirit of understanding and character, the two virtues of Indian life

He said that though. India had attained her independence yet it would take a decade more to bring all the good required to become highly cultured and to throw off poverty. Here lay the task of the Bharat Yuvak Samaj, he said.

The Bharat Yuvak Samaj should be a non-political body and must be a youth movement and should forever remain so, to serve the country. Great deal of work had been left to be performed in the rural areas The youth of the country should undertake this through a spirit of understanding and by building the character, he concluded.

Earlier Mr. S. Gopala Sastry, Organising Secretary of the Samaj spoke on the ideals of the Samaj.

TWO WORKERS BLOWN TO DEATH

EXPLOSION IN CITY CAPE FACTORY

Mysore, 6

Two workers Venkatraj Urs and Mari, aged about 18 and 22 respectively were blown to death due to a sudden explosion in a city cape factory, this morning. Several others including Mallikarjunappa and Rayappa sustained slight injuries.

The explosion took place when the said two workers were packing 95 grosses of cape boxes into a big deal-wood box and nailing the lids, on premises of Sree Chamundi Fire Works, situated in the south end of Chamundi Hills. Venkatraj Urs was blown off a distance of about 100 feet away from the building, his face and body charred, face being beyond recognition. One of his legs was missing. It was stated while enquiry that the leg had been farther away near a tank there. Mari, the other worker, was thrown off a dozen feet away similarly charred.

A cow that was grazing near the packing place was bodily removed and dropped into an adjoining pit, with two of its hooves blown off. The animal is in a precarious candition.

The Chamundi Fire Works is a factory manufacturing Pistol and Sun Brand capes. About 18 persons were working this morning when the accident took place. As a result of explosive impact, the walls of the building have craked.

Though the accident took place at 11 this morning, neither the owners of the factory nor the Police were to be seen at the spot even at 3 p. m. when our representative visited the scene of accident. Even first-aid had not been provided to the injured. Hundreds of people had gathered at the scene of occurrence.

K. G. F. Companies Want Rs. 8 Crores

Bangalore, 8.

The Executive of the K.G.F. Mining Companies stated at a Press Conference yesterday that the compensation of Rs. 119 lakhs that the Mysore Government had offered was "totally unacceptable" and urged upon constituting an impartial and independent tribunal to decide the issue.

It was hinted that the quantum of compensation that the British Mining Companies might accept would be in the neighbourhood of Rs. 8 crores, based upon the expert valuation of the assets, excluding the liabilities.

It was pointed out that the compensation now proposed by the State Government would hardly equal the value of the stores, held in reserve, and far less than the amount spent by the company in discovering the new ore body.

The Chairman categorically stated that there were no gold reefs running east and west in the Kolar Gold Field, they run north to south and the reefs recently discovered were known as "West Reefs."

RECRUITMENT OF PROBATIONERS IN ABEYANCE

Bangalore, 8

The Secretary, State Public Service Commission notified yesterday that it was proposed to keep in abeyance the recruitment of Probationers to the various Government Departments. Hence there will be no preliminary written test on Sunday, August 12, as previously announced.

★ Official announcement was made yesterday by the Union Government appointing Mr. P. B. Chakraborty, as acting Governor of West Bengal, for the present.

ELECTRICITY RATES MODIFIED

Bangalore, 8

Mysore Government have decided to make modifications in respect of the rates for electricity.

According to the modification, the monthly minimum charge in respect of all low tension supply except photographic studios will be levied on the rated Horse Power, instead of nominal H. P. from Aprill 1, 56 to October 31, at the revised rates. This would enable the consumers to change their existing motors to lower capacity motors before the end of October this year. The levy of the monthly minimum charge will at all events be on the basis of nominal H. P. or rated H. P. whichever is higher. with effect from November 1, 56.

The minimum charges per month, for flour mills and such other small industries in Bangalore and Mysore cities will be based on 80 units per H. P. of the motors installed instead of 100 units.

Photographic studio installations will be treated as lighting installations with independent metering and the minimum charges will be reckoned at 3 annas per point

The concession in vogue up to April 1, 56 in respect of seasonal industries like sugarcane crushers, ginning mills etc. will be continued even after April, 56 subject to the levy of a reasonable service charge for disconnection and reconnection.

BI-LINGUAL BOMBAY STATE

Speaking on the States Reorganisation Bill Sri. Govind Vallab Pant, Union Home Minister announced in the Lok Sabha yesterday that the Government had given its support to the creation of a bigger bi-lingual State of Bombay comprising Maharashtra, Maratwada, Vidarbha, Bombay City, Gujerat, Saurashtra and Kutch He complimented the members of the House for solving what was considered as a vexed problem by finding out a permanent and abiding solution.

He stated that the Bombay problem had cut across all party affiliations and the solution found was truly and essentially national. The Parliament had proved worthy of its mettle and the members rose above narrow considerations and demonstrated their unique capacity to handle problems in a national-way, he said.

The new State would comprise an area of about 2 lakh square miles with a population of 6 crores.

WATER SUPPLY AND SANITATION

Water supply and sanitation would receive top priority in the development of all health programme and services in the country, during the Second Five Year Plan; and that the allotments made both by the Centre and State Governments for this purpose would be fully utilised. This was revealed by the Union Deputy Health Minister Mrs. M. Chandrasekhar, while-inaugurating the Second conference of Public Health Engineers, at Delhi.

Speaking about the required personnel technically qualified in public health engineering, the Minister stated that the Union Government had provided Rs. 50 lakhs in the Second Plan. The Health Ministry had already drawn up a comprehensive programme for training engineers, overseers, operators in water and sewage treatment works, and sanitary inspectors.

The Minister wanted States to take full advantage of the facilities provided by the Central Government, who gave stipends for trainees and also met their tution fees.

ANTI-BI-LINGUAL RIOTS IN GUJERAT

5 KILLED & 150 INJURED IN POLICE FIRING

Rioting in Gujerat and Saurashtra on the formation of Bi-Lingual State for Bombay continued yesterday also and police had to resort to firing about 14 times to control the unruly demonstrators. In Ahmedabad troops were called out and 24-hour curfew had to be imposed.

In the police firing yesterday 5 persons were said to have died and over 150 injured. At midnight the situation was said to be under full control. Much damage to public property is reported.

Similar troubles seem to have taken place at Rajkot, Baroda and in Baroda also curfew was imposed In some places train services were dislocated due to mishandling of railway line.

The Praja Socialist Party and Communist Party in Ahmedabad simultaneously announced launching of Satyagraha movement on this issue.

Several arrests have been made so far in different parts of Gujerat and many other places.

Several leaders of Bombay, Gujerat and Saurashtra and M. P.s have condemned the disturbances and have appealed to all sections not to indulge in anti-social activities.

✱ Sri Jai Narayan Vyas, former Chief Minister of Rajasthan is to take over Presidentship of the State P. C. C. from Sri Aditendra to bring about unity in the States Congress.

Urge For Hotel Nationalisation

Mysore, 11

The ninth anniversary of the City Hotel Workers' Association was held yesterday, at the Banumaiah's High School. Mr. A. Krishnamurthy Rao, Municipal President was in the chair.

Mr. M.N. Thimmiah, Municipal Councillor inaugurating the function pleaded for unity among the workers and said that proprietors and workers should have friendly relations.

Mr. D. L. Sitharama Rao, Vice President of the Association suggested nationalisation of the hotels.

Mr. Krishnamurthy Rao said that the problem of nationalisation of hotels should be examined carefully. In his opinion, it would be a success, if they were run on co-operative basis, he said.

Later two resolutions were adopted, one condoling the death of Shri. K. T. Bhashyam, and another to change the name of the Association to District 'Hotel Workers', Association.

Mr. K. SubbaRao, Association President welcomed while Mr. S. R. Sastry proposed a vote of thanks.

REVISION-PETITION REJECTED

Bangalore, 11

Mr Justice K. N. Padmanabiah and Justice H. Hombe-Gowda rejected yesterday the criminal revision petition preferred on behalf of Krishna and Muniswamy, the first and second accused in the Bangalore "Rangavilas" Mass Murder case. The Revision petition was filed praying for setting aside the lower Court's order committing the accused in the the case to the Sessions

The High Court also passed an order directing the Sessions Judge of Bangalore Division to try the case, dispensing with the Jury, in view of the reference made to the High Court, by the Sessions Judge, in that connection.

Dismissing the revision petition Their Lordships observed that they came to the conclusion that there was nothing illegal in the lower Court's order committing the accused to Sessions, solely on the basis of documents.

States Reorganisation Bill Adopted

The Lok Sabha yesterday, by a voice vote adopted the States Reorganisation Bill. According to this the political map of India will be redrawn with only 18 States, four of which would be Centrally-administered.

The measure will now go before the Rajya Sabha and then obtain President's assent to become a law.

The Prime Minister during the course of his speech appealed to the people to put an end to all violent agitations and accept the decision of the Parliament.

Later Home Minister Sri Pant appealed to the youths of Gujerat not to be carried away by the violent agitation of a small minority which opposed the formation of a bi-lingual State.

The Committee would make proposals for legislation with regard to questions of general policy regarding that area.

NO NEED FOR TRIBUNAL ON K.G.F.

Bangalore, 11

The constitution of a tribunal to decide the quantum of compensation to be paid to the Kolar Gold Field Mining Companies "does not arise" and the suggestion made to constitute one is irrelevant; because the Legislature is the tribunal and the final authority,' declared here yesterday Mr. H. Siddaveerappa. Home Minister, in charge of the portfolio of K. G. F.

He added that nationalisation of any industry should be regarded as a political decision taken by the Government in exercise of its sovereign powers to give effect to social policy, for which in a democratic set-up there was popular mandate. The compensation to be paid must be related to the social objective in view.

The decision to nationalise the mines and to pay a compensation of Rs. 119 lakhs was not an arbitrary or capricious decision of the Government of Mysore, he said.

The Minister also disclosed that Messrs. John Taylor and Sons had agreed in writing that they were prepared to withdraw, if they were given a compensation of Rs. 2 crores.

Ourselves

It is a happy augury that the 'Independence Day' synchronises with the 'Birthday' anniversary of the "Samachar". Born in 1950, it has just completed six years and is entering the seventh. Though still in its infancy the 'Samachar' has been serving the public to the best of its ability.

Started first as a Kannada Daily, the 'Samachar' won the appreciation and good-will of the reading public. At their request we had to convert it into an English Daily to supply the much-needed want, since there was no English Daily in the city. Since then the Samachar is sparing no pains to cater to them.

We take this opportunity of expressing our gratitude to all those who have extended their patronage and encouragement to us in our enterprise. We hope that they would continue their support in the future in a greater measure.

SUPREME NEED FOR NATIONAL UNITY

President's Call To Nation On Independence Day

Leaders throughout the country called upon the people to rededicate themselves to work for the solidarity, unity and material prosperity of the country on the happy occasion of celebrating India's ninth Independence-Day yesterday.

On the eve of the Independence Day President Rajendra Prasad in a message to the Nation stated 'While the task of reconstruction and multiplying our national resources so that poverty, disease and ignorance are banished from this fair land of ours, is urgent and pressing, the other task which is no less urgent and insistent and to which we have to address ourselves is to encourage and foster the sense of national unity.'

Speaking about the States Reorganisation, the President said that it was taken in wider national interests and not merely in the interest of any single-region and he appealed to give effect to the decisions taken by the Parliament.

Dr. Rajendra Prasad called upon the people to lend his or har willing co-operation to the stupendous task undertaken in the Second Five Year plan, a task of nation-building, irrespectiva of his or her station in life. The President concluded the good name which we have earned in the comity of nations and of our policy of peace in every part of the world international goodwill and respect for our country will endure only if we succeed in our programme of reconstruction and solve our internal problems peacefully in a spirit of forbearance and mutual goodwill'.

Prime Minister Nehru unfurled the National Flag at Red Fort, Delhi yesterday morning amidst the bhooming of 31 guns. Lakhs of people and children had assembled to witness the historic function. Adressing the people, Mr. Nehru warned the people that the decisions of the Parliament about the reorganisation of States could not and would not be revoked by threats. Speaking about the Suez Conference, the Prime Minister said that any attempt of force to solve the issue would lead to world conflagration If the Conference failed to arrive at a solution, it must meet for the second time or the third time and any humiliation of another country could not be tolerated.

H. V. KAMATH ARRESTED

Sri H.V. Kamath, M.P., it is learnt was arrested yesterday at Ahmedabad for breach of curfew. Dr. Amul Desai, PSP Member of Bombay Legislature was also arrested under the same offence.

Compensation For K.G.F. Mines

PRESENT AWARD REASONABLE AND EQUITABLE

Bangalore, 17

The Government of India, it is stated is not likely to entertain any further representation from the Mining Company regarding the quantum of compensation to be paid following the Nationalisation of Kolar Gold Mines. After an examination of all aspects of the question, the compensation was fixed at Rs.119 lakhs. Earlier the Mysore Government had proposed to pay only Rs.65 lakhs but at the intervention of the Central Government with the State Government and the Mining Companies, the present award was fixed. It is pointed out that the award was fair and equitable and the British interests would do well to consider the matter fully and satisfactorily stettled.

Candidates For Election

Presidents of Provincial Congress Committees have been directed by the Congress President U. N. Dhebar to carefully scrutinise the cases of all those Congress members who openly defied the mandate of the Congress and tried to tamper with the stability of the Government by joining with the opposition groups, before they were given the Congress ticket for the ensuing general elections. Similar circulars have been issued to the Leaders of the State Legislature Congress parties also.

NEW CABINET TO BE SWORN IN TOMORROW ?

Bangalore, 17

Sri Kadidal Manjappa, the new Leader of the State Legislature Congress Party stated here yesterday that probably he would be going over to Mysore on Saturday and interview the Rajapramukh. It is likely that Sri. Kadidal Manjappa will assume Chief Ministership tomorrow.

Sri Manjappa discussed yesterday afternoon the formation of the new Ministry, with the M. P. C. C. Chief Sri. S. Channiah and the Congress General Secretary Sri. K. P. Madhavan Nair.

It is learnt that all the Ministers in the present Cabinet handed over their resignations to Mr. K. Hanumanthaiya, yesterday afternoon. Mr. Hanumanthaiya is likely to meet the Rajapramukh, this evening or early tomorrow and hand over the resignation of his Cabinet.

The new Cabinet headed by Sri Kadidal Manjappa. it is stated, would have only six Ministers instead of seven as at present. The names of Messrs A.G. Ramachandra Rao and H.M. Channabasappa Ministers in the present Cabinet and Sri K. Puttaswamy and Sri Nerle Madaiah are being mentioned as members in the new Cabinet, The other Minister would be from Bellary, it is learnt.

The Congress General Secretary Sri. Madhavan Nair announced here yesterday that the Congress Parliamentary Party of the enlarged Mysore will meet before November 1, the day on which the new State will come into existence, to elect a new Leader.

SUCCESS OF SECOND PLAN

Union President Dr.Rajendra Prasad addressing a public meeting at Madurai, yesterday assured the people that in the economic development of the country, no part of the country would be neglected. The President said that the First Five Year Plan had proved to be more successful than they had expected at the beginning. He hoped that the Second Plan would be more successful than the first and that could happen only if all people regarded it as their plan and put their shoulders together.

Women's Brigade

ALL IS WELL-THAT ENDS WELL

The storm that was raging in Mysore politics for some months past subsided yesterday, and the atmosphere became once again calm and quiet with the unanimous acceptance of Mr. Hanumanthaiya's resignation, of his party leadership, and the election of the new Leader.

The Legislature Congress Party under the guidance of Mr.K.P. Madhavan Nair, who was specially deputed for the purpose, took the decision in strict accordance with democratic principles of accepting first, the Leader's resignation and next in electing the new Leader. Mr. Hanumanthaiya was fully aware that the trend of feelings of the Party was against him, even when 'no-confidence' move was in the offing; and nothing had happened in the meanwhile for him to expect a change in the attitude of the partymen, in his favour. When Mr. K.P. Madhavan Nair had informed the meeting the desirability of taking unanimous decisions, and when the resignation was unanimously accepted, it would have been graceful, if Mr.Hanumanthaiya had refrained from standing again for leadership. But Mr. Hanumanthaiya, for reasons best known to himself, did not like to leave things to chance and contested.

Mr.KadidalManjappa has been elected the new Leader of the party. We congratulate him on his success. Mr. Kadidal Manjappa is not new to administration. He has served in Hanumanthaiya's Cabinet for four and a half years. Without much ostentation and flare, Mr. Kadidal Manjappa is known for his calm and cool thinking and sobriety of views. He can bring into his administrative work, that judicial bent of mind and impartiality of views, which would earn for him the approbation and goodwill of the public and his subordinates.

At the time when he is to shoulder the great responsibility of the Chief Ministership though for a short duration, he should benefit by his predecessor's experiences and avoid the pitfalls, in his path. The Congress Party which has given him its support should see that his onerous duty is made easy and administration smoothened, by extending to him its best co-operation.

Since the dawn of Independence, Mysore administration witnessed two cabinet changes. It should not be left for history to repeat itself, in the larger interests of the State. We hope that this would be the harbinger of good time to come and pave the way for the new and greater Mysore to come into being soon; and that Mr.Kadidal Manjappa would rise equal to the task and the occasion. We also hope that Mr. Hanumanthaiya would take his defeat sportively and that he and his group would see that 'smooth sailing' is ensured.

STEPS TO ARREST RISE IN FOOD PRICES

The Union Food Minister Sri. A. P. Jain said in Parliament that the Central Government had taken several measures to check the rising tendency of prices of food grains. Some of the steps were the total ban of export of rice and other food grains, stoppage of Government purchases of food-grains in the internal markets and restriction on advances by the Scheduled Banks against stocks of of rice and paddy. The Government had also decided to open a large number of fair price shops wherever needed.

S. R. BILL

The Rajya Sabha took up yesterday the consideration of the States Reorganisation Bill. The Bill was moved by Sri B. N. Datar. Union Minister for Home Affairs. He stated that the Government of India had thought it not advisable to provide for boundary commissions in the Bill so that the the disputes might not hamper the economic development of the country.

C.M. PLEDGES TO BRING ABOUT UNITY IN CONGRESS

Mysore, 20

"I cannot claim to be an extraordinarily intelligent man. I can however, assure the people of Mysore that I will try my best to do things, honestly and impartially, "said ChiefMinister Mr.Kadidal Manjappa, here yesterday when he met the waiting Pressmen at 'Jala Darshini'.

After assuming Office as Chief Minister, Mr. Manjappa made a fervent appeal to the Press and the public for cooperation and made the following statement.

"I am not happy to be the Chief Minister for this short period. The public know me very well. They know what sort of man I am. I,am, therefore, sure that the Press and the Public will give their unstinted support during the very difficult period in the history of this State."

" It may not be improper or incorrect for me to say that destiny has directed me to occupy this position for a very short period.

" In the interest of the State, and in the interest of the political organisation, to which I belong, I had to accept the offer made by the majority of the members of the party. In fulfilling the task, I seek your cooperation."

" I am after all a man, who does not belong to either group within the State Congress. I believe, a man like me will be able to bring about unity within the Congress organisation. That is my hope and that is my ambition."

"WE ARE NOT AFTER POWER" SAYS CHANNIAH

Mysore, 20

"We have no personal animosity against Mr. Hanumanthaiya. We are not after places of power. We have proved this now. If we wanted, any one of us could have easily come to power. If ever, the call came from the country we would never hesitate to serve the cause. Henceforth no one shall say that Congressmen are after power," observed Sri. S. Channiah, M.P.C.C. President, presiding over the anniversary of the Dalvoy's High School here yesterday.

Referring to the Ministeria change he said that the darkness which 'shadowed the peopte of Mysore since past six weeks had cleared today and the blot on Mysore had gone.

He said that the Press should work for the upliftment of the State. Press was equally responsible even as the politicians were.

Criticising certain papers which made personal attacks and published indecent cartoons, Mr. Chanaiah said " if I were in power, matters would have been different."

Speaking about certainl allegations made against him personally, he said that he would answer them in due course. Whatever he found just and right for the country, he would do it, said Mr. Channiah.

He paid tributes to the Rajapramukh for his erudition and broad outlook. He disclosed that the Rajapramukh would continue here alone; and that the Centre had agreed to it.

Concluding Mr. Channiah stated that there was lack of patriotism amongst present day students, and wanted them to engage themselves in constructive work instead of politics.

ENGLISH-RIVAL TO STATE LANGUAGES

Hindi's competitor in the linguistic field was only English, and not regional languages, observed President Rajendra Prasad at Madras, on Saturday last.

Addressing the convocation of the Dakshina Bharat Hindi Prachar Sabha, the President made it clear that all the administrative, legislative, legal. educational and other works in the States would be carried on through the languages listed in the constitution.

He observed that "we could neither boycot nor ignore English but we must continue to cultivate it so that we remain in touch with modern trends and thought. English may be taught just as language of business," he added.

WELCOME OUR FRIENDS IN KARNATAKA

CHIEF MINISTER'S APPEAL

Bangalore, 22

Chief Minister Kadidal Manjappa declared here yesterday that his Ministry would wholeheartedly implement the decision taken by the Mysore Legislature on the formation of Karnataka.

Speaking to Pressmen, the Chief Minister appealed to all people who form the new State, irrespective of geographical area to sink their diffetences and create a happy psychological atmosphere for the inauguration of the new State.

Mr. Manjappa, who had previously opposed formation of united Karnataka, made an appeal to all those who favoured twoKarnatakas to forget the past and "wholeheartedly welcome your friends living in the other areas of the Karnataka".

Answering number of questions the Chief Minister said that both the merger and anti-merger sections of the Legislature Congress party had combined together against Mr. Hanumanthaiya. He stated that he had assumed office at a crucial period and assured that he would do his best during the very short period, in which he would be in office, to tackle a number of problems connected with States Reorganisation.

Asked whether his policies were same or diffirent from those of Hanumanthaiya's Ministry, the Chief Minister said that the Government functioning in Mysore was a Congress Government. All Congress Governments were bound to follow the policies laid down by the Congress. The present Ministry, he said, will continue to follow the policy laid down by the Congress.

Speaking about the reasons to continue his old colleagues in the present Cabinet, he stated that he chose them after consulting the High Command and M.P.C.C. President. "I know my colleageus very well and I was confident that they would whole-heartedly support me. That is mainly the reason for selecting them", he added.

Asked about the causes for the exit of Mr. Hanumanthaiya from the party leadership, he merely said "Ask Mr. Hanumanthaiya and the members of the party".

C.M's Advice To Officials

Bangalore, 23

"While dealing with the public, be polite, but at the same time be firm, impartial and just " was the advice tendered by the Chief Minister Kadidal Manjappa yesterday while he and his colleagues met all the officials of the Secretariat.

The Chief Minister said it was his duty to place before them his experiences as Minister during the past 4½ years.

There were still some officers who had not yet changed their outlook even after independence.

Mr. Manjappa added that delay and red-tapism were prevalent, and they must strive their utmost to eradicate them.

The Chief. Minister pointed out that people generally did not find fault with Government if they did not readily solve big problems But they would find fault if Government applied different principles to different individuals. The efficiency of the administration was judged by the way in which people were treated All should be treated alike, he said.

Referring to interference from non-officials, the Chief Minister observed that while they should be polite to non-officials, they should on no account, allow themselves to be influenced by them, however high-placed they might be.

Vidhana Saudha

Bangalore, 22

Chief Minister Kadidal Manjappa stated here yesterday that he would stick to the design prescribed by his predecessor Sri K. Hanumanthaiya in the construction of theVidhana Saudha, now nearing completion.

Speaking to Pressmen, Mr. Manjappa said that "not much can be saved by radically altering the design at this stage. The Chief Minister added that he did not want to wound the feelings of Mr. Hanumanthaiya and had therefore told the Engineers to continue the construction according to the previous design, but avoid unnecessary expenditure. "The design as planned under the direction of Mr. Hanumanthaiya will have to stand," he said.

LARGE-SCALE AMBAR CHARKA PLAN OPPOSED

A West German Textile Engineer, Mr. Etter had opposed large-scale Ambar Charka programme in India at the expense of the mill industry. Mr Etter was invited by the Union Government to express his views on the technical potentiality of the Ambar Charka. He had stated that the cloth produced from the Ambar Charka would be too expensive for most people and this would affect adversely the whole economy of the country. India could not afford to subsidise production of such cloth for a very long time, in her present financial position, he stated.

Vol. VII. MYSORE FRIDAY AUGUST 24 1956 No. 7

NEW MYSORE TO HAVE THREE DIVISIONS WITH 19 DISTRICTS

Bangalore, 24

The Inter-State Ministers' Committee constituted by the Mysore Government will meet on August 29 Chief Minister Sri Kadidal Manjappa presiding, when it will finalise the allocation of the Indian Administrative Services and Indian Police Service Personnel in the New State. It will also determine the cadre strength.

This Committee will take up for consideration the recommendations made by the Inter-State Committee of Officers, on the creation of divisions and take a decision on the number of divisions and also on powers and duties of the Divisional Commissioners.

The Officers' Committee has recommended the formation of three divisions consisting of 19 districts. SOARING PRICES OF FOODGRAINS

M.P.C.C. CHIEF WARNS MERCHANTS

Mysore, 28

Sri S. Channiah, President, M. P. C. C. appealed to the Merchants not to force the Government to reimpose control over foodgrains in the State, by increasing prices abnormally.

He was presiding over a function held at Town Hall here yesterday to felicitate the Sharada Dramatic Company of Gokak.

Sri Channiah said that there was plenty of rice in the State and the Government knew where it had been stocked. But they did not want to take stringent and coercive measures to bring it to the open market. He asked the merchants to release atleast 25 per cent of their stocks of rice to ease the situation

Referring to the import position, he said that the Central Government were importing foodgrains worth nearly Rs. 85 crores and there was no fear of shortage of food. The Government would supply any amount of rice; but only to those who needed it. Merchants should not purchase it for purposes of profiteering, he said.

Sri Channiah disclosed that he had requested the Government not to sell 25seers of rice per family at a time, out of the Government supply, but only rice worth Rs. 2 or 3, so that the existing stock might be equitably distributed among the public.

Earlier he paid tributes to the Dramatic Company and said that people should encourage ancient art of Drama. Speaking about the formation of Greater Mysore, he appealed to Mysoreans to welcome Kannadigas from other parts whole-heartedly.

On behalf of the Reception Committee, Sri A. Krishnamurthy Rao, Municipal President presented an address to Sri G. T. Hosamane, Proprietor of the Company for their services to the Kannada stage.

Sri M. C. Mahadevaswamy proposed vote of thanks.

INTEGRATION OF P. C. Cs.

Bangalore, 28

The M. P. C. C. Executive which met here yesterday authorised the President Mr. Channiah to proceed to Delhi, if necessary to discuss with the A.I C.C. matters connected with the integration of the P. C. Cs of Mysore, Karnataka, and Kannada areas of Hyderabad.

It also constituted a committee to study how far the Congress decisions on land reforms and Bhoodan had been implemented, by the State Government; and to make suitable proposals for carrying out the Land Policies of the Congress.

OFFICIAL

Bangalore, 28

Sri K Marulappa, Manager, Revenue Commissioner's Office has been posted as Personal Assistant to the L.S.G Minister, in place of Sri V. Shankarappa, who has been transferred as Special Officer, Visveswaraya Canal Area, Mandya.

EXHIBITION GUIDE

Mysore, 28

In connection with the publication of the Mysore Dasara Exhibition Guide for 1956, articles will be received from the public both in Kannada and English, up to Sept. 4 by the Secretary, Dasara Exhibition Committee Mysore.

Sale of Rice in Societies

Mysore, 28

Rice received from the Central stores are being sold to the public only through five co-operative societies at present, including the City Co-operative Society; the Food Research Institute Co-operative Society and the Government Branch Press Society.

Seven wagon-loads amounting to 100 tons of American rice arrived in the city. But so far only 650 maunds have been released to these societies and much stock is left in the godowns. Arrangements are being made to get some more rice from Bangalore.

As the societies have been asked to purchase rice from the Central stock and then sell it to the public, it is learnt that there has been very poor response from the societies.

This cash-purchase-sales system has deprived the public of getting rice, though there is sufficient stock.

MPCC Urges Fair Price Depots

Bangalore, 28

The Executive Committee of the Pradesh Congress met here yesterday and appealed to Government to open fair price depots wherever necessary in the State and make available foodgrains to the public at reasonable prices, due to the steep rice in prices of foodgrains. Food Minister Sri H. Siddaveerappa was present by special invitation.

A meeting of all the Deputy Commissioners was held at the chambers of the Chief Minister yesterday and discussed measures to be taken to stabilise the price of rice and other foodgrains. The Food Minister and the RevenueCommissioner also were present.

STUDENTS' STRIKE CONTINUES

Mysore, 28

The strike by the students of the Government College of Indian Medicine which entered the ninth day is continuing peacefully.

The Executive Committee of the local Hotel Workers' Association which met yesterday unanimously urged the State Government to do justice to the students.

AMBAR CHARKA TRAINING

Mysore, 28

The two months' training scheme for giving training in Ambar Charka started on June 25 at Tagadur concluded on August 24 last. Since only six Ambar Charka sets were available, training was given only for 12 men and 12 women.

FAMILY PLANNING

Bangalore, 28

The Government of Mysore have decided to allot Rs. 8000 for family planning activities in the State.

The Mysore Family Planning Association was now receiving assistance from the Central Government to the tune of Rs. 18000.

Under the Second Five Year Plan, the State has been allotted 10 urban and 16 rural planning centres.

Inter-State Ministers' Meeting

Bangalore, 30

"The New State of Mysore to come into existence will have to face a deficit and it will be our task to fill up this gap. Though it is a difficult job, yet with courage, confidence and cooperation of all I am sure we will be able to tide over the difficulties', observed SriKadidal Manjappa, Chief Minister presiding for the first time, after he became the Chief Minister, over the Inter-State Ministers' Conference here yesterday.

Sri KadidalManjappa addressing the Members said that they were entrusted with tackling outstanding problems arising out of the creation of New Mysore. Though Mysore was the biggest of the five parts that composed the New State, he did not want to leave an impression that Mysore would dominate They must realise that they were all part of a Great Unit and forget their regional bias and differences in the discharge of the duties to the satisfaction of all concerned.

He hoped that they would be able to solve the various problems within the stipulated time with the cooperation of all.

Then the Committee considered in detail the issue of fixing the cadre strength of the officers of Indian Administrative and Police services, it was understood. The question would be discussed further today when a finality would be reached. The question of appointing Divisional Commissioners was also discussed but no decision was taken.

GREATNESS OF LORD KRISHNA

Mysore, 30

The inaugural function of the local Kautilya Mandali was held here yesterday at the Maharaja's College, Sardar K. Basavaraja Urs presiding.

Mr. M A. Doraiswamy Iyengar speaking on Lord Krishna as a historic being said that Krishna was not a mythical person but he lived as a human, preaching to humanity the highest ethics of life. Without Krishna, there is no 'Hindu' religion, he said.

Prof. Yamunacharya dealing with the life of Lord Krishna as a 'Purnavatara' said that 'truth, renunciation and rectitude of conduct' formed the three steps of 'His' mission. Lord Krishna was not a 'Don Juan' as some Westerners thought; but one who had the 'Inner Soul and Power'. Krishna taught the world the philosophy of 'Pushtymarga' or the 'Life of Fulness'. In short Lord Krishna is ever the radiant, beautiful figure, living in the hearts of the Hindus

Prof Nickam in his speech said that whenever there was ascendency of Adharma, there was the descent of some Divine to save the world This made 'History'. Lord Krishna was the undying spirit of 'Reality'. He asked present-day generation to return to the 'Gita' for a proper understanding of the mission of life.

Earlier Dr. M.V. Krishna Rao welcomed the gathering.

The Unwanted College

The Government College of Indian Medicine is in the un-enviable position of the unwanted. For some years past, there has been a continuous cry from the students of this institution for upgrading it and to provide necessary facilities for the study of the indigenous medicine. But the Government have not raised their little finger to improve the conditions.

The Government Ayurvedic and Unani College, as it was formerly known, made steady progress since its inception and had become so popular that it attracted a large number of pupils from different parts of the country. Today, it has a strength of 350, inclusive of 50 women. But its equipments and the teaching staff remained what they were in the beginning. The laboratory equipments essential for proper study of this science leaves much to be improved. The library is an apology, having but a few books on the subjects of study numbering 18.

So far as the teaching staff is concerned, there are at present 4 permanent, and 8 part-time teachers. Five vacancies still remain unfilled. Time and again, the students have been urging for increasing the number of beds in the hospital attached to the College. Their prayers fell on deaf ears, although their demands were legitimate. Seeing that nothing tangible was done by the Government to fulfil their requests, they resorted to strike on August 20.

The State Government cannot escape their responsibility to the hundreds of students who have come here for studying the science of indigenous medicine. The Central Government have expressed their keenness in reviving the ancient systems of medicine and have provided ample funds in the budget. In the light of this, the State Government's attitude is somewhat surprising. It concerns vitally the future career of many students, and should not be treated light-heartedly. It would be a sad commentary on the Government, if for any reason they failed to take prompt measures not only to upgrade the College but also to get all-India recognition. Otherwise they will render themselves answerable morally for the future of the youngmen, who would be wasting their precious time and money on the study which has no commensurate benefit for them.

Issue Of Rice On Identification

Mysore, 1

The City Municipal Council which met here yesterday accepted the suggestion of the Deputy Commissioner to sell rice in the Societies at 2 seers per rupee only to those who presented ward identification slips from the concerned Municipal Councillors. This measure was to check the issue of rice more than once to the same person.

The meeting was presided over by Sri A. Krishnamurthy Rao, President.

The Council considered the letter from the Deputy Commissioner on the issue of license to the Uma Talkies and decided not to grant the license. It requested the Deputy Commissioner to take proper action in the matter.

During the question hour, Mr. Srikanta Sarma said that the Municipality should take the lead by means of a deputation to Government in solving the demands of the students of the College of Indian Medicine, who were on strike. Messrs B. G. Das and M. K. Lingaiah also pleaded for immediate action by the Government in the matter.

Mr. Noor Hussain pointed out that the traffic sign-boards were not fixed in certain important places like school zones. He suggested that the Deputy Commissioner should be approached to see that the speed regulations were observed properly.

Several Councillors complained about false lists made regarding the work of cynogas fumigation and delay in approving licenses for construction of houses.

Mr. Noor Hussain criticised the treatment given to the beggars at the Beggar Home. Mr. Venkatalingiah suggested that the funds meant for beggar relief should be used properly.

" DAIVA SANKALPA "

Mahatma Pictures' "Daiva Sankalpa" their 19th offer in Kannada was released at the local 'Rajkamal' Talkies yesterday.

The picture depicts social life of a family strengthening old saying that when man proposes to do something, God disposes something else.

Here is a family of three persons Srikantiah, a mill-worker, his son Ananthu and daughter Geeta. Dr. Jayaram who comes to treat Srikatiah for some injuries falls in love with Geeta.But gets disappointed in not marrying her. He later marries Jayanthi against his will. Jayanthi saves Geetha when she attempts to commit suicide due to overtures of the owner of the house, and they become friends. Jayanthi in a child-birth loses her health and Geeta will be in the care of the child. Doctor Jayaram sees her and wants to marry her Jayanti learning this sacrifices herself by taking poison to allow the lovers to come together.

Of the actors except Subbaiah and Rajakumari, all others have exhibited poor show. Balakrishna provides some relief, The music could have been bettered. The picture although not of an outstanding quality yet maintains interest. Being a Kannada picture, it is worth a visit.

HANUMANTHAIYA'S PLEA

Mysore, 3

Congressmen in the country, at present have completely forgotten the ideals of Mahatma Gandhi and the peaceful and non-violent way in which independence was earned. Selfishness was increasing everywhere and the mind of every Congressman was only to fight for getting votes and power by any means, observed Sri K. Hanumanthaiya, former Chief Minister here, yesterday.

Inaugurating the South Canara Students' Association Sri Hanumanthaiya warned the Congressmen that if the present state of affairs continued the hard-earned independence would not last long and we would become again slaves of either America or Russia. He appealed to every Congressman to work in the same way as they worked during the pre-independence days and strengthen the organisation.

Speaking about his future and his views about the new Ministry in the State, Mr. Hanumanthaiya stated that all the members of the new Cabinet were his friends and colleagues in his cabinet. They had extended whole-hearted co-operation for all the schemes and tasks undertaken by him as Chief Minister and hence he would not say anything against them, After all, their stay was only for about two months,' he remarked.

About his future activities, Mr. Hanumanthaiya said that his great ambition was not to become a Minister again but to purify the organisation by following the path laid down by the Father of the Nation-Mahatma Gandhi. He said that internal bickerings in the Congress organisation was increasing not only in Mysore but in every State. It was time to fight against it and purify the organisation If it was not done the organisation would lose the popular support of the people. He categorically stated that if he did not succeed in this task, he would retire from politics.

Speaking about South Canara and its people he said that they were very intelligent and God-fearing. Great saints like Ramanuja, were born here and it was the abode of Lord Krishna and the people of Mysore were really fortunate and happpy to have these people among them.

Earlier, after invocation, the Secretary of the Association welcomed the guests.

Prof. Narayana Rao, who presided appreciated the great service that was being rendered by Sri K. Hanumanthaiya and promised full support of the people of South Canara in his endevours.

TRAIN DISASTER NEAR HYDERABAD

112 DEAD AND OVER 24 INJURED

One hundred and twelve passengers died and several injured in a train disaster on Saturday midnight, sixty miles from Hyderabad.

The tragedy, worst of its kind, occurred at 12-15 a.m. when the Down passenger train on the meter-guage of the Dronachalam — Secunderabad section of the Central Railways was running between Jadcherla and Mahbubnagar stations. A 20-feet bridge across the Pasani Kunta river which was in floods collapsed after the engine had crossed over to the other side, plunging the engine tender and two third-class bogies with the passengers into fifteen feet of water. The front portion of the third bogie was smashed to smithereens and was hanging over a pyre of the bridge. Other six bogies of the train narrowly escaped.

Immediately after the receipt of information, search, parties, and medical train arrived at the scene of occurrence.

The search parties recovered 112 bodies. till night yesterday. 28 bodies were identified and handed over to their relatives. 78 bodies were removed to Hyderabad in a train.

The Government Inspector of Railways would hold an enquiry into the accident of Sep. 4 at Mahbubnagar.

Union President Dr.Rajendra Prasad had sent a message conveying his heartfelt sympathies to the relatives of those who died and injured in the train disaster.

TECHNICAL TRAINING THROUGH ENGLISH

Stressing the importance of technical training to achieve a comprehensive and integrated approach to the question of trained manpower, essential for India's achievement, Prime Minister Nehru declared at New Delhi yesterday that the technical training should continue to be given in English, in the foreseeable future. He felt that if it was given in Hindi, the trainees would be inadequately trained and would therefore be unable to do the job satisfactorily.

The Prime Minister who was addressing the State Education Ministers' Conference said' it is patent to me that the man power for industrial, scientific and agricultural purposes cannot be trained in any Indian language in the forseeable future It is absolutely clear to me that the scientific and technical training has to be given in English. It is an absolute necessity and you will not get through your plan if you do not do it".

Union Education Minister Maulana Abul Kalam Azad also emphasised the role of English in the development schemes of the country.

Hyderabad Rail Disaster

DEATH ROLL MOUNTS TO 114

With the recovery of two more bodies yesterday, the death roll has mounted to 114 in the train disaster that took place on the night of Saturday last, about sixty miles from Hyderabad Ten injured persons are still undergoing treatment in the hospital.

So far 42 bodies had been identified.

Mr. Lal Bahadur Shastri, Union Minister for Railways visited yesterday the scene of the railway disaster. He said that an expert Committee of Engineers would be set up to inspect every railway bridge in Hyderabad State.

The Lok Sabha after discussing the train tragedy yesterday observed one minute's silence, to express sympathy to the unfortunate victims.

As a mark of respect to the dead and the wounded, Hyderabad City also observed complete hartal. All business centres, shops and several educational institutions were closed yesterday.

Though further search in the river bed is still going on, there seems to be no trace of getting any more bodies.

The Central Railway has sanctioned Rs. 200 each to the families of the eight railway officials who died in the accident.

It is stated that the bridge which collapsed was examined by railway officials last month and was found fit for use. Three hours earlier to the mishap, a goods train had passed on the track.

Some members in the Parliament yesterday demanded a judicial enquiry into the mishap. The Prime Minister stated that the Government had no objection to hold a judicial enquiry, but such an enquiry may not be of much use in such technical matters.

WALK-OUT IN ML. COUNCIL

Mysore, 5

The Opposition Members in the City Municipal Council staged a walk-out yesterday, at the adjurned meeting The walk-out was the result of the Council accepting an amendment to a resolution tabled by Mr Noor Hussain, requesting Government to take immediate effective steps to check the rise in price of foodgrains. Mr. Kenge Gowda's amendment sought to introduce words " continue to " instead of " to take immediate effective steps '. The amendment was carried. The Opposition members as a protest against this left the Council hall and later returned. The amended resolution was passed.

The Council adopted the resolution on the motion of Fr. Audieu that the foot-paths be kept in proper condition for the use of pedestrians.

Mr. Chowdiah withdrew his resolution seeking to abolish double riding on cycles in the city, when Mr. Srikanta Sarma rose a point of order that the resolution was oppcsed to the bye-law of the Municipality.

Earlier, the Council passed a resolution, moved by the Chair, expressing its sympathy with those who died and were injured in the Hyderabad railway disaster.

The President then gave answers to questions put at the previous meeting of the Council. He said that the course of action that the Municipality should take regarding the Strike by the students of the Govt. College of Indian Medicine, could be decided only if a resolution came up before the House.

As regards the fixing up of traffic sign boards, he stated that in consultation with the District Magistrate and the police authorities they would be fixed wherever found necessary.

Replying to an interpellation the President stated that the cases of drowning in the Municipal swimming pond took place in the absence of the Inspector, The President revealed that 111 officers of the Municipality were receiving conveyance allowances.

Token Strike By Varsity Students

Mysore, 5

Nearly 2000 students from various colleges in the City expressed their whole-hearted support to the cause of the students of the Government College of Indian Medicine who are on strike since Aug. 20, by staging a sympathetic token strike today.

Students of all the Colleges in the city except Maharani's and Medical Colleges assembled this morning at 11 near Maharaja's College and took out a procession in main streets of the city with placards expressing their support to the students' strike.

Later they met in the Town Hall maidan at a meeting. Several students including Messrs Shantappa, Shiviah, Anantiah, Narayanaswamy spoke criticising the apathy of the Government in not fulfilling the reasonable demands of the students.

A resolution was passed urging upon the Government to fulfil and implement the needs of the College of Indian Medicine without any further delay failing which the students of the University would be compelled to join the struggle.

It also urged upon the Government to affiliate the College of Indian Medicine to the University of Mysore to save the College from decline and external influences. Mr. N. R. Shetty presided.

Philosophy Of Second Plan

Mysore, 5,

"I am more interested today to mould the public opinion than to indulge in mudslinging", said Mr. K. Hanumanthaiya yesterday at the Maharaja's College, answering certain questions and added that they were too personal

The Ex-Chief Minister was speaking at a function held under the auspices of the Sociology and Philosophy Association.

Addressing the students on the 'Philosophy of the Second Five Year Plan'. Mr. Hanumanthaiya observed that though the plan was comprehensive and envisaged huge expenditure, yet the plan proposed to re-orientate the society. The underlying philosophy of both First and Second plans was the economic progress They were, so to say, their 'Vedas'. The plans contained everything relating to the economic development. They constituted a well planned programme for all-round progress, and not sporadic, he observed.

Mr. Hanumanthaiya stressed that mere planning was not the 'be-all and end-all' of the economic progress. It depended upon the availability of the natural resources, skill and efficiency of human material If they worked in a co-ordinated and harmonious way, the country would certainly achieve economic progress.

Mr. Hanumanthaiya continued that the First plan had its objective in creating a Welfare State, through raising the standard of life, The Second plan aimed at the socialistic pattern of society, which ensured equi-distribution of wealth. " Let us try to work hard and implement the same " he said.

Earlier Prof. Nickkam welcomed.

More than 1000 students had gathered and due to lack of proper arrangements by the organisers many had to go back disappointed without hearing Mr Hanumanthaiya.

IT PAYS TO ADVERTISE

MORE RICE FOR MYSORE

Bangalore, 6

"The Centre is releasing 12,000 tons of high quality rice to Mysore State out of the buffer stocks shortly to combat the soaring prices in the open market", said Chief Minister Kadidal Manjappa here yesterday.

The Chief Minister who returned from Delhi stated that the Mysore Government had decided to open more fair price depots to sell rice to the public to ease the situation.

Mr. Kadidal Manjappa said that the Centre and State Governments had determined to bring down the food prices by all possible means.

He further disclosed that the Central Food Minister had promised to supply to Mysore further stocks of rice if necessary, in addition to 12,000 tons. Out of the 12.000 tons to be received, daily 100 to 150 tons of rice would be released everyday. He asked public spirited men willing to undertake sale of rice on behalf of Government to come forward for this purpose.

The current stock position showed that they had a stock of 5000 tons of rice today, he said.

License For Uma Talkies

HEATED DISCUSSION IN MUNICIPAL COUNCIL

Mysore, 6

For the second time within a week, there was a walk-out in the City Municipal Council, at its adjourned meeting yesterday.

Mr. Noor Hussain moved a resolution which stated that the license granted by the Deputy Comissioner to the Uma Talkies, was in "disregard of all the mandatory provisions of the Rules".

The Municipal President pointed out that this question had already been decided in the meeting on August 31, and so the resolution did not stand.

Mr. Noor Hussain said that this question was not discussed and the reselution would stand.

Mr. S. Linganna raised a point of order that the resolution could not be taken up as it had already been decided.

Mr. Noor Hussain said that the decision of the previous meeting was on a letter from the Deputy Commissioner. But this resolution was quite different.

Messrs. Srikanta Sarma and Aziz Sait supported Mr, Noor Hussain while Mr. B. K. Ramakrishnaiah, leader of the opposition supported Mr. Linganna and said that the resolution could not be taken up, as it had been decided earlier.

Mr. Noor Hussain persisted that his resolution was different and should be taken up.

There was a heated discussion on the subject. Messrs. Noor Hussain and Muhammad Sait staged a walk-out.

The President then upheld the point of order and stated that the matter had already been discussed and decided.

The Council rejected the Health Committee's resolution recommending permission for the slaughter of animals during both morning and evening.

MORE FINANCIAL ASSISTANCE FOR STATE

Bangalore, 6

Chief Minister Kadidal Manjappa stated here that he had impressed the Central Government that Mysore State required increased financial assistance to complete the organisation of the new State since it would start its career with a deficit budget.

He was speaking to Pressmen yesterday after his return from Delhi.

Mr. Manjappa said that he discussed with the Centre the question of the integration of services, common pay-scales and also the issue of compensation for the Kolar Gold Mines.

Need For Intensive Cultivation

Prime Minister Nehru disclosed yesterday in Lok Sabha that Chief Ministers of States had been addressed, to make every effort to reach the target of additional food production fixed at the Mussoorie Conference of Agriculture Ministers, without expecting additional financial assistance from the Centre.

This could be achieved, he said, by allying the Community Development Projects and National Extension Service Schemes with food production schemes of the Agricultural Departments.

The Prime Minister pointed out that during the first plan, the production was increased by about 25 per cent in Community Project areas and it should be now possible for them to increase it by 30 to 35 per cent by intensive cultivation more than by extending areas under cultivation.

He decried the latest tendency among the agriculturists to depend more upon fertilizers, ignoring the use of green and other manures, for raising the yield of foodgrains.

FREE SITES FOR HOUSE CONSTRUCTION

The Bombay Government made an announcement yesterday that they would grant free house-sites, and give loans free of interest for constructing houses, with a view to encourage mixed co-operative housing societies of the Backward Classes and non-Backward Classes.
